

# TAFT MEN WIN PLATFORM FIGHT

## Platform to Their Liking Reported by Resolutions Committee Was Carried to the Floor of the Convention Today

### Injunction Plank Agreed to After a Long Battle—Renomination of Roosevelt Threatened If "Allies" Turn Down Taft's Platform—The Platform is a Lengthy Document

CHICAGO, June 18.—Victory for the Taft people on the republican committee came with dawn. A platform which contains an injunction plank satisfactory to the prospective candidate is embodied in the substantial structure of verbiage upon which is to be made the secretary's appeal for popular approval. This result was attained with suddenness upon the collapse of the opposition early in the evening. Two hours before this the opponents of the injunction provision were rejecting offers of compromise and asserting with positiveness their ability to eliminate any injunction planks.

A telegram from President Roosevelt arrived, as well as a letter and telegram from Secretary Taft, each urging action. An ultimatum in substance "if not in words" had been delivered shortly before to the "allies" which was interpreted as spelling the renomination of Roosevelt, should the convention refuse a platform upon which the secretary of war could make the race with confidence. Then came the protracted discussion and the final adoption of the contested plank by a vote of 35 to 18.

There were a number of minor contentions in the committee but the Roosevelt-Taft idea prevailed in the ultimate analysis and while Thomas M. McCarver of New Jersey insisted on his right to take the question of injunction to the convention floor the prediction was made in authoritative quarters that no murmurs of the preliminary fight would be heard in that gathering.

Beginning with the adjournment of the convention Tuesday the work of the resolutions committee was practically continuous until 4:30 o'clock this morning when the finished platform was produced. It was not until 10 o'clock last night that the scales began to tip in favor of the administration forces but after the dissolution of the opposition began it was rapid and soon complete.

The court procedure plank as adopted by the committee on resolutions is as follows:

"The republican party will uphold at all times the authority and integrity of the courts, state and federal, and will ever insist that their powers to enforce their process and to protect liberty and property shall be preserved inviolable. We believe, however, that the rule of procedure to the federal courts with respect to the writ of injunction should be more accurately defined by statute and that no injunction or temporary restraining order should be issued without notice except irreparable injury would result from delay in which case a speedy hearing thereafter should be granted."

#### THE PLATFORM.

CHICAGO, June 18.—The text of the platform as adopted by the committee on resolutions is as follows:

Once more the republican party, in national convention assembled, submits its cause to the people. This great historic organization that destroyed slavery, preserved the Union, restored credit, extended the national domain, established a

sound financial system, developed the industries and resources of the country and gave to the nation her seat of honor in the councils of the world, now meets the new problems of government with the same courage and capacity with which it solved the old.

#### REPUBLICANS UNDER ROOSEVELT.

In this, the greatest era of American advancement, the republican party has reached its highest service under the leadership of Theodore Roosevelt. His administration is an epoch in American history. In no other period since the national sovereignty was won under Washington or preserved under Lincoln has there been such mighty progress in those ideals of government which make for justice, equality and fair dealing among men.

The highest aspirations of the American people have found a voice. Their most exalted servant represents the best aims and worthiest purposes of all his countrymen. American manhood has been lifted to a nobler sense of duty and obligation. Conscience and courage in public station and higher standards of right and wrong in private life have become cardinal principles of political faith; capital and labor have been brought into closer relations of confidence and interdependence and the abuse of wealth, the tyranny of power and all the evils of privilege and favoritism have been put to scorn by the simple, manly virtues of justice and fair play.

The great accomplishments of President Roosevelt have been first and foremost, a lawless and impartial enforcement of the law; the prosecution of illegal trusts and monopolies; the exposure and punishment of evil doers in the public service; the more effective regulation of the rates and service of the great transportation lines; the complete overthrow of preference, rebates and discriminations; the arbitration of labor disputes; the amelioration of the condition of wage workers everywhere; the conservation of the natural resources of the country; the forward step in the improvement of the inland waterways; and always the earnest support and defense of every wholesome safeguard which has made more secure the guarantees of life, liberty and property. These are the achievements that will make for Theodore Roosevelt his place in history but more than all else the great things he has done will be an inspiration to those who have yet greater things to do. We declare our unfaltering adherence to the policies thus inaugurated and pledge their continuance under a republican administration of the government.

#### EQUALITY OF OPPORTUNITY.

Under the guidance of republican principles the American people have become the richest nation in the world. Our wealth today exceeds that of England and all her colonies and that of France and Germany combined. When the republican party was born the total wealth of the country was \$15-

600,000,000. It has leaped to \$110,000,000,000 in a generation while Great Britain has gathered but \$50,000,000,000 in five hundred years. The United States now owns one-fourth of the world's wealth and makes one-third of all modern manufactured products. In the great necessities of civilization such as coal, the motive power of all activity; iron, the chief basis of all industry; cotton, the staple foundation of all fabrics; wheat, corn, and all the agricultural products that feed mankind, America's supremacy is undisputed. And yet her great natural wealth has been scarcely touched. We have a vast domain of three million square miles, literally bursting with latent treasure, still awaiting the magic of capital and industry to be converted to the practical uses of mankind; a country rich in soil and climate, in the unharvested energy of its rivers and in all the varied products of the field, the forest and the factory. With gratitude for God's bounty, with pride in the splendor of productivity of the past and with confidence in the plenty and prosperity of the future, the republican party declares for the principle of wealth so great and blessings so bountiful in the development and enjoyment of wealth as great and blessings so bountiful, there shall be equal opportunity for all.

#### THE REVIVAL OF BUSINESS.

Nothing so clearly demonstrates the sound basis upon which our commercial and industrial life is founded and the necessity of promoting their continued welfare through the operation of republican policies as the recent safe passage of the American people through a financial disturbance which, if appearing in the midst of democratic rule or the menace of it, might have equalled the familiar democratic panics of the past. We congratulate the people upon this renewed evidence of American supremacy and hall with confidence the signs now manifest of a complete restoration of business prosperity in all lines of trade, commerce and manufacturing.

#### RECENT REP. LEGISLATION.

Since the election of William McKinley in 1896 the people of this country have felt anew the wisdom of entrusting to the republican party through decisive majorities the control and direction of national legislation. The many wise and progressive measures adopted at recent sessions of congress have demonstrated the patriotic resolve of republican leadership in the legislative department to keep step in the forward march toward better government.

Notwithstanding the indefensible filibustering of a democratic minority in the house of representatives during the last session many wholesome and progressive laws were enacted and we especially commend the passage of the emergency currency bill; the appointment of the national monetary committee; the employers' and government liability laws; the measures for the greater efficiency for the army and navy; the widows' pension bill; the child labor law for the District of Columbia; the new statutes for the safety of railroad engineers and firemen; and many other acts concerning the public welfare.

#### TARIFF ISSUE.

The republican party declares unequivocally for a revision of the tariff by a session of congress immediately following the inauguration of the next president and commends the steps already taken to this end in the work assigned to the appropriate committees of congress which are now investigating the operation and effect of existing schedules. In all tariff legislation the true principle of protection is best maintained by the imposition of such duties as will equal the difference between the cost of production at home and abroad, together with a reasonable profit to American industries. We favor the establishment of maximum and minimum rates to be administered by the president under limitations fixed in the law, the maximum to be available to meet discriminations by foreign countries against American goods entering their markets, and the minimum to represent the normal measure of protection at home, the aim and purpose of the republican policy being not only to preserve without excessive duties that security against foreign competition to which American manufacturers, farmers and producers are entitled but also to maintain the high standard of living of the wage earners of this country who are the most direct beneficiaries of the protective system. Between the United States and the Philippines we believe in a free interchange of products with such limitations as to sugar and tobacco as will afford adequate protection to domestic interests.

#### CURRENCY.

We approve the emergency measures adopted by the government during the

recent financial disturbance, and especially commend the passage by congress at the last session of the law designed to protect the country from a repetition of such stringency. The republican party is committed to the development of a permanent currency system, responding to our greater needs and the appointment of the national monetary commission by the present congress, which will impartially investigate all proposed methods, insures the early realization of this purpose. The present currency laws have fully justified their adoption, but an expanding commerce, a marvelous growth in wealth, and population multiplying the centers of distribution, increasing the demand for the movement of crops in the west and south, and entailing periodic changes in monetary conditions, disclose the need of a more elastic and adaptable system. Such a system must meet the requirements of agriculturalists, manufacturers, merchants and business men generally, must be automatic in operation, minimizing the fluctuations in interest rates, and above all, must be in harmony with that republican doctrine which insists that every dollar shall be based upon and as good as gold.

#### POSTAL SAVINGS.

We favor the establishment of a postal savings bank system for the convenience of the people and the encouragement of thrift.

#### THE TRUSTS.

The republican party passed the Sherman anti-trust law over democratic opposition and enforced it after democratic dereliction. It has been a wholesome instrument for good in the hands of wise and fearless administration. But experience has shown that its effectiveness can be strengthened and its real objects better attained by such amendments as will give to the federal government greater supervision and control over and secure greater publicity in the management of that class of corporations engaged in interstate commerce having power and opportunity to effect monopolies.

#### THE RAILROADS.

We approve the enactment of the railroad rate law and the vigorous enforcement by the present administration of the statutes against rebates and discriminations as a result of which the advantages formerly possessed by the large shipper over the small shipper have practically disappeared and in this connection we commend the appropriation by the present congress to enable the interstate commerce commission to thoroughly investigate and give publicity to the accounts of interstate railroads. We believe, however, that the interstate commerce law should be further amended so as to give the railroad agreements, subject to the approval of the commission, but maintaining always the principle of competition between naturally competing lines and avoiding the common control of such lines by any means whatsoever. We favor such national legislation and supervision as will prevent the future over-issue of stocks and bonds by interstate carriers.

#### RAILROAD AND GOVERNMENT EMPLOYEES.

The enactment in constitutional form at the present session of congress of the employers' liability law; the passage and enforcement of the safety appliance statutes as well as the additional protection secured for engineers and firemen; the reduction in the hours of labor of trainmen and railroad telegraphers; the schedule exercise of the powers of mediation and arbitration between interstate railroads and their employees; and the law making a beginning in the policy of compensation for injured employees of the government, are among the most commendable accomplishments of the present administration. But there is further work in this direction yet to be done and the republican party pledges its continued devotion to every cause that makes for the safety and the betterment of conditions among those whose labor contributes so much to the progress and welfare of the country.

#### WAGE EARNERS GENERALLY.

The same wise policy which has induced the republican party to maintain protection to American labor; to establish an eight-hour day in the construction of all public works; to insist that the right of compensation shall be preferred claims for wages under the bankruptcy laws; to adopt a child labor statute for the district of Columbia; to direct an investigation into the condition of working women and children and later of employees of telephone and telegraph companies engaged in interstate business; to appropriate at the recent session of congress in order to secure a thorough inquiry into the causes of catastrophes and loss of life in the mines; and to amend and strengthen the law prohibiting the importation of contract labor will be pursued in every legitimate direction within federal authority, to lighten the burdens and increase the opportunity for happiness and advancement of all who toil. The republican party recognizes the special needs of wage workers generally, for their well being means the well being of all. But more important than all other considerations is that of government, and especially for the benefit of every American, whatever his occupation, in his capacity of a self-respecting citizen.

#### COURT PROCEDURE.

The republican party will uphold at all times the authority and integrity of the courts, state and federal, and will ever insist that their powers to enforce their process and to protect liberty and property shall be preserved inviolable. We believe, however, that the rules of procedure in the federal courts with respect to the issuance of the writ of injunction should be more accurately defined by statute, and that no injunction or temporary restraining order should be issued without notice except irreparable injury would result from delay in which case a speedy hearing thereafter should be granted.

#### THE AMERICAN FARMER.

Among those whose welfare is as vital to the welfare of the whole country as that of the wage earner is that of the American farmer. The prosperity of the country rests peculiarly upon the prosperity of agriculture. The republican party during the last twelve years has accomplished extraordinary work in broadening the resources of the national government and the farmer and only by increasing the resources of rural life can the rural mail delivery have been established, and the farmer's voice heard in the halls of congress.

CHICAGO, June 18.—Both in respect to temperature and political development the early indications were that the third day of the republican national convention would be warmer than any of its predecessors. A hot wind from the southwest started the mercury on a rapid climb and long before the opening of the convention the delegates were discarding coats and in some instances vests were sent after the coats. Fans were at a premium.

From the political view point the warmth of the day was expected to arise from a possible fight on the floor of the convention over the anti-injunction plank of the platform.

The delegates were slow in arriving at the hall and fifteen minutes before 10 o'clock, the hour to which the adjournment of yesterday was taken, there were less than a dozen in their seats. The galleries were also sparsely filled, although the crowds were gathering on the outside. The Taft managers early in the day placed on the floor of the convention but not in the capacity of either delegate or alternate, a number of the most prominent Taft supporters in the party. The duty of these men was to watch the work of the opposition candidates and to promptly head off any possible deflection of strength and to hasten all accessions.

These men were Senators Fulton of Oregon, Warren of Wyoming, Burkett of Nebraska, Long of Kansas, Borah of Idaho and National Committeemen Charles Brooker of Connecticut, Powell Clayton of Arkansas and F. C. Duncan of North Carolina.

Frank Hitchcock, the Taft manager, was also roaming around to see occasions to aid the cause of the secretary in all possible ways.

At 10 o'clock the delegates began to fill up and the gallery crowds were becoming denser.

Many of those in the sections reserved for visitors brought lunch boxes. The heat increased appreciably and it was not long before shirt sleeves were much in evidence.

#### CALLED TO ORDER.

Chairman Lodge called the convention at 10:17 a. m. He introduced the

platform, which was read by Rev. John Hill of New York who opened the session with prayer. Senator Fulton of Oregon was recognized to introduce George H. Williams, the last surviving member of President Grant's cabinet and a member of the Oregon delegation.

Senator Hopkins received the recognition of the chair, and there was a wave of applause as he stepped to the stage. Representative Cooper of Wisconsin selected to make a minority report on the platform, also went to the stage with a ripple of plaudits following him, and Chairman Lodge formally presented Senator Hopkins.

"I am instructed," said Senator Hopkins, "to present to the convention—" ("Louder," the speaker was interrupted, "louder," came the shouts as he began the first sentence.) "I don't go any louder," explained the senator and continued to read the first passage of the preamble according high praise to the president, and there was applause but no attempt at a demonstration.

The members of the New York delegation were provided today with silken American flags mounted on spear tipped staves of brass. The notes of conversation increased steadily and soon Senator Hopkins was practically submerged in the vocal struggle. Chairman Lodge sat quietly at his desk taking little apparent notice of the situation. A white haired delegate from Colorado finally shouted: "Mr. Chairman, bring some order."

Bang went the chairman's gavel and said: "The chair must request the delegates to cease from conversation so audible as to prevent the delegates from hearing the resolutions."

The hall was instantly quiet and Senator Hopkins went on.

The roar of voices, however, soon again became prominent and swelled steadily.

#### ANTI-INJUNCTION PLANK.

When the anti-injunction plank was reached the words "integrity of the courts" called forth applause. There were cries of "no" when the suggestion was made that there was necessity for a change in the present manner of issuing injunctions. The conclusion of the plank was generously applauded.

#### PROTECTION OF CITIZENSHIP.

We commend the vigorous efforts made by the administration to protect American citizens in foreign lands and pledge ourselves to insist upon the just and equal protection of all our citizens abroad. It is the unquestioned duty of the government to procure for all citizens, without distinction, the rights of travel and sojourn in friendly countries and we declare ourselves in favor of all proper efforts tending to that end.

#### FOREIGN COMMERCE.

Under the administration of the republican party the foreign commerce of the United States has experienced a remarkable growth until it has a present annual valuation of approximately three billions of dollars and employment to a vast amount of labor and capital which otherwise would be idle. It has inaugurated, through the recent visit of the secretary of state to South America and Mexico, a new era of Pan-American comity which is bringing us into closer touch with our twenty sister American republics having a common historical heritage a republican form of government and offering us a limitless field of legitimate commercial expansion.

#### THE HAGUE TREATIES.

The conspicuous contributions of American statesmanship to the great cause of international peace, so signally advanced by the Hague conferences are an occasion for just pride and gratification. At the last session of the senate of the United States eleven Hague conventions were ratified, establishing the rights of neutrals, laws of war on land, restriction of submarine mines limiting the use of force for the collection of contractual debts, guaranteeing the opening of hostilities, extending the application of Geneva principles and, in many ways lessening the evils of war and promoting the peaceful settlement of international controversies. At the same session twelve arbitration treaties with great nations were confirmed and extradition, boundary and neutralization treaties of importance were ratified. A vast number of achievements as the highest duty a people can perform and the obligation of further strengthening the bonds of friendship and peace with all the nations of the world.

#### MERCHANT MARINE.

We adhere to the republican doctrine of encouragement to American shipping and urge such legislation as will revive the merchant marine prestige of our country, so essential to national defense, the enlargement of foreign trade and the industrial prosperity of our own people.

The reference to the negro and the reiteration of the party's demand for the enforcement of the 13th, 14th and 15th amendments to the constitution called out brief applause.

For a time the delegates on the floor called for order in an effort to stop the roar of conversation which swelled from all quarters of the hall. Senator Hopkins also turned in appeal to the chair. Senator Lodge pounded on the table but his admonition was heeded for only a few seconds when the hum of voices again grew to the proportions that practically drowned the speaker's husky and fast falling voice.

The vigorous waving of fans by the fourteen thousand spectators and delegates in the coliseum gave to the immense living picture as viewed from the stage the fluttering effect of a kinesiographic film on exhibition.

Senator Hopkins made another appeal to the chairman for a semblance of order, and Senator Lodge wielded the gavel with some strength but again the rapping was of little avail.

Delegates and speakers alike were still lost in a discussion of the anti-injunction plank and seemed to have little concern with the other features as outlined by the reader.

#### MANY IN OPPOSITION.

Senator Hopkins went steadily on amidst the din, and the reading of the platform was concluded at 11:16.

"I move the previous question on the report I have just read and the minority report which will be read by Representative Cooper," it was Senator Hopkins who spoke.

Kansas and Ohio seconded the motion and it was put to a viva voce vote, and declared carried although there were many "noes" raised in opposition.

Representative Cooper, as he advanced to the front was greeted with cheers from the Wisconsin delegation. None came from any other direction.

Chairman Lodge before Mr. Cooper began the reading of his report announced that the debate on the question would be confined within 45 minutes, one-half to each side. Senator Hopkins, he said, would have charge of the bill on the side of the majority, and Representative Cooper for the minority.

# FOR ROOSEVELT

## Wild Enthusiasm and Cheering Greeted the Mention of His Name

THE FEATURE OF TODAY'S SESSION OF THE REPUBLICAN NATIONAL CONVENTION WAS THE GREAT ENTHUSIASM THAT GREETED THE MENTION OF PRESIDENT ROOSEVELT'S NAME BY SENATOR HENRY CABOT LODGE, THE PERMANENT CHAIRMAN OF THE CONVENTION. WHEN SENATOR LODGE SPOKE OF WHAT PRESIDENT ROOSEVELT HAD DONE DURING HIS ADMINISTRATION THE DELEGATES STARTED CHEERING WILDLY AND THE ENTHUSIASM CONTINUED FOR FORTY OR FORTY-FIVE MINUTES. CHAIRMAN LODGE ENDEAVORED TO QUIET THE DELEGATES BUT FINALLY GAVE UP ALL SEMBLANCE OF TRYING TO STOP THE NOISE AND RESUMED HIS SEAT ON THE PLATFORM. DURING THE ENTIRE DEMONSTRATION IN HONOR OF ROOSEVELT THE OHIO DELEGATION WAS CONSPICUOUS BY ITS SILENCE. THE SCENE WAS ALMOST INDESCRIPTIBLE AND LOOKED LIKE A STAMPEDE TOWARDS ROOSEVELT FOR THE PRESIDENTIAL NOMINATION.

### THE MARCHING CLUBS.

As Secretary Malloy concluded his announcement of the Warren resolution the east door was opened and in came a band heading a parade. They halted in front of the speaker's stand for an instant playing "America."

Close behind them came in single file the Knox marching club of Philadelphia and then the American club of Pittsburgh bearing high their umbrellas, some of red, white and blue and others of alternate sections of yellow and black.

The noise was not ideal marching ground and congestions were frequent and halts numerous. The Pennsylvanians filled the air with cries of "Knox."

Then came the Young Men's Blaine club of Cincinnati. They wore tall white hats and carried small American flags. Their appearance produced frenzy in the Ohio delegation. Instantly every man was on his feet, the red flags tossed up and cheer after cheer rang through the hall. The blue banner with the face of Secretary Taft upon it produced another outburst while the band struck up "Hall to the Chief."

Following the Blaine club there came a distinct novelty in the way of a band playing "Tammara" and then a big delegation of visitors from Danville bearing small flags with "Cannon" on them and a larger banner announcing them as "Neighbors of Uncle Joe."

The Cannon contingent called out renewed cheering of Cannon by their hurrahs for "Uncle Joe."

Another Knox club of Philadelphia bearing big banners and headed by a band playing "Dixie" joined in the line and was greeted with loud cheering in which the Pennsylvania delegation led.

The Pennsylvania drum major was quite the most gorgeous personage who had entered the convention hall. A furry white shako set off the striking height and his gay blue uniform was weighed down with medals of all descriptions.

Still another band came through the doorway and it was the turn of Indiana. Behind the band, wearing white caps with hands of black, were members of the Marion marching club of Indiana. They were given an enthusiastic greeting by the Indiana delegates.

Bringing up the rear of the other companies was a large elephant decorated with American flags bearing a banner of the Hamilton club of Chicago and led by a man dressed in "Uncle Sam" costume.

The credentials committee report simply stated all the present delegates except adding six delegates from New Mexico, giving a total of a vote in each.

The report of the credentials committee was adopted.

Gov. Wainwright of Louisiana and a few others alone shouted "no" when the vote was taken.

### SEN. LODGE CHOSEN.

The report of the committee on permanent organization naming Senator Lodge as permanent chairman of the convention was adopted unanimously.

Gov. Stewart Woodward of New York and Gov. Dineen of Illinois were appointed to assist Senator Lodge in the platform.

Senator Lodge spoke as follows:

Gentlemen of the Convention:

"I thank you most sincerely for the great honor you have done me in choosing me to preside over your deliberations. For it is a great honor to be the presiding officer of the republican national convention—I can conceive of no other. I have indeed heard of conventions where the honor of such a post as that now occupied by me is dubious, and where, if election is present, pleasure is conspicuous by its absence. But to be the presiding officer of a republican convention is ever a high distinction to which no man can be inexcusable. Gentlemen of the convention, again I thank you."

"I shall not delay or detain you with my words. Your resolutions will set forth the principles of the party and declare the policies upon which we shall ask for the support of the people of the United States. With fullness and with eloquence, your temporary chairman has already reviewed the history of the party, has given you

account of what has been done, and has set forth what we hope and mean to do. My duty is merely to aid you, so far as I can, in the orderly and prompt transaction of the business which has brought us together. That business is momentous—nothing less than to name here the two men who, speaking with the simplicity of truth, will be the next president and vice president of the United States. In order to win for them, and for our party, an assured as well as a merited victory, we must defeat our opponents, whose exclusion from power is desired by the country and deserved by them.

### REPUBLICAN PARTY'S RECORD.

No political party in modern times can show such a record of achievement during the last fifty years as the republican party. Upon that record we can stand and challenge all comers to the lists. But it is well to remember that the test we have to meet is much less severe. This is a comparative world. We do not go forth to contest the great prize with an ideal party, which we sometimes see beautifully depicted by persons of self-confessed superiority and chronic discontent. The glittering abstraction which they present never existed yet on sea or land. It gleams upon us in printers' ink but it has neither substance nor organization nor candidates must be taken from the ranks of men and cannot be the floating phantoms of an easy dream. The American people must choose next November between us and the democratic party. With the democratic party, and with that alone, must the comparison be made. We differ from that party in some important particulars. We, both, it is true, have a past and a history but we treat those possessions very differently. They wish to keep their past a proud secret. We seek for all means to publish ours to the world. If we refer to their history they charge us with calumny. We regard ours, faithful and undistorted, as our greatest glory. To the youth of the country they say: "Judge us solely by our undiscovered future." We say: "Read our record, judge us by our past and our present and from these learn what we are what we have been and what we mean to be." Recall the crises which have sounded from the lips of these two parties during the last half century. On the one side, "slavery, secession, repudiation of the public debt, flat money, free trade, free silver, the overthrow of the courts and government ownership."

On the republican side, "free soil, free men, the union, the payment of the debt, honest money, protection to American industry, the gold industry, the maintenance of law, of order and of the courts and the government regulation of great corporations." The old shibboleths of the democrats are today the epitaphs of policies which are dead and damned. They serve only to remind us of dangers except to warn us of perils to be shunned. The battle cries of the republicans have been the watchwords of great causes. They tell of victories won and triumphs tasted, they are embodied in the laws and mark the stepping stones by which the republic has risen to even greater heights of power and prosperity.

### CAREER OF VICTORY.

As we thus call up the past and the echoes of these old conflicts again sound in our ears and touch the chords of memory, one great fact stands forth, clear and shining. The republican party has never failed except when it has faltered. Our long career of victory, so rarely broken, has been due to our meeting boldly each question as it arose, to our facing every danger, as it crossed our path, with entire courage, fearless of consequences and determined only to be true to the principles which brought the party into existence and to the spirit which has inspired it from its birth.

We faced secession rather than assent to the extension of slavery. Rather than submit to secession we took up the dread burden of civil war. But a few years ago we permitted thousands of republicans to leave us, thereby imperiling our political power, rather than abandon the gold standard and plunge the country into disaster and dishonor.

In these latest years, as in the most remote, we have been true to our traditions. In the process of development a point was reached where the country was confronted by a situation more perilous than any it has ever faced except in the civil war and we republicans were, therefore, obliged to deal with the most complex and difficult character.

To our honor, he it said, we have not shrunk from the task. Much has been done—much, no doubt, still remains to do—but the great underlying principles have been established and upon them we can build, as necessity arises, carefully and deliberately.

### SITUATION IS GRAVE.

I have spoken of the seriousness of the situation with which the country was confronted. Its gravity can hardly be over-estimated. It grew out of conditions and was the result of forces beyond the control of men. Science and invention, the two great factors in this situation, have not only altered radically human environment and our relations to nature but, in their application, they have revolutionized economic conditions. These changed economic conditions have, in turn, affected profoundly society and politics. They have led, among other things, to combinations of capital and labor on a scale and with a power never before witnessed. They have opened the way to accumulations of wealth in masses beyond the dreams of avarice and never before contemplated by men.

The social and political problems thus created, are wholly new. It is a fallacy to suppose that because the elements are old the problem itself must, therefore, differ only in degree from those which have gone before. The elements may be old but the problem presented by a change in the proportion of the elements may be, and in this case is, entirely new.

### ROMANS FORMED "TRUST."

Great individual fortunes and rich men are, it is true, as old as recorded history. Nearly two thousand years ago the tax farmers of Rome formed a "trust" for their own profit and protection; the English people, three centuries ago, revolted against the patents of these which gave them a monopoly and monopolists, forestallers and speculators in the necessities of life were a curse in our revolution and bitterly denounced by Washington. Yet, it is none the less true that the same things today present questions different in kind as well as in degree from those of the past.

It is the huge size of private fortunes, the vast extent and power of modern combinations of capital, made possible by present conditions, which have brought upon us, in these later years, problems portentous in their scope and threatening to our social and political welfare. If they are not boldly met and wisely solved, the great body of the American people, neither very rich nor very poor, the honest, the thrifty, the hard-working, the men and women who earn and save, have no base envy—no fanatic hatred of wealth, whether individual or corporate, if it has been honestly gained. They are wisely and generously employed with a sense of responsibility to the public. But this great body of our people, by habit and instinct alike, wisely conservative, these people who are the bone and shew of our country and upon whom its fortunes and its safety rest, began to observe, with deep alarm, the recent manifestations of the new economic conditions. More and more they came to believe that these vast fortunes and these huge combinations of capital were formed and built up by tortuous and dishonest means and through a cynical disregard of the very laws which the mass of the people were compelled to obey. They began to fear that political power was being reft from their hands and put into the possession of the money holders, that their dearest rights were in danger, that their hopes of success and advancement were cut off by business systems which they could not understand but by which the individual was sacrificed and held down.

To those who looked beneath the surface an ominous unrest was apparent. The violent counsels of violence, who aimed at the destruction of

property and the overthrow of law, began to be heard and likened to the great order-loving, industrious masses of the American people turned away from these advocates of violence but, at the same time, demanded that their government should give them, in lawful and reasonable ways, the protection to which they were entitled, against the dangers they justly apprehended.

### HANDLED NEW PROBLEMS.

The great duty of fulfilling these righteous demands, like all the great public services of the last half century, was imposed upon the republican party and it has not flinched from the burden. Under the lead of the president, the republican party has grappled with the new problems, born of the new conditions. It has been no light task. Dangerous extremes threatened on either hand. On the one side were the radicals of republicanism, who resisted any change at all, on the other side were the radicals of destruction who wished to change everything. These two forms of radicalism are as far apart as the poles, but, when carried out, they lead alike to revolution. Between these two extremes the republican president and the republican congress were compelled to steer and while they advanced steadily, slowly and with difficulty, they were obliged to repel the radical assaults on either hand.

Notwithstanding all these difficulties, much has been accomplished. The response of the people to the policies urged by the president, has been so emphatic that it has been made clear, for all that the government of the United States needs to be dominated by money and financial interests, and that the political party which permits itself to be ruled by them is thereby doomed to defeat.

### REPUBLICAN PARTY'S POLICY.

The policy of the republican party, in dealing with these new and formidable questions which have taken concrete form in enormous combinations of capital and in great public service corporations, has been formulated and determined. That policy is government regulation and supervision for the control of corporations and combinations so that these great and necessary instruments of commerce and business may be preserved as useful servants and not destroyed because they have threatened to become dangerous masters.

The policy is a deliberate opposite of government ownership and, like all measures advocated by our opponents, tend directly to socialism and to all its attendant miseries and evils.

It is in pursuance of this policy, shaped and settled during the past few years, that old laws have been enforced and new ones enacted.

Nothing is more destructive to the respect for law—the chief bulwark of civilized society—than to place laws upon the statute book in order merely to still public clamor and satisfy the people, but which it is never intended to enforce. The laws are made, not to be used, because, if enforced, they might interfere with vested abuses or curb the rich and powerful.

The president has enforced the laws as he found them on the statute book. For this performance of his sworn duty, he has been bitterly attacked. He is to be expected. Vested abuses and profitable wrongs cry out loudly when their entrenchments are carried, and some one is sure to be hurt when the bayonets of the law are pushed home.

In the great American electorate, money has few votes but the demand for money votes causes many blunders. The result is that the president is the most abused and the most popular man in the United States today. He has been more abused than any president except Washington, Lincoln and Grant. He possesses the love and confidence of the American people, which have never equalled except by Lincoln and Washington. May it not be said, in sober truth, that the fearlessness performance of a sworn duty is not without its exceeding great reward?

But the work has not ceased with the enforcement of existing laws. A republican president and a republican congress have placed upon the statute book, designated to carry out the republican policy or government regulation in a safe, reasonable and effective manner. The Elkins law, aimed at preferential rebates, which have been the curse of our transportation and our business; the railroad rate law, which has been the highest degree, beneficial to the masses of our people, are all monuments of the policy and the labors of the republican party.

### ROOSEVELT OUT OF IT.

The president, who has led his party and the people in this great work, retires, by his own determination, from his high office, on the fourth of March next. His policy of government regulation, by a loftiest motives and a noble loyalty, to American traditions, is final and irrevocable. Any one who attempts to use his name as a candidate for the presidency, impugns both his sincerity and his good faith, two of the president's greatest and most conspicuous qualities, upon which his party has so justly relied. That man is no friend to Theodore Roosevelt and does not cherish his name and fame, who now, from any motive, seeks to urge him as a candidate for the great office which he has finally declined.

The president has refused what his countrymen would gladly have given him; he has what he desires and he has not. He says, and his party and his country will respect his wishes as they honor his high character and great public service.

But, although the president retires, he leaves his policies behind him. To those policies the republican party stands pledged. We must carry out as we have the policy of government regulation, of reaction and the radicals of revolution. We must hold fast to that which is good while we make the advances which the times demand.

We ask for the confidence and support of the American people because we have tried patiently to solve them. We appeal for votes and for the power they confer because we uphold the president's policies and shall continue to sustain them. We make our appeal with confidence because we have a well defined policy and we do not, like our opponents, fumble in the dark to find some opinion on some

We believe in the maintenance of law and order and in the support of the courts in all their rights and dignity. We believe in equal rights for all men and are opposed to special privileges for any man, or any class of men, high or low, rich or poor. We, who have established the gold standard, are pledged to the cause of sound finance. We stand for protection to American industry and American labor, and we will resist all the assaults of free trade under whatever name it comes disguised. We will use to the fullest extent the power of the government to secure peace and friendship with all the nations but alliance with none. Yet, we have no intention of being a "heretic nation." The great services of the president to the world's peace will be remembered by the party which he has led. We are a party fit to rule and govern, to be elected and administered, and not a fringe collection of atoms waving only for thought or motion is to oppose. Above all, we are true to our traditions and to our past. True now, as we were in the days of Lincoln.

In this spirit we must prevail by this day we must conquer.

Some time ago Mr. Lapham invited Chelmsford Grange to spend a day with him at his camp and this was the day selected. Ryeport is in South Chelmsford and it is a picturesque spot. It would be difficult to conceive of a more ideal place for an outing.

## COULDN'T HIT

New Bedford Puts Lowell in Last Place

LOWELL COULDN'T HIT ROBINSON

While Whalers Got to Rivard

NEW BEDFORD, June 16.—New Bedford defeated Lowell yesterday, by a score of 3 to 1. Robinson pitched well up to the ninth, when with two out, he passed two men. Shannon struck out at the critical moment and Lowell's opportunity was lost. Lord's heavy hitting was a feature. The score:

## BASEBALL NOTES

The Haverhill management has not heard from Uniac since he left the team a week ago.

Harry Billet and family left Haverhill the other day. Billet may play in the Tri-State league.

James J. Sullivan, formerly with Lowell, now of Fall River, Mass., a pitcher on the Villanova college ball team, has just performed a feat which is very seldom duplicated in college ball. Sullivan has not lost a single game in two years and in that time he has pitched 18 regular games besides finishing many others. Last season he defeated Andover and the following day went in against the strong Holy Cross team and came out victorious by a score of 6 to 1. Besides being a star twirler, Sullivan is a hard hitter and has a regular berth in the outfield, when not in the box. He is a left-handed pitcher and uses a slow ball most of the time. Sullivan will leave Villanova, this year to take up the study of dentistry in some university.—Sporting Life.

"Jaecon" Morrissey, of the Roanoke team has again struck his winning form since the advent of warm weather, having pitched two games the past week, winning both with only 22 and 31 players at bat. The Roanoke fans are always content with sterling worker on the rubber, for it means a cool, heady, well-pitched game.—Sporting Life.

Nate Pulsifer, the gentleman ball player, with Haverhill, formerly, has signed with Hartford to play in the field. He is an instructor at Dean Academy.

Sporting Life says: The New Britain field has the shortest centre field of any team in the circuit. The second baseman is always bumping his elbow on it.

The Wilkesbarre management has signed George Bannon, who has been with Alameda. He is a brother of the Bannons playing with Binghampton.—Exchange.

Jack O'Brien, the hucky outfielder, who was turned loose by McGraw last spring, is playing with the New Bedford team of the New England league and getting his hits every day.—Sporting Life.

Fred Tenney is one of the best impromptu speakers in the professional baseball world. He is down for a baseball talk at a settlement entertainment on the lower East Side in New York this week.—Sporting Life.

"Fifty per cent. better than any other team in the league" was the commendation paid to the Worcester by Jack Sharrott, manager of the Lowell. Sharrott is a good judge of baseball teams and players. His declaration only calls to mind the prediction of Billy Hamilton, that Worcester would be in the lead before August 1. That was several weeks ago, when Worcester was dragging along at the tail-end of the league, everything was breaking badly. Hamilton, another good judge of baseball, saw that Sharrott had the material. Hamilton knew the team would come, but on account of its bad start, he named August 1, that he might not be considered a false prophet. Tom McDermott, a former New England league manager, made a similar declaration about the same time, which was about the time that some of the wise critics in Worcester were declaring positively the team didn't compare with that of last year.

The newly incorporated Lowell baseball association is to try to sell stock to Lowell enthusiasts. Fine year to place a Lowell Enterprise.

Tommy Gullivan, recently released by Lynn, may play in the Connecticut league or the New York state.

Johnstone, Welch, Fogarty, McAlister and Lane. Where are their equals at out-landers to be found nowadays?—New York Sun.

The Washingtons are having a singularly unfortunate trip. They are making opponents work hard in every game but are falling just short of victory.

The prophecy of Jimmy McAleer that not an eastern team of the American league would come back from the present trip in the first division is in a fair way to be fulfilled.

Steamer Flanagan and Empire Angel Moran engaged in a row in the Buffalo-Rochester game last week. Flanagan pulled Moran's nose and was bawled from the grounds.

Jim McGuire has the Bostoners hustling until the last man is out. They are doing better on the western trip than any other eastern team of the American league.—New York Sun.

Baseball pitchers in the American league must take notice. Hereafter when a base runner attempts to steal home a twirler cannot stand on the rubber in the pitcher's box and throw to the plate to head off the runner, but he must step out of the box. The rule which states that when a pitcher in the box delivers a ball to the catcher it must either be called a ball or a strike by the umpire has been so interpreted by President Sam Johnson of the American league.

This ruling by the president followed the dispute several weeks ago in a game between Detroit and Chicago. George Davis of Chicago was at bat and Dougherty started for home. Eddie Selver, who was doing the delivery act for the Tigers, threw to Catcher Payne, who ran up in front of Davis to keep the latter from hitting the ball. Umpire O'Loughlin called the runner out and Fielder Jones took exception to the ruling.

## AMATEUR BASEBALL

The "Indians" would like to challenge any team in the city under 18 years of age. Address all challenges to Manager Henry J. Toohy, 568 Princeton street or telephone 1863-4, Lowell.

Dear Sir:—I see by your paper that Foster's Shoe Shop baseball team chal-

lenges any shoe shop baseball team in the city.

We defeated Pilling's team last year for the shoe shop championship and are ready to play any shoe shop team in the city.

We will play Foster's for fun money or marbles. You will greatly oblige me by issuing this challenge through your paper. Our lineup is: Frank Sheridan, C. Sam Barber, p. Bernard Brown lb, Henry Bed 2b, Michael Stanton ss, Wm. Payne 3b, C. Porter lf, Wm. Har-

digan cf, J. Anderson rf. Send all challenges to Samuel E. Barber, manager Stover & Bean baseball team, City.

## SCHOOL LEAGUE

Edsons Whitewash the Moodys

The grammar school league was brought to a close yesterday afternoon on the South common when the Edson school team defeated the team representing the Moody school by a score of 8 to 0.

The game was witnessed by several hundred school children and grown up folks. The boys of the Edson took up their brushes in the first inning and when the game was over they had administered a beautiful coat of whitewash to the team from across the river.

The game was called by Umpire McVey at 4:15 o'clock, and from that time all one could hear or see was "Edson." The children attending the Edson school were "IT" on their arms and coats.

The game was clinched in the first inning by the Edson team when they made six runs off the delivery of Maguire, the star twirler of the Moodys team. After the Edsons had descended on the curves of Maguire, he was helpless. He was relieved before the close of the first inning by Cawley. Cawley proved himself to have more control of the ball than did his brother pitcher, for the most that the Edsons could make in the remaining eight innings was two runs.

In the first half of the ninth inning it looked as if the Moodys would score but didn't owing to the brilliant catch of Andrew Donahue and the good work of J. Roane.

The batting order was as follows:

Edson School Moody School

Gallagher, 3b Desmond, c

F. Roane, lf McGuire, p

Egan, 1b Egan, 2b

Breen, c Cawley, ss

Curtin, p O'Brien, 2b

McGovern, 3b McGowan, 1b

Donahue, cf Slegle, lf

Pantano, ss Bean, cf

Egan, rf Monahan, rf

Moody.....1 2 3 4 5 6 7 8 9

Edson.....0 0 0 0 0 0 0 0 0

This makes the eighth straight game for the Edsons.

Here are the teams that fell before them: Edson 13, Pawtucketville 0; Edson

15, Varnum 10, (in innings); Edson 7, Butler 3; Edson 3, Green 0 (formerly Edson 3, Green 0, 6, defeated); Edson 3, Moody 0.

The battery, Breen and Curtin, did great work all the season, as did the Roane brothers, McGovern, Pantano and third baseman Gallagher. After the game they gave three cheers for Manager Condon.

Curtin, the pitcher, was carried off the common on the shoulders of some of the boys.

## YOUNG "CY"

HAS BEEN TRADED TO PITTSBURGH TEAM.

BOSTON, June 18.—The Boston and Pittsburg clubs made a trade last night whereby Irving Young will go to the Pirates and Pitchers Tom McCarthy and "Cy" Young III. come to Boston.

McCarthy was with the New York Giants for a while last season and had a short tryout with Cincinnati this season, after which he was disposed of to Pittsburg. "Three-Eyed Cy" was being given a tryout by the Pirates this season.

Boston will therefore get two young pitchers for Irving Young, who has been going badly this season.

The deal was practically closed by Manager Fred Clarke and Pres. Dwyer last night before the Pirates took the midnight train for New York.

The Boston club has decided to let Dwyer out, and has asked for waivers.

## YOUNG DYSON

GETS A DRAW WITH JOHNNY LYNCH.

PROVIDENCE, June 18.—Young Dyson of this city provided a sensational surprise at the Standard A. C. of Lymanville last night, for by a nailing finish in the 15th round, he managed to secure a draw with Johnny Lynch of Cambridge. Lynch worked hard in the early rounds, and his aggressive tactics gave him a big lead until the 10th, when Dyson improved and rallied so strongly that while Lynch had a shade at the finish, it was not enough to entitle him to the decision. Lynch was hammered hard in the 15th round. Billy Manning of Pawtucket found George Golden of Albany, N. Y., an easy proposition, and stopped him in the seventh round of their scheduled 15-round bout, which was slated as the feature attraction. Manning had his man wobbling in the second round, twice in the sixth, and after one knockdown in the seventh the Pawtucket lightweight sent his opponent to the floor again with a left to the wind, and referee Doherty then declared Manning the winner.

There were three major matters left to be disposed of when the convention began the morning session, the nomination for the presidency, the nomination for the vice presidency and the adoption of the platform.

Nothing else has so divided sentiment among the delegates as the proposed plank in the platform dealing with the question of court procedure, better known as the "injunction plank." The plank was finally adopted in the form agreed on in the sub-committee on

resolutions after a meeting which lasted until almost dawn. Some of those who opposed the injunction plank in the committee served notice that they would continue their opposition on the floor of the convention.

When the convention yesterday adopted the report of the committee on credentials it thereby confirmed the already evident control of the great body by the forces of the bill to the nomination of Secretary Taft for the presidency. The talk of a "Roosevelt standard" has steadily diminished during the past 48 hours. The most trustworthy advisers of the president must have been well satisfied with the upshot of yesterday. There were moments during the evening when those opposed to the presentation of the president's name for nomination may have been a bit apprehensive lest some would seize that as the psychological moment for some such attempt but nobody did and the surface of affairs at the outset of today gave no reason to expect anything but that the well understood program of the Taft people would be carried through to successful completion in all respects.

The vice presidential was still indifferently unsettled when activities began this morning. The confidence of many that the close of the convention would find Vice President Fairbanks in his old place on the ticket was decidedly shaken last night by the circulation of a letter from him to his campaign manager, Joseph B. Keating in which he declared as "absolutely irrevocable" his determination not to be a candidate for the re-nomination. In spite of this, it was asserted by those urging the vice presidential re-nomination that he would not decline if it were unanimous. In any event unless the work of the convention today is unexpectedly expedited this matter will all be threshed out tonight.

Cummings of Iowa, Guild of Massachusetts, Sheldon of Nebraska, Sherman and Cortelyou of New York, Murphy of New Jersey, Knight of California and others all have their advocates.

Another fine day was promised by conditions of the early hours.

## KILLED BY BLOW

MARINE TOOK PART IN PRIZE FIGHT.

PHILADELPHIA, June 18.—Thomas Hagen, of Ilage, a marine stationed at League Island navy yard, was killed last night by a blow over the heart in a six-round boxing bout with "Johnny" Hogan, a local pugilist, on board the battleship Mississippi, lying at the navy yard. Hagen was 28 years old. He had been ill for a week and entered the ring, it is said, against the advice of the ship's surgeon. Hogan, his opponent, has disappeared.

## GOOD WORK

Done Daily in Lowell. Many Citizens Tell of It.

Nearly every reader has heard of Dean's Kidney Pills. Their good work in Lowell still continues, and our citizens are constantly adding endorsement by public testimony. No better proof of merit can be had than the experience of friends and neighbors. Read this case:

Mrs. Wm. Charlton, of 18 Fayette st., Lowell, Mass., says: "Residents of Lowell have probably noticed in our local papers a statement I made in 1881 recommending Dean's Kidney Pills and telling how they relieved me of a lame and aching back. The trouble was so severe at times that I could not stoop or lift anything from the floor without suffering sharp twinges of pain. Whenever I caught cold or during changeable or damp weather I suffered more than usual. Dean's Kidney Pills procured at Ellingwood & Co's drug store relieved me of the trouble entirely. I have had occasion to use this remedy during the six years that have passed and it always promptly and effectively relieved me. I take a few doses now and then just to keep my kidneys in the best of condition. I know others who have used Dean's Kidney Pills and think, as I do, that there is nothing to equal them for weak kidneys."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name—Dean's—and take no other.

## FIRST ROUND

OF PLAY FOR THE GOLF CHAMPIONSHIP.

WOLLASTON, June 18.—The start of the first round of match play in the tournament for the Massachusetts golf championship on the links of the Wollaston Golf club today found 32 players competing. H. H. Wilder of the Vesper club whose score of 77 in yesterday's qualifying round was the lowest of the day, was among the first to get away today and it was expected that when he turned in his card it would show that he had covered the course with a low number of strokes. One of the most interesting matches of the afternoon was that between J. C. Anderson, the present champion of the Woodland Golf club and J. H. Hyland of the Vesper club.

## THE INSULT TO OUR FRENCH CITIZENS

WE HAVE WATCHED WITH DEEP SYMPATHY THE ACTION OF OUR FRENCH AMERICAN RESIDENTS IN RESENTING THE WANTON INSULT OFFERED THEIR NATIONALITY IN THE UNITED STATES BY AN UNSIGNED ARTICLE IN THE NEW YORK SUN.

NOBODY NEED BE SURPRISED AT ANYTHING PUBLISHED BY THE NEW YORK SUN, FOR WE FIRMLY BELIEVE THAT THERE IS SCARCELY A SINGLE PUBLIC ISSUE OF THE LAST GENERATION ON WHICH THAT PAPER CANNOT BE QUOTED ON BOTH SIDES. WE VENTURE TO SAY THAT IF ITS FILES WERE SEARCHED SOME OF THE HIGHEST TRIBUTES WOULD BE FOUND FOR THE FRENCH CITIZENS OF THIS COUNTRY.

BUT WE ARE NOW DEALING WITH A MOST OUTRAGEOUS ATTACK UPON THE FRENCH CANADIANS OF THIS COUNTRY BY THE NEW YORK SUN AND WE THOUGHT IT WOULD BE QUITE APPROPRIATE TO SET UP THE VIEWS OF THE LOWELL SUN AGAINST THOSE PUBLISHED BY ITS NEW YORK NAMESAKE.

ON THIS SUBJECT WE HAVE HAD SUFFICIENT OPPORTUNITY TO JUDGE OF THE FRENCH PEOPLE FROM OUR INTERCOURSE WITH THE 25,000 OF THAT NATIONALITY IN THIS CITY AND WE CAN SAY WITHOUT FEAR OF CONTRADICTION THAT THEY ARE UNQUESTIONABLY ONE OF THE MOST PROGRESSIVE, LAW ABIDING, INTELLIGENT AND INDUSTRIOUS PEOPLES THAT HAVE CAST THEIR LOT ON THESE SHORES.

LOOK AT THEIR RAPID GROWTH IN OUR OWN CITY; LOOK AT THE FINE BUILDINGS AND THE VAST AMOUNT OF REAL ESTATE THEY OWN TODAY; LOOK AT THEIR SCHOOLS AND THEIR CHURCHES, LOOK AT THE SPLENDOR OF THEIR TURN-OUTS ON FESTIVE OCCASIONS WHEN THEY APPEAR IN STREET PARADE—CONSIDER THEM IN ANY ASPECT YOU PLEASE AND IF YOU ARE A FAIR-MINDED OBSERVER, YOU WILL FULLY CONCUR WITH THE ESTIMATES OF THEIR WORTH HERE SET FORTH AS THE RESULT OF INTIMATE KNOWLEDGE OF THE FRENCH RESIDENTS OF THIS CITY.

THE FRENCH CITIZENS OF LOWELL ARE NO BETTER THAN THOSE OF FALL RIVER, NEW BEDFORD AND OTHER AMERICAN CITIES AND HENCE WE ASSERT THAT THE CONTEMPTIBLE, SCURRILOUS AND WANTON ATTACK OF THE NEW YORK PAPER MUST HAVE HAD ITS ORIGIN IN THE IMAGINATION OF SOME DISEASED BRAIN.

NOT ONLY IS IT AN INSULT TO THE FRENCHMEN ALIVE TODAY, BUT EQUALLY AN INSULT TO THE MEMORY OF THE LATE REV. FR. GARIN, O. M. I., AND SCORES OF OTHER NOBLE PIONEERS WHO HELPED TO BUILD UP THIS REPUBLIC BY THEIR WISE LEADERSHIP, THEIR PIOUS AND SELF-SACRIFICING LIVES.

WERE FATHER GARIN ALIVE TODAY, WE SURMISE HE WOULD TELL HIS PEOPLE NOT TO FRET OVER SUCH SILLY ATTACKS, FOR HOWEVER WIDELY CIRCULATED, THEY ARE FULLY ANSWERED AND REFUTED BY THE FACTS OF HISTORY KNOWN TO EVERY CHILD IN AMERICA.

YET, STRANGE TO SAY, A PROMINENT BUT ERRATIC JOURNAL SUCH AS THE NEW YORK SUN, SEEMS TO HAVE FORGOTTEN THE PLAIN FACTS OF HISTORY THAT GIVE THE FRENCH ARMIES AND THE FRENCH FLEET THE CREDIT OF SO ACTING AT A CRITICAL PERIOD IN THE REVOLUTION AS TO MAKE POSSIBLE THE SURRENDER OF CORNWALLIS AT YORKTOWN.

THE STORY IS A BRIEF ONE AND IT MAY REFRESH THE MEMORY OF SOME TO REPEAT IT HERE.

GENERAL GREENE HAD BEEN GIVING THE BRITISH SOME HARD BLOWS, BUT WAS FINALLY DEFEATED BY CORNWALLIS AT GUILFORD COURT HOUSE, MARCH 15, 1781.

CORNWALLIS RETIRED TO WILMINGTON, NORTH CAROLINA, AND FINALLY TO VIRGINIA, WHERE HE WAS SKILFULLY HELD AT BAY BY THE MARQUIS DE LAFAYETTE AT THE HEAD OF A FRENCH ARMY. MEANWHILE WASHINGTON WAS THREATENING A LAND ATTACK ON NEW YORK, WHERE GENERAL CLINTON GUARDED THE CITY WHILE THE FRENCH FLEET, UNDER COUNT DE GRASSE, THREATENED AN ATTACK FROM THE SEA. SO WELL DID THIS FEINT WORK THAT GENERAL CLINTON SENT AN APPEAL TO CORNWALLIS FOR TROOPS TO AID IN THE DEFENCE OF NEW YORK. SUDDENLY THE FRENCH FLEET SAILED AWAY FOR VIRGINIA AND WASHINGTON WITH HIS ARMY MADE FORCED MARCHES TO YORKTOWN. BEFORE CLINTON KNEW WHAT WAS DONE THE FRENCH FLEET AND THE AMERICAN ARMY HELD CORNWALLIS IN A TRAP.

CORNWALLIS NOW BEGGED CLINTON TO COME TO HIS RESCUE WITH SHIPS AND MEN.

THE BRITISH HAD THROWN UP FORTIFICATIONS AT YORK-

TOWN AND GLOUCESTER ON OPPOSITE SIDES OF THE YORK RIVER. THE FRENCH TROOPS UNDER ROCHAMBEAU AND THE AMERICAN TROOPS UNDER WASHINGTON SURROUNDED THE BRITISH WORKS WHILE THE FRENCH FLEET HELD THE ENTRANCE TO THE BAY.

BY THE END OF SEPTEMBER THE SIEGE OF YORKTOWN WAS BEGUN. EVERY DAY THERE WAS AN ADVANCE, AND BRILLIANT ATTACKS WERE MADE UPON THE BRITISH WORKS. THE SITUATION OF CORNWALLIS WAS BECOMING DESPERATE. HIS SHIPS WERE FIRED BY THE FRENCH FLEET, GREAT NUMBERS OF HIS MEN WERE IN HOSPITALS, AND CLINTON HAD NOT ARRIVED. IT WAS NO LONGER POSSIBLE TO HOLD YORKTOWN AND ON OCTOBER 19, 1781, GENERAL CORNWALLIS SURRENDERED.

THESE ARE THE FACTS OF THE FINAL BATTLE FOR THE ESTABLISHMENT OF THIS GLORIOUS REPUBLIC. IS THERE ANY MAN, MUCH LESS A WELL INFORMED SOLDIER, WHO WOULD SAY THAT WITHOUT THE ASSISTANCE OF THE FRENCH BY LAND AND SEA, THERE WOULD HAVE BEEN ANY SURRENDER AT YORKTOWN?

HERE, THEN, IS THE WARRANT BY WHICH THE FRENCH PEOPLE PROVE THEIR RIGHT TO CITIZENSHIP IN THIS REPUBLIC. IF IT BE CHARGED THAT THE FRENCH CITIZENS OF TODAY ARE LESS CHIVALROUS THAN WERE THE MEN WHO FOUGHT WITH WASHINGTON FOR THE INDEPENDENCE OF THE COLONIES, WE WOULD RESPECTFULLY INVITE THE SKEPTIC, AND PARTICULARLY THE CORRESPONDENT OF THE NEW YORK SUN, TO VISIT LOWELL ON JULY 4, WHEN HE WILL HAVE AN OPPORTUNITY TO JUDGE OF OUR FRENCH CITIZENS FROM A MILITARY STANDPOINT IN THE PARADE OF THE FRENCH VOLUNTEER BRIGADE, HELD UNDER THE AUSPICES OF GARDE FRONTENAC OF LOWELL.

## SEEN AND HEARD

To avoid misapprehension it may be well to say that the Wellesley girls on Tree day do not show their ability in climbing trees.

Literary work is all right, but the surest way to make your name a household word is to advertise extensively.

A girl has no objection to having it said that a young man is paying court to her, but the old-fashioned word, "counting," does not please her.

If young people all knew as much as they think they do, old people would have even more reason to feel ashamed than they have now.

Some of the people who eagerly accept every opportunity to sing in public ought to be taught that a loud voice isn't always musical.

The thing now is to get the Pure Food law amended so that it will cover the proceedings in boarding-house kitchens and in restaurants.

When your friend comes in an automobile to visit you, it is not considered good form to ask him when he arrives, "Did you kill anybody on the way up?"

The total abstinence man is embarrassed when he discovers that somebody has worked off on him a Canadian half-dollar. The other man doesn't care, for he knows that he can pass it easily in a saloon.

The average bachelor may not know much about talk, but he can always be depended upon to talk about the "choo-choo" cars.

A young man has about as much reason to blame the girl who doesn't love him as he has to blame the olives that he doesn't like.

When the women at the sewing circle start a hot discussion and get ripping good, it must help a lot if they are making over their things.

The pastor of a Chicago church insists on having a regularly fitted up counting room for the young people, with cozy corners, screens, chaperons and lamps that can be turned away down. He says courtship is essential to happiness and that it is the province of the church to do everything possible for the happiness of its members. What do you know about that?

And now comes Orville W. Peabody, Lowell's heavyweight poundkeeper asking for an automobile. Somebody tipped Orville off that the heads of departments were all looking for automobiles and "Peab" allowed that if he would improve his chances he would have to get in on the ground floor. He says he doesn't care so much about the automobile for business purposes. He admits that an auto would be a poor thing with which to drive a pig to pound, but he wants to keep even with "Dan" Leary. Dan, it will be remembered, put up a strenuous battle with

Orville for the poundkeeper's office, and despite the fact that Dan was defeated by Orville he has managed to buy an automobile. Orville has got it into his head that Dan bought the machine for the purpose of taking voters to the polls next fall and he's afraid that if he doesn't get a machine Dan will defeat him in the fight for poundkeeper. Another thing Orville has asked for and that is one day off in thirty. He says he is just as deserving of a day off as is a policeman, and influential friends of his will put the proposition up to the mayor. A republican alderman who is a bit of a humanitarian has suggested that the poundkeeper should wear a uniform so that pigs, horses, hens and other things subject to imprisonment in the Warren street pound would be given an opportunity to get out of the way on the approach of Orville. The alderman's argument is that the criminal has that opportunity with the policeman, and he believes that the animal subject to arrest by Orville should be given the same chance. Orville says he doesn't want to wear a uniform but he would wear it rather than throw his job up.

## EDITORIAL COMMENT

EYE AND EAR INSPECTION.

Boston Post: As now amended by the legislature the law requiring medical inspection and the examination of the sight and hearing of the children in public schools becomes compulsory on every school committee in the state. It goes further, we believe, in the care and protection of the children's health than the legislation of any other state.

It is paternalistic of course, but the argument for it is put strongly by Secretary George H. Martin of the state board of education when he says:

"The obligation to care for the health of the children rests upon the same legal basis as the obligation to furnish instruction, and the school committees have equal powers in the two kinds of work."

The objection is not so much to the idea itself as to the method in centralizing the work. As the school committee is the representative and agent of the state, this obligation is now entirely independent of any action which the town or city may take.

The healthier way would have been that of home rule and some responsibility in continuing this medical inspection as in the first instance dependent on local action, which would have grown to vigorous enforcement.

## PRIZE FOR DRAPER

New Bedford Standard: Lieutenant-Governor Draper's short term of service as acting governor of this state has made for him political friends and allies of many who had viewed his candidacy for the governorship with indifference, if not distrust. If he will announce that he proposes to administer the affairs of the state next year in the spirit he has manifested "wally" service in the period of Governor Child's illness, with especial reference to keeping expenditures down to a reasonable figure, he will receive hearty support where otherwise small enthusiasm would have been manifested. Governor Draper has shown some disposition to protect the taxpayer, which means economy in the commonwealth, from the extravagance and the recklessness which have dominated the legislature, and he has exhibited courage and decision which were grateful to contemplation.

## Big Fire at Birmingham

LAST NIGHT

BIRMINGHAM, Ala., June 18.—Fire which started at the saw mill plant of the Keadley company at Hollis last night did damage amounting to between \$25,000 and \$30,000. Practically the entire plant and over 5,000,000 feet of lumber were burned. The fire is supposed to have started from a spark from the saw pit. A stiff wind was blowing and the flames spread rapidly.

Exemplification of the Patriarchal Militant degree was given in Canton hall at 5 p. m.

Col. John C. Bennett and Major M. G. Perkins were assigned to a carriage in the parade.

The members of the Malden lodge of Elks kept open house during the afternoon and evening and entertained visiting brothers after the parade.

Miss Tweedie is 19 years old and was prominent in society in Chatham, the governor's home.

Gov. Tweedie says that McKeown came from Scotland a year ago. Early last week he left the employ of the governor. A day or two later Miss Tweedie went to St. Stephen to visit her friends. Yesterday McKeown met her and the two were married, both immediately leaving for Montreal, where it is thought they intend to sail for the old country.

## Refuses to Be Candidate for Vice President

CHICAGO, June 18.—The promulgation of a letter from Vice President Fairbanks reiterating his "irrevocable determination" not to again be a candidate for the office he now holds, was the most important development of the day in connection with the vice presidential nomination. The letter was addressed to Mr. Fairbanks' manager, Joseph B. Keating and the full text follows:

"Indianapolis, Ind., June 16, 1908.

"My Dear Mr. Keating:—

"I appreciate fully the compliment paid me by my friends in their insistence that I should accept a re-nomination to be a candidate again, as announced before the close of the last session of congress, through you, is absolutely irrevocable. My conclusion does not grow out of any want of appreciation of the honor for the vice presidency is an honor which any man may well covet. No one is obliged to step down to it.

"I have enjoyed the great honor which came to me unsought and by the undivided voice of my party for all of which I am profoundly grateful. "This renewed expression of the confidence of my friends touches me most deeply. They need no assurance that I have come to the conclusion I have reached deliberately, and I trust that the personal considerations which I have advanced will commend themselves to their approval. I am more confirmed in the wisdom of my conclusion because of the fact that there is no party nor public exigency which would seem to suggest a contrary course.

"Accept for yourself and other friends, my grateful appreciation of your generous, unfailing and loyal support.

"I remain, faithfully your friend,

"Charles W. Fairbanks."

A similar letter was written by the vice president to Sen. Hemenway.

The vice president's letter is not different from various expressions made in a less formal manner by him in the past few days, and while it was not entirely unexpected, it was given full credit for its effect. It did not have much effect in changing the determination of his admirers to press his nomination in the event of the naming of Secretary Taft for the first position. Accordingly there were as many prophecies after the promulgation of the letter as before that the vice president would, in the end, be called upon to succeed himself. It was confidently asserted that he would not decline a unanimous nomination.

While this is the general sentiment of those who have been supporting the vice president largely outside of Indiana, yet it remains a fact that his close friends who have been managing his campaign for the presidency openly declare that the letter must be accepted as final as definite in removing him from consideration for second place.

LOWELL FIRE STARTED BY SPARK FROM LOCOMOTIVE.

WOBURN, June 18.—Fire was discovered at 3:20 yesterday afternoon in a barn at 74 Wm. street, owned by Mrs. Marcellus Littlefield and occupied by Harry W. Snow, fish dealer. When the department arrived the flames had full possession of the interior, which delivery wagon, two puns, harnesses and stock of grain. He estimates his loss at \$400, upon which he had no insurance.

The barn is damaged to the amount of \$3000, fully covered by insurance. It is thought the fire was caused by a spark from a locomotive.

Rev. Abbe Denis Lamy, chaplain and director of L'Association Catholique de la Jeunesse Franco-Americaine, the newly-founded association which is to group together all the French-speaking Catholic young men of the country, is in this city in the interest of the association, and at present the guest of the reverend Oblate fathers of St. Joseph's parish.

The association plans to affiliate young men's French American societies in every place where they are found, and to found original branches also where it is deemed necessary. Rev. Fr. Lamy's stay in this city is for the purpose of bringing about the affiliation or foundation of such branches.

The general aim of the association is the moral and intellectual advancement of the French-speaking Catholic youth in the country. Beligians, Academics, French and French-Canadians of the Catholic faith are eligible.

The organization already counts some very distinguished men among its honorary members. Attorney General Charles J. Bonaparte, of the president's cabinet, Rene Bazin, Edouard Lamy, the Comte Albert de Mun, the Comte d'Haussonville, all four of the French academy, are among the most notable. Two of Canada's best known bishops, Mgr. Lorrain of Pembroke, Ont., and Mgr. Roy, auxiliary bishop of Quebec, are also on the list of such members.

There are five honorary members belonging in Lowell. Rev. Fr. Lefebvre and Campana, O. M. I.; Eliezer H. Choquette, J. H. Guillet, Esq., and Editor Arthur Smith of L'Ettoile.

The first congress of the association will be held July 19 and 20 at Worcester, at the Assumptionist college at Greenfield. Eliezer H. Choquette of this city will be among the speakers.

Among other distinguished speakers present will be Mgr. L. A. Paquet, P. A., of Laval university of Quebec, whose subject will be "The Mission of the French Race in America."

EDUCATIONAL CLUB MEETING.

The Educational club held a very pleasant meeting Tuesday afternoon. Mrs. A. C. Huston told an interesting story of a recent trip to Washington and Mrs. Mary Semple told of a visit she made to the capital city in the '30s. The stories of the recent visit and the visit of long ago inspired a discussion of the changes that have taken place at Washington in the last 50 years. The discussion was very interesting.

WESTFORD

Thieves attempted to enter the barn of A. H. Burnham in Westford Tuesday at midnight. A burglar alarm which was recently installed by Mr. Burnham aroused the family. A search of the premises was made, but the thieves were gone. That an attempt was made to enter the barn was evident from there were several chisel marks on the door.

## FROM PINE CAMP

## Military Notes by Sun Correspondent

The Sun correspondent at Pine Plains, N. Y., writes the following correspondence from the camp, dealing with the work of the Lowell men:

PINE CAMP, N. Y., June 16, 1908.

The three Lowell Companies, C, G and K are now comfortably ensconced in camp at Pine Plains, N. Y., and have straightened out their equipment after the tornado shock in which Corp. Carlson was injured. That seemed to come as a sort of misadventure for which the companies were wholly unprepared.

The train carrying the three Lowell companies together with a Pullman baggage and cattle car which left Lowell at 1:30 Saturday, arrived at Pine Plains at 10:30 Sunday morning. After remaining at Pine Plains until 6 o'clock waiting for Co. L of Boston, the train again started on its journey.

The next stop was made at Fitchburg where rations were served to the men and after a delay of about twenty minutes the journey was again taken up. Stops were made at Badley, Willsville, Millers Falls, Athol, and Greenfield. During the journey Corp. McLaughlin entertained the company with selections on the organ, and Tommy Boudreau, the well known comedian of Co. C, also furnished much amusement for the men during the trip, much to the discomfort of the new men. One of the most beautiful scenes on the trip was in the Berkshire Hills just before entering the Hoosac tunnel. In a deep valley on the edges of a brook was noticed the ruins of an old wooden mill which had been burned down several years ago.

A great many of the men were anxious to get a glimpse of the Hoosac tunnel but as it was quite late when the train reached this spot it was impossible to see much of the tunnel. The tunnel is 3 1/2 miles long and it took the train exactly ten minutes to pass through. The next stop was made at North Adams, Mass., where quite a crowd of people turned out to see the soldiers boys. Many of the men managed to gain a few hours' sleep during the night but most of them remained wide awake. At 5 o'clock Sunday morning the train pulled into Utica, N. Y. After a short wait the train continued on its journey and stopped again at 10:30 when the troops arrived at their destination at Pine Plains. The Sixth regiment after disembarking marched a distance of 2 1/2 miles through brush and sand to their location on the camp grounds. The men were certainly a tired lot after their long and tedious journey on the train, to say nothing of their march to the grounds. After a hearty dinner the men pitched their tents. About 2:30 in the afternoon one of the worst thunder and lightning storms that has visited Pine Plains in years descended, knocking down every tent in the encampment. Most of the men were drenched to the skin and as all the tents were down it was impossible to gain shelter. Men who have been to camp for ten years remarked that it was the worst storm they ever experienced during camp life. The men after supper were a tired looking lot and most of them retired early in preparation for the next day's hard work.

## CAMP NOTES.

The entire Sixth regiment was equipped with the new army cot, and they were certainly appreciated by the men as they are a vast improvement over the old mattresses.

Company C has nineteen new men to initiate and Tommy Boudreau has been appointed to do the leading honors. As Tommy is an old hand at the art he no doubt will confer the degrees upon the different rookies to the entire satisfaction of Co. C.

Private Myrick of Co. C has had a new army regulation hair cut.

The following men had charge of the baggage equipment during the trip: Co. C, Corp. Peterson, Privates G. Davidson, A. Davidson, A. Myrick and F. Sugan; Co. G, Sergt. Holmquist, Privates L. Lounget, T. Gargan, F. Hanrahan and P. Clifford; Co. K, Quartermaster Sergt. Goodwin, Privates M. Bentley and Townsend.

Capt. Jeyes of Co. G is to be commended on the splendid showing his men have made. The improvement in the company is due to his hard work and untiring efforts. The company has improved wonderfully during the past few months and is now considered one of the best companies in the Sixth regiment. The company also has two sergeants in Lieuts. Doyle and Mottram.

Matthew Doyle, the crack bugler of Co. C and one of the best if not the best in the Sixth regiment, has been detailed as brigade bugler to Brig. Gen. Emory Clark of the First Brigade.

Co. C has organized a baseball team under the management of Corp. McLaughlin. A game has been arranged with Co. K for Tuesday afternoon. The following is the lineup of the two teams:

CO. C. CO. K.  
C. Erickson P. C. Sturtevant  
G. Davidson C. W. Carl  
D. Boudreau I. B. W. Mountain  
H. Goodwin B. H. Webster  
J. Cunningham S. W. McHugh  
W. Lyons B. H. Clough  
H. Parson F. S. Walker  
A. Davidson C. R. Johnson  
W. Cahill in rf R. J. Gies

Private Callahan of Co. C wishes to inform his many friends in Fitchburg that he is still alive and enjoying the best of health.

Corp. Brock of Co. C is considered by the ladies of Pine Plains to be one of the best looking men in the Sixth regiment. It is a great race between the ladies of Co. K and Pine Plains which is the greatest favorite with the ladies.

The Agency quarter of Co. K composed of Herb Webster, C. Sturtevant, Edward Henderson and P. Lurvey, has accepted a lucrative position with the Watertown Vaudeville Co. and will remain there for a six weeks' engagement. Their many Lowell friends will miss them the coming summer, especially Herb Webster who is a great favorite among the ladies.

ally Herb Webster who is a great favorite among the ladies.

Doyle's band, composed of M. Doyle, leader, R. Girard, J. McLaughlin, H. Cameron, C. Brock and Frank Sugan, entertained the Sixth regiment with a concert Sunday afternoon.

Howard Dean of Co. K, son of Dan Dean, the well known shoe manufacturer, has a pair of specially constructed row-hike shoes for camp which he thinks are equal if not superior to any army shoe. The shoes were made for Howard by Henry Tagge, the well known shoe expert of Street & Dean's.

## MANNING FAMILY

## Held Reunion at the Old Manse

The annual reunion of the Manning family association was held at the Manning manse on Rangeway road, Billerica, yesterday. There were about one hundred descendants present. Between twelve and one o'clock an informal reception was held after which dinner was enjoyed.

In the afternoon a business meeting was held. In the absence of the president, William H. Manning of East Chelmsford, Vice President Joseph E. Warren of Chelmsford, presided. President Manning, who is 55 years of age, arrived on the scene just as the session was coming to a close.

During the meeting, Warren H. Manning, secretary of the association and custodian of the "Manse," made an interesting and comprehensive report of the condition of the association. He said that there were about 100 names of the Manning family together with histories of 200 individual families. Treasurer Frank Manning Short gave his yearly report showing the financial condition of the association. The election of officers then took place and the following were chosen: President, William Manning of Chelmsford; Vice President, Joseph E. Warren of Chelmsford; Treasurer, Frank Manning Short of Lowell; Historian, William H. Manning of West Somerville; Secretary, Warren H. Manning of North Billerica; Executive Committee, Edwin W. Walker, Brookline; President C. Manning, Portland, Me.; Mrs. Edwin Manning, Somerville; Letitia Parkhurst, Chelmsford; Entertainment Committee, Mrs. Edwin Walker, Brookline; Mrs. G. W. Foster, Somerville; A. E. Adams, Winthrop; Miss Mabel Hall, Winthrop; A. M. Warren, Chelmsford; refreshment committee, Mrs. L. C. Howard, Chelmsford; Mrs. Belle Jenness, Lowell; Mrs. F. M. Short, Lowell; and Mrs. Eva B. Dutton, West Somerville.

An interesting entertainment program was carried out during the afternoon.

## GRIFFIN FAMILY

## Held 26th Reunion at Willow Dale

The 26th annual reunion of the Griffin family was held yesterday at Willow Dale. The descendants of Josiah Griffin of revolutionary war fame turned out to the number of 70 and the occasion proved to be one of the most enjoyable ever held by the family.

Of the nine children of Josiah Griffin four are still living and three were present yesterday, they being Mrs. Lydia H. Shepard, aged 80 years, of Athol, Mass.; Mrs. Rhoda Sherburne, aged 80 years of Tyngsboro; and Mr. Edwin Griffin, aged 75 years of Portsmouth, N. H. J. Edward Griffin, aged 35 years, of Wamecet, was unable to be present. The towns and cities represented at yesterday's gathering were Athol, Tyngsboro, Lowell, Hudson, Methuen, Milford, Brockton, Wamecet, Peabody, and Swampscott, Mass., and Nashua and Portsmouth, N. H.

The members of the family gathered at Willow Dale about 10:30 o'clock and after each one had noted his or her name in the register a reception was held and at noon the dinner service was served one of their famous dinners which was greatly enjoyed by all.

During the afternoon various forms of amusement were indulged in. Some of the younger descendants enjoyed bowling, roller skating and boating.

At the business meeting held in the afternoon the following officers were re-elected: President, Chas. A. Sherburne of Tyngsboro; Vice President, Henry Griffin of Methuen; Secretary, Mrs. Charles A. Sherburne of Tyngsboro; Chairman of the entertainment committee, Charles Barlow of Lowell.

After the business was over, the party rode twice around the lake through the country of the president of the association, and then descended the remainder of the day.

## CREW RESCUED

## STEAMER ABANDONED WAS DESTROYED BY FIRE.

ST. JOHN, N. B., June 15.—The steamer Aberdeen was destroyed by fire yesterday, while tied up near Coles Island in the St. John river and her crew of nine had a narrow escape from a horrible death. Most of the crew were asleep when people on shore returning from a dance discovered the flames and aroused those on board the vessel. These had barely time to reach shore and Mrs. Melwood, the stewardess, barely saved herself by jumping into the arms of James Hutchinson, the engineer, who stood on the guard rail of the lower dock.

## JUSTICE BREWER

## Makes Vigorous Defense of the Injunction Power

WORCESTER, June 18.—Without referring directly to the possible action to the republican national convention at Chicago on the proposed plank in the platform concerning the issuance of injunctions by the courts, Associated Justice D. J. Brewer of the U. S. supreme court made a vigorous defense of the courts and the injunction power in the course of an address at the commencement exercises at Clark college today. Justice Brewer said to part:

## PLATFORM FIGHT WESTFORD STREET

## Was Carried to the Floor of the Convention Today

CHICAGO, June 18.—Both in respect to temperature and political development the early indications were that the third day of the republican national convention would be warmer than any of its predecessors. A hot wind from the southwest started the mercury on a rapid climb and long before the opening of the convention the delegates were discarding coats and in some instances vests were sent after the coats. Fans were at a premium.

From the political view point the warmth of the day was expected to arise from a possible fight on the floor of the convention over the anti-injunction plank of the platform.

The delegates were slow in arriving at the hall and fifteen minutes before 10 o'clock, the hour to which the adjournment of yesterday was taken, there were less than a dozen in their seats. The galleries were also sparsely filled, although the crowds were gathering on the outside. The Taft managers early in the day placed on the floor of the convention but not in the capacity of either delegate or alternate, a number of the most prominent Taft supporters in the party. The duty of these men was to watch the work of the opposition candidates and to promptly head off any possible defection of strength and to hasten all accessions.

These men were Senators Fulton of Oregon, Warren of Wyoming, Burkett of Nebraska, Long of Kansas, Borah of Idaho and National Committeeman Charles Crocker of Connecticut, Powell Clayton of Arkansas and E. C. Duncan of North Carolina.

Frank Hitchcock, the Taft manager, was also roaming around to see occasions to aid the cause of the secretary in all possible ways.

At 10 o'clock the delegates began to fill up and the gallery crowds were becoming denser.

Many of those in the sections reserved for visitors brought lunch boxes.

The heat increased appreciably and it was not long before shirt sleeves were much in evidence.

## HARVARD LEADS

In First Game With the Yale Nine

CAMBRIDGE, June 18.—Harvard and Yale met on Soldiers field today for the first of the annual series of baseball games between the two universities. Neither team has had a very successful season but both since have shown improvement over the earlier games and the followers of Harvard's nine is practically a veteran team while Yale has several new players in the lineup.

Yale was without the service of Van Vleet, the team's best pitcher, today. Having played in the games on Saturday and Tuesday and Howard Jones was announced as the pitcher for the Harvard team.

The Crimson had Hartford in the box and on the strength of his no-hit game against Cornell much was expected of him.

As announced before the game the lineup was as follows:

HARVARD: Leonard, 3b; McCall, 2b; Harvey, cf; Anderson, rf; Currier, c; Simpson, ss; Harding, 1b; Hartford, p.

YALE: Jones, 3b; Dines, 2b; Murphy, cf; Williams, rf; Whitson, c; Clifford, ss; Felt, 1b; Felt, p.

For a time the delegates on the floor called for order in an effort to stop the roar of conversation which swelled from all quarters of the hall. Senator Hopkins also turned in appeal to the chair. Senator Lodge pounded on the table but his admonition was heeded for only a few seconds when the roar of voices again grew to the proportions that practically drowned the speaker's busy and fast falling voice.

The vigorous waving of fans by the fourteen thousand spectators and delegates in the colossal hall to the immense living picture as viewed from the stage the hithering effect of a kinetoscope film.

Senator Hopkins made another appeal to the chairman for a semblance of order and Senator Lodge wielded the gavel with some strength but again the raucousness of the hall was of little avail.

Delegates and speakers alike were still lost in a discussion of the anti-injunction plank and seemed to have little concern with the other features as outlined by the reader.

## MANY IN OPPOSITION.

Senator Hopkins went steadily on amidst the din, and the reading of the platform was concluded at 11:15.

"I move the previous question on the report I have just read and the minority report which will be read by Representative Cooper," it was Senator Hopkins who spoke.

Kansas and Ohio seconded the motion and it was put to a viva voce vote and declared carried although there were many "noes" raised in opposition.

Representative Cooper as he advanced to the front was greeted with cheers from the Wisconsin delegation. None came from any other direction.

Chairman Lodge before Mr. Cooper began the reading of his report, announced that the debate on the question would be confined within 40 minutes, one-half to each side. Senator Hopkins, he said, would have charge of the bill on the side of the majority and Representative Cooper for the minority.

"The minority of the committee being unable to agree," began Rep. Cooper, "with the majority in regard to the tariff, the trusts, railroad injunction and trials in contempt cases has felt compelled to submit a minority report on these subjects."

He then read first the long plank prepared as a substitute to that offered in the platform. The sub embodied the La Follette idea of a physical valuation of all railroads as a basis for the fixing of rates.

The minority report favored the enlargement of the powers of the interstate commerce commission and the closing of it with authority of instituting proceedings on its own motion. It was urged that the commission be given power to determine whether an increase in rate should be allowed when such increase is charged.

The increase in the personnel of the commission also was urged. If necessary, it was provided there should be sub commissions to deal with controversies in which an appeal being allowed to the full commission.

"We recommend," continued Mr. Cooper, "the enactment of a law providing the interstate commerce commission to make an exact inventory of the physical property of all railroads, such valuation to be made the basis of just and reasonable railroad rates."

Although Senator Hopkins has a resonant voice the roar of conversation swelled steadily and some of the planks were not heard clearly by the mass of the delegates.

## THE TARIFF PLANK.

The tariff revision plank was not heard, or if it was, it was disregarded entirely. Not a single hand clap followed the reading of the plank.

The tariff plank followed that on the trusts. It declared that under the present tariff the public is compelled to pay prices dictated by monopoly and that the situation calls for immediate remedy. It was asked that the duties on imports should be made equal only to the difference between the cost of production at home and abroad.

The demand was made for the appointment of a permanent tariff commission to be appointed by the president.

The demand was made for the enactment of a law prohibiting any combination for the purpose of stifling competition and suppressing prices. Enforcement for violation of this law was asked. The plank also contained suggestions that a like penalty be made legal for violation of the Sherman anti-trust law.

The minority further recommended that there be added to the majority report two paragraphs dealing with public utility campaign contributions and expenditures.

"Ho-ho-ho," came from a member of the Wisconsin delegation.

The paragraphs mentioned by Mr. Cooper recommended that a republican congress and a republican president enact and enforce a law requiring the managers of campaigns dealing with national officers to publish from time to time during the campaign the names of all contributors and the amounts contributed or promised and the amounts and purpose of all disbursements and to whom paid.

The report also asked for the creation of a department of labor and a bureau of mines and mining within this department.

The final planks in the report asked for the extension of the Schur law to all departments of the government.

"If any of the only member of the convention who signed that report," continued Rep. Cooper.

"Harrah, good," came from the Wisconsin delegation.

"And I am not ashamed of it and will never apologize to a human for having done so," retorted Mr. Cooper, who argued briefly the various planks of the report.

As to injunctions, declared Mr. Cooper, "we would not tolerate for a moment the suggestion of an attack on the courts. But remember as has well been stated that the discretion of the court is often the beginning of tyranny."

Mr. Cooper yielded here to Herman Fawcett, speaker of the Wisconsin assembly, for three minutes.

The report asked for the enactment of a law regulating the rates and ser-

vices of telephone and telegraph companies.

The minority injunction plank demanded the enactment of a law prohibiting the issuance of injunctions in labor disputes when such injunctions would not have been asked had there been no labor element involved.

Punishment for contempt of court it was asked should be initiated only after conviction by a jury except in cases where the offense was committed in the immediate presence of or in close proximity to the court.

"The question now is," said Chairman Lodge, "on the adoption of the majority report. The adoption of the resolutions was by a viva voce vote, no voice being raised in the negative."

"The next business is the presentation of names of candidates for the office of president of the United States," said Chairman Lodge at 12:15 p.m. and there was a great cheer.

The clerk ran rapidly down the list of states and there was no response until Illinois was reached.

## NOMINATES CANNON.

Rep. Boutelle of Illinois went to the platform to nominate Speaker Cannon. Enthusiastic cheers were quickly hushed as Mr. Boutelle held up his hand for attention and began his address.

Just as Mr. Boutelle commenced his address Chairman Lodge yielded the gavel to Senator Heyburn of Idaho.

The mention of the name of President Roosevelt by the speaker called out a burst of cheers which soon, however, died away.

The mention of the name of Cannon was the signal for an uprising of the Illinois delegation. They mounted chairs, cheered and sat down in a few seconds. Six or seven of the New York delegation joined in. Illinois following was scant and the demonstration was over in almost exactly two minutes.

While Mr. Boutelle was in the most impassioned periods of his speech the Taft and Fairbanks men who occupied seats almost at his feet, were busy preparing for their turn. They brought in bundles of small flags, distributed them throughout their own delegation and to all others who would agree to wave them at the critical moment.

The convention finally broke in on the speaker with cries of "time" and Chairman Lodge was compelled to interrupt his gavel.

Illinois was again placed in nomination and Ohio and a few delegates from New York paid Illinois the tribute of cheers and the waving of flags. The enthusiasm, however, lasted but a minute.

Rep. J. Fordney of Michigan made the seconding speech for Speaker Cannon. Mr. Fordney's speech was brief, but concluded amid some applause.

"Indiana," called the clerk, and delegates of that state were on their feet with cheers for Vice President Fairbanks. A delegate in the convention lent practically all of the outside moral support that was given the hoosiers.

Gov. Hanley of Illinois, who was presiding in the name of Fairbanks to the convention, mounted the rostrum.

Gov. Hanley drove home the points of his address by stabbing the air with the first finger of his right hand and by nervous sharp jerks of his head.

Finally Gov. Hanley turned to the noisiest section of the gallery and shaking his finger shouted:

"You keep quiet and I'll nominate him when I get ready."

A period of silence followed this, but the galleries were held in order only with difficulty.

Cries of "Boo, boo," came from several sections of the galleries and Gov. Hanley had to cease speaking for some little time. One of the characteristics of his delivery was the constant clapping of one hand on the other. The crowd caught this up at last and every time the speaker's hands came together there was a resounding crash of hands all through the hall.

As Gov. Hanley raised his right hand the crowd prepared and amid roars of cheering and applause continued its uproarious mingling of the speaker.

"I will be heard," shouted Gov. Hanley, "demand protection" he appealed to the chair.

"I am doing the best I can," replied Senator Lodge as he pointed upon the table. The official stenographer could no longer hear Gov. Hanley and made his way to the stage to take a place immediately at the speaker's side.

Chairman Lodge finally went to the front of the platform where he conferred with Sergeant-at-Arms James and then he spoke briefly and to the point, admonishing the people in the galleries that they were present as guests, adding:

"The gentlemen presenting the name of any candidate is entitled to as much time as he sees fit to use."

## To Be Paved With Hassam Pavement Says Supt. Morse

Despite the fact that the \$1500 loan to smooth pave Westford street was defeated in the common council, Westford street will be paved just the same and with Hassam pavement, too.

The superintendent of streets says that he will do the job out of his regular appropriation. He says that the street will have to be paved anyway and that now, when so many men are idle, is the time to do it. It will mean the depletion of Mr. Morse's appropriation for streets.

It is a rather unusual procedure for the superintendent of streets to ignore the city council and go ahead with a job that an order for which had been defeated, but Mr. Morse says he knows where he's at.

and there's a possibility that other streets may be neglected.

Morse has it that the order to pave Westford street was defeated in the common council not because those who voted against it thought it was wrong, but because of some holdover grievance from last year when the proposition to smooth pave Westford street was being talked over.

It is a rather unusual procedure for the superintendent of streets to ignore the city council and go ahead with a job that an order for which had been defeated, but Mr. Morse says he knows where he's at.

## STANDS BY COURTS

## Resolutions Committee Acts on the Injunction Plank

CHICAGO, June 18.—The biggest problem before the resolutions committee of the republican convention—that of the proposed plank in the platform dealing with the question of the use of court injunctions in labor controversies—was disposed of at 2 a. m. today when by a vote of 35 to 15 with two states (South Carolina and Louisiana) not represented the full committee agreed to the plank. It was predicted after the vote that there would be no fight on the matter on the floor of the convention when the full report of the committee was made today.

The full committee adopted the separate statehood plank for Arizona and New Mexico, thus reversing the sub-committee's action.

At 2:30 a. m. the committee adjourned. The meeting of the full committee on resolutions was held in the "Francis First" room of the Auditorium hotel annex at Michigan avenue and Congress street and began at 10 o'clock last night.

It was supposed to be strictly "executive and secret" and the bulk of the discussion was carried on in comparatively low tones inaudible a few feet beyond the outside of the group of committeemen but when the much discussed plank relating to the limitation of court injunction orders, especially in labor controversies, was reached, the intensity of the feeling which has marked all debates on this subject since the convention began was evidenced in raised voices and eager attention and attempts at secrecy were forgotten. At the same time the debate never reached the point of personal heat or exchange of invective.

The injunction plank was reported in the full committee a few minutes after 10 p. m. with Committeeman McGarvey of New Jersey opening the fight against its adoption. Mr. McGarvey, whose resonant tones filled the hall, declared that such a plank would be a reflection upon the integrity of the court and was entirely unnecessary. He asked the delegates if it is to show a single instance where the power by denunciations of the stand and demands of the labor people. Mr. McGarvey's remarks occupied nearly fifteen minutes and during that time the committee sat apparently unmoved and there was no response in the way of applause or hostile dissent as he concluded.

Senator Long of Kansas then took up the plank in behalf of the plank submitted by the sub-committee. He also was very emphatic in his remarks. He said that the wording of the plank while not so radical as was proposed by Mr. McGarvey and several of the labor leaders, was nevertheless not a hedge or straddle but a step forward by the republican party. He declared that an issue of this kind was one that there would be universal criticism if something was not done. He agreed that while the issuance of injunctions by the courts was as a rule in strict conformity with the laws as they appear on the statute books, the plank proposed by the committee would serve to make the general practice a universal practice throughout the country.

Representative Steven E. Paine of New York who is chairman of the committee on ways and means in the house of representatives, came out strongly in favor of the proposed plank. Mr. Paine said that he had been asked to nominate a man who he believed in with a measure and that he had declared himself in his speech in his recent visit to Cooper Union in New York city as strongly in favor of such action by congress. Mr. Paine dwelt at considerable length on the attacks of the party on the plank and declared that while he himself had been placed in favor by Gov. Hughes for the presidential nomination he had no doubt but that the plank proposed would be the cause of the defeat of the plank in the republican platform would insure Mr. Taft's election.

Frank B. Hollister of Minnesota followed with an equally spirited and vehement speech in support of the plank.

Wade H. Ellis of Ohio surprised his hearers by sending a telegram from President Roosevelt and a letter and a telegram from Secretary Taft. The president's letter was first called attention to a telegram sent on the previous day in support of the injunction plank. "I am very much" the telegram continued, "that it will be adopted." The president said he stood for the "square deal" and was not in accord with the extreme views of either the manufacturers' association on the one hand or the trade unionists on the other.

Secretary Taft's communication showing his position on this question was announced two years ago before he became a candidate. He favored a plank which would make impossible the radical use of the injunction but would continue its conservative benefits. The plank was supported also by D. Lawrence Groner of Virginia, H. Remel of Arkansas and H. O. Burson of New Mexico. Mr. McGarvey of New Jersey, William A. Drake of Colorado, B. F. O'Neil of Idaho, and Allen M. Fletcher of Vermont spoke in opposition to the plank but shortly before 2 o'clock it became evident that the patience of all hands was becoming exhausted, and when the proposition to bring the question to a vote was made it received unanimous support.

The method of taking the vote occasioned a brief discussion, some of the members of the committee desiring a simple division without record of individual votes. This was met by cries of "No, no." "Roll call, roll call," an done committeeman said: "There is no harm in going on record on this question for the vote will never be made public."

All hands seemed to take this comfortable assurance for granted and the roll call by states was begun. The actual roll vote was taken on a motion of Mr. Carter to eliminate the references to the courts from the text of the plank. Owing to the confusion of excited conversation shuffling of chairs and weary committeemen stretching into comfortable attitudes after the long session the first vote, that of J. H. Montgomery of Alabama, was not heard. The chairman, Senator Hopkins, rapped loudly for order but still the session was continued without special-ty because some were in doubt as to the precise question upon which the committee was to vote. Chairman Hopkins explained the situation and the clerk began the roll call. Mr. Montgomery of Alabama voted "no."

He was followed by H. M. Remmel of Arkansas, also in his negative, but Henry Melvin of California and William A. Drake of Colorado voted "yes."

Then came Connecticut, Florida and Georgia in the negative from that time on the opponents to the plank gained steadily until at the end the vote stood 35 to 15.

This roll call settled the question of the injunction plank in the platform and without further division the report of the sub-committee was accepted. Under the rule of secrecy adopted by the committee the official record of the vote was not obtainable but the division is said to have been as follows:

For the injunction plank—Montgomery of Alabama, Remmel of Arkansas, Ullman of Connecticut, DuPont of Delaware, Chubb of Florida, Johnson of Georgia, Hopkins of Illinois, Hemenway of Indiana, Long of Kansas, Bullock of Kentucky, Mace of Louisiana, McCann of Massachusetts, Kellogg of Minnesota, Yellow of Mississippi, Warner of Missouri, Field of Nebraska, Paine of New York, Adams of North Carolina, LeMoure of North Dakota, Evans of Tennessee, Ellis of Ohio, Harris of Oklahoma, Dabell of Pennsylvania, Dixon of South Dakota, Gaden of Texas, Groner of Virginia, Baling of Washington, Cooper of Wisconsin, Clark of Wyoming, Sloan of Alaska, Fletcher of Arizona, Burson of New Mexico and the Philippines and Porto Rico, committeemen.

Against the plank—Melvin of California, Drake of Colorado, O'Neil of Idaho, Lacey of Iowa, Dunn of Maine, Fordney of Michigan, Bennett of Montana, Nixon of Nevada, Mace of New Hampshire, McCann of Massachusetts, Kellogg of Minnesota, Yellow of Mississippi, Warner of Missouri, Field of Nebraska, Paine of New York, Adams of North Carolina, LeMoure of North Dakota, Evans of Tennessee, Ellis of Ohio, Harris of Oklahoma, Dabell of Pennsylvania, Dixon of South Dakota, Gaden of Texas, Groner of Virginia, Baling of Washington, Cooper of Wisconsin, Clark of Wyoming, Sloan of Alaska, Fletcher of Arizona, Burson of New Mexico and the Philippines and Porto Rico, committeemen.

Louisiana and South Carolina were not recorded.

# TO RESUME WORK

## New England Mills to Start Up on Full Time

Half a million people in New England will be affected if the optimistic prediction of Agent Henry P. Straw of the Amoskeag mills of Manchester, N. H., which will go on full time this week, comes true.

He declares it is his opinion that the action of the Amoskeag mills, the greatest in the east, if not in the country, will be followed by all the other cotton manufacturers of New England, and intimates that the business conditions ought soon to warrant the restoring of the old wage schedule.

This would mean something like \$1,000,000 more weekly for the mill workers of New England to spend in the stores of that section. It means not only prosperity for the half a million mill workers and members of their families, but prosperity for the hundreds of merchants in Manchester, Nashua, Lowell, Lawrence, Fall River, New Bedford, Pawtucket, Lewiston, Adams and the scores of other New England cities, towns and villages where cotton manufacturing is the chief industry.

MANCHESTER, N. H., June 18.—The Amoskeag mills will go on a full time schedule this week with 15,000 operatives, because the corporation believes that business conditions are now such that it will be able to dispose of its output. I cannot speak authoritatively for the other great cotton mills, but if I may venture an opinion, I should say that they will do the same as the Amoskeag Manufacturing company.

This statement was made to a reporter yesterday afternoon by Henry P. Straw, agent of the Amoskeag mills, during an interview in which he admitted it was the first time in his business career that he had broken his rule of never talking of business affairs for publication.

One-quarter of the total population of the city of Manchester will be affected by the resuming of a full time schedule. The weekly payroll of the corporation will be increased over \$30,000. Every man, woman and child in Manchester will have 10 cents per week more to spend.

After six weeks of running on two-thirds time, following a cut of 10 per cent. three months ago, it will mean that hundreds of families on the verge of starvation will now be able to purchase more than the bare necessities of life.

But Mr. Straw not only prophesied the reviving of the great cotton industry; he intimated that it is very probable the wage schedules may be restored to where they were before the recent cut of from 10 to 17 per cent. by the different companies.

Half a million people in New England will be affected if the other textile industries follow the lead of the Amoskeag mills, and it will mean an increase of nearly a million dollars weekly in the wages paid to the mill workers.

Mr. Straw was preparing to drive from the first tee at the Intervale Country club golf course when he was found yesterday by a reporter.

"The full time schedule will not begin to affect the operatives until Friday, so I am enjoying a little relaxation," said he with a smile to the newspaper man as he took a handful of damp sand from the box and started to build his tee.

"What, in your opinion, has brought about such business conditions that the Amoskeag mills are able to go on

full schedule?" asked the reporter.

"I cannot speak authoritatively for the other great cotton mills, but if I may venture an opinion I should say that they will do the same as the Amoskeag Manufacturing company. It simply means that the general business of the country is now in such a prosperous condition that we will be able to dispose of all the cotton we can manufacture."

## LOOKED PRETTY

And Drew Salary of \$15 a Week

NEW YORK, June 18.—It isn't unusual for a young woman to make \$15 a week as a stenographer, but it is often that one makes that amount for merely sitting around and looking pretty—with a private office to sit in at that.

Such, it is alleged, was the happy employment of Miss E. Bennett of 601 West One Hundred and Thirty-sixth street, who, until recently, worked for the Connolly Fruit Auction company, whose offices are on Pier 7, North River. Hugh Connolly, a wealthy commission merchant, is head of the company.

Santi Amoroso, a former member of the firm, is suing for commission to the amount of about \$10,000.

Yesterday Mr. Amoroso's motion to have the books of the company produced was heard by Judge Blanchard in the supreme court. His deposition said in part:

"Dependent says he believes the books will show that certain expenses have been charged against the profits of the company, which should properly be charged against said Connolly, to wit:

"Particularly the salary of one Miss Bennett, more familiarly known as 'Bean,' a young woman appearing to be about 22 years of age, who was placed in the office by Mr. Connolly, with instructions that she was to draw \$15 a week, but who performed no service for department, or J. M. Fanning, also of the firm, so far as office work was concerned, but occupied such small portion of the time she was there in sitting in the private office constructed for her by Connolly, sewing when not otherwise engaged in chatting with Mr. Connolly, which occupied about four hours of the day, without being a benefit to the business, but on the other hand a great detriment."

Mr. Amoroso states further that when he went to Pittsburgh for the company in February he met Connolly and the young woman on the train, and returned with them.

## HEADLESS BODY

Was Picked Up on the Beach

BOSTON, June 18.—An unidentified, headless body of a man in the uniform of a United States soldier was found on the beach at Spectacle Island late yesterday afternoon by the lighthouse keeper. The body was that of a man about 20 years old, 5 feet 9 inches in height and weighing about 170 pounds.

It is thought that the head was separated from the body by the paddle wheel or propeller of a steamer, or by the action of the water, as the body had evidently been for months in the water. Both hands were also missing. The corpse was brought to Boston by the patrol boat Watchman and removed to the North Grove street morgue.

From information obtained from the commanding officer at Fort Revere, Hull, last night, the body may possibly be that of Private Walter F. Doherty, 27, who has been missing since Jan. 29. He was returning at night from Boston in the small government tender used at the fort, and while attempting to leap to the dock while the boat was in motion, fell overboard and was drowned.

Another interesting regular is William Brown, a coast artillery man, stationed at Fort Andrews, High. He was drowned the same day as Doherty off Peddocks Island.

## REQUIEM MASS

FOR REPOSE OF SOUL OF LATE BISHOP DELANEY.

A solemn requiem mass in memory of the Rt. Rev. John Bernard Delaney, second bishop of Manchester, was celebrated at St. Joseph's cathedral, Manchester, yesterday morning at 8:30 o'clock.

The celebrant of the mass was the Rev. Thomas M. O'Leary, chancellor of the diocese, and he was assisted by the Rev. William Sweeney as deacon, and the Rev. John J. Murphy as sub-deacon.

Bishop Delaney occupied the episcopal throne, and at the close of the mass gave the absolution.

The church was well filled with the faithful of the city, representing the different parishes. Bishop Delaney's relatives of this city and Boston were present.

LAURENT REVEL.

## GLOBE TROTTER

Laurent Revel Reached Town Yesterday

IS ACCOMPANIED BY BIG DOG

He Tells Many Tales of His Adventures

Telling about kings and princes isn't easy work, and even Rudyard Kipling, who is acknowledged to have had large experience, had to admit when he wrote "The Man Who Would Be King," that he had never known a king who was carrying his crown around on his placid white brow, and knew that two men who became kings by their own confession, but they paid dearly for it.

A fellow who struck Lowell yesterday has it all over our friend Rudyard on the king question. That man is Laurent Revel of Paris and he's a bona fide globe trotter of the first water and if you don't believe it, ask him. He has taken one run around the world and he's at it again. The only thing to mar the romance of Revel's walks and talks is the fact that he is walking for money and it's the day's best bet that he won't get it. Now, if Laurent Revel of Paris should connect with the \$50,000 for which he is wearing out his shoe leather, and sit down in some quiet cozy corner in the Latin quarter of Paris, and reel off stories about kings, dukes, earls, chiefs, sheiks and others he will make Mr. Kipling step into the British museum and brush up on antiquated king-like genealogy.

Revel carries with him the signatures of 32,000 persons of nobility and command. He called on President Roosevelt and in the globe trotter's book of signatures and comments the president of these great United States wrote above his signature the following words: "Good luck to you on your second trip around the world. We allow that that's going some. It was in November of last year that our friend Teddy wished the weary wanderer luck upon his trip."

Revel has travelled once around the

world taking him ten years to do it. Included in the 32,000 signatures which he has in his possession are those of prominent men of South American republics, emperors, kings, princes, politicians and others.

He left Paris with a companion eleven years ago on a trip that should not consume more than ten years. His companion was killed by highwaymen near San Francisco, Cal., and Revel, after various escapades including a few revolutions in South America, including with all the races of the earth, and performing astonishing stunts arrived in Buenos Ayres on time.

Revel and his companion were to receive \$20,000 each if they performed the feat of walking around the world in the prescribed time, but when Revel returned to Paris some one there said he hadn't crossed Australia, and had merely left his card with the gentlemen who live on the border of Morocco.

It was finally decided that if he would sunter about the world for two and a half years more he could not only have his \$20,000 but the \$20,000 promised his companion who was killed.

He left Paris last May and landed here yesterday afternoon. He didn't walk across the ocean, however, as the elapsed time might make it appear. He is stopping at the New Merrimack house.

Mr. Revel is a square shouldered, well built man who looks as if he might not be afraid to tackle a bear whether it be in Fathum, Louisiana, Alaska or Wall street. He wears his hair long which is about the only impression given that he is an artist—he is eleven years ago, and still decorates post cards, which he sells to help him on his way. He has long hair and plenty of it, a small bristly mustache and would be apt to frighten any ordinary Arab. He looks as if he could take care of himself in the best bush society of Australia, or the friendly shelter of a date palm with Bedouins circling about thirsting for gore.

He expects to get through, however, and to live to tell the little gamins of the world about it. He may write a book about "Gimme I have met; Princess I have snubbed."

Revel is accompanied by a beautiful dog of formidable proportions that was given him in Norway. The dog weighs about 150 pounds and is peculiarly and unusually devoted to his master. If you see Revel you'll see his dog. They are inseparable and it's a sure case of "love me, love my dog."

Once when attacked by thugs in New York city the big dog from Norway fought side by side with his master and between them they managed to take two of their assailants to a police station where it was decided that the thugs had suffered enough at the hands of Revel and the tusks of his companion.

## MATRIMONIAL

Mr. Edward L. Phelps and Miss Mary E. Connell were married yesterday afternoon at 5 o'clock at the parochial residence of St. Patrick's church by Rev. Fr. Curtin. Miss Gertrude M. Connell, a

sister of the bride, was bridesmaid and the best man was Robert R. Thomas.

The bride wore white tulle silk, trimmed with duchesse lace and the bride-maid wore lawn colored tulle, with pink trimmings. The bride carried a shower bouquet of white roses, while the bride-maid carried pink roses.

After the ceremony a reception to friends and relatives was held at the home of the bride's mother, Mrs. Elizabeth Connell, 5 Loring street. Music was furnished during the evening by the Calvary orchestra. The D. J. Page company catered. Among the guests present, from out of town were Mrs. Richard A. Casey of New York, Mrs. McKenzie of Wehurn, and Mrs. S. Norton of Salem. Mr. and Mrs. Phelps received many handsome presents. They left Lowell on an early train and were given a lively send-off at the Northern station, where rice and confetti played prominent parts. Mr. and Mrs. Phelps will be at home in their new home at the corner of Parker and Powell streets, after August 1.

## STEVENS-BRENNAN

Mr. Francis W. Stevens of Dorchester and Miss Nellie A. Brennan of this city were married yesterday afternoon at the parochial residence of St. Patrick's church by Rev. Joseph Curtin. The ceremony was witnessed by a goodly number of friends including many from out of town.

The bridesmaid was Miss Clara E. Mahoney, and the best man, John H. Hyde of Dorchester. The bride wore white crepe de chine, and carried roses and the bridesmaid wore pink silk, and also carried roses.

Little Miss Josephine Brennan, a niece of the bride, acted as flower girl, and the ushers were Messrs. Murlagh and McCarthy.

Following the ceremony, there was a reception at the home of the bride's sister, Mrs. Daniel Hannafin at 145 Salem street. Among the young ladies who assisted in pouring at the reception were Misses Nora Mahoney, Mary Fallon, Annie Gill and Anastasia Murray.

Mr. and Mrs. Stevens will be at home after July, at 115 Laurial avenue, Dorchester.

## EMERSON-KENNEDY

At the First Baptist church, South Chelmsford Tuesday afternoon Mr. John Bryant Emerson, son of Mr. and Mrs. Henry H. Emerson, and Fessie Avery Kennedy, eldest daughter of Mr. and Mrs. Fred E. Kennedy, were united in marriage by Rev. Charles W. Williams of North Middleboro, a former pastor of the church.

The church was prettily decorated and just before the bridal party entered Miss Carolyn R. Nourse, of Barre, a classmate of the bride gave selections from Lohengrin on the organ and Miss Ross sang "O Promise Me" and "Perfect Love."

Rev. Mr. Williams was assisted by Rev. Mr. Wells, pastor of the church. The bride was attended by Miss Florence M. and Miss Alice M. Kennedy, sisters of the bride, who were most becomingly dressed in princess gowns of white silk with large lace collars and long sleeves.

## IN POLICE COURT

Many Strangers Before Judge Hadley

Today was visitors day in police court. The session lasted less than ten minutes and the majority of the offenders hailed from out of town.

Joseph Chartier, who came to this city from Canada last Saturday, was arrested in Merrimack square yesterday by Patrolman William G. Bumps. The arresting officer testified that Chartier had been drunk in the square for a couple of days. The court gave Joseph a little lecture on the way he should act when in the United States and owing to his condition decided that 11 days in jail would do him a great deal of good.

George Kavanaugh claimed a residence in Watertown, but being a drinking man was very much averse to having anything to do with a place with even the name of water in it and came to this city. He claimed with a \$2 fine.

Harry Marshall of New Bedford made his first appearance in the local police court and he also escaped with a \$2 fine.

Jeremiah Murphy of this city was before the court yesterday morning and it was his second offense he was fined \$5. Jerry decided to celebrate after his fine had been paid and as a result of his lighting too freely in the flowing bowl found himself in police court again this morning. It will be a rather long time before Jerry gets another drink of intoxicating liquor for he will spend the summer down on the farm, the state farm of Bridgewater.

The case of Michael Sullivan, charged with drunkenness and assaulting Patrick Quinn was called for trial, but as Quinn is still in the hospital the case was continued till June 27th. He was held under \$500 bonds.

A first offender was fined \$2 and one man was released before the opening of court.

It was at first believed that Frederick T. Prellinghuysen, a grandson of F. T. Prellinghuysen, secretary of state under President Arthur, the owner of the automobile, was one of those injured but this was found to be a mistake.

Sentenced to Ten Months in Jail

James T. Ganley, of this city, who was charged with larceny of money from the Central Bank, who conducted a bakery on Central street, in the old Barbers hall building, was today sentenced to ten months in the Lowell jail. Ganley had appealed from a sentence of one year imposed by the lower court, but inasmuch as he had spent two months in jail before being called for trial in the superior court, the judge took that into consideration and deducted the two months from the original sentence. Ganley was taken to Lowell this afternoon and entered upon his sentence.

## Platform to Their Liking Reported by Resolutions Committee

Injunction Plank Agreed to After a Long Battle—Renomination of Roosevelt Threatened If "Allies" Turn Down Taft's Platform—The Platform is a Lengthy Document

CHICAGO, June 18.—Victory for the Taft people on the republican committee came with dawn. A platform which contains an injunction plank satisfactory to the prospective candidate is embodied in the substantial structure of verbiage upon which is to be made the secretary's appeal for popular approval. This result was attained with suddenness upon the collapse of the opposition early in the evening. Two hours before this the opponents of the injunction plank were rejecting offers of compromise and asserting with positiveness their ability to eliminate any injunction plank.

A telegram from President Roosevelt arrived, as well as a letter and telegram from Secretary Taft, each urging action. An ultimatum in substance: If not in words had been delivered shortly before the "allies" which was interested in spoiling the renomination of Roosevelt, should the convention refuse a platform upon which the secretary of war could make the race with confidence. Then followed protracted discussion and the final adoption of the contested plank by a vote of 35 to 18.

There were a number of minor contentions in the committee but the Roosevelt-Taft idea prevailed in the ultimate analysis and while Thomas M. McCarver of New Jersey insisted on his right to take the question of injunction to the convention floor the prediction was made in authoritative quarters that no murmurs of the minority fight would be heard in that gathering.

Beginning with the adjournment of the convention Tuesday the work of the resolutions committee was practically continuous until 4:30 o'clock this morning when the finished platform was produced. It was not until 10 o'clock last night that the scales began to tip in favor of the administration forces but after the dissolution of the opposition began it was rapid and soon complete.

The court procedure plank as adopted by the committee on resolutions is as follows: "The republican party will uphold at all times the authority and integrity of the courts, state and federal, and will ever insist that their powers to enforce their process and to protect liberty and property shall be preserved inviolable. We believe, however, that the rule of procedure to the federal courts with respect to the writ of injunction should be more accurately defined by statute and that no injunction or temporary restraining order should be issued without notice except irreparable injury would result from delay in which case a speedy hearing thereafter should be granted."

THE PLATFORM. CHICAGO, June 18.—The text of the platform as adopted by the committee on resolutions is as follows:

Once more the republican party, in national convention assembled, submits its cause to the people. This great historic organization that destroyed slavery, preserved the Union, restored order, expanded the national domain, established a sound financial system, developed the industries and resources of the country and gave to the nation her seat of honor in the councils of the world, now meets the new problems of government with the same courage and capacity with which it solved the old.

REPUBLICANS UNDER ROOSEVELT. In this, the greatest era of American advancement, the republican party has reached its highest service under the leadership of Theodore Roosevelt. His administration is an epoch in American his-

tory. In no other period since the national sovereignty was won under Washington or preserved under Lincoln has there been such mighty progress in those ideals of government which make for justice, equality and fair dealing among men.

The highest aspirations of the American people have found a voice. Their most exalted servant represents the best aims and worthiest purposes of all the countrymen. American manhood has been lifted to a nobler sense of duty and obligation. Conscience and courage in public station and higher standards of right and wrong in private life have become cardinal principles of political faith; capital and labor have been brought into closer relations of confidence and interdependence and the abuse of wealth, the tyranny of power and all the evils of privilege and favoritism have been put to rest by the simple, manly virtues of justice and fair play.

The great accomplishments of President Roosevelt have been first and foremost, a brave and impartial enforcement of the law; the prosecution of illegal trusts and monopolies; the exposure and punishment of evil doers in the public service; the more effective regulation of the railroads and the great transportation lines; the complete overthrow of preferences, rebates and discriminations; the arbitration of labor disputes; the amelioration of the condition of wage workers everywhere; the conservation of the natural resources of the country; the forward steps in the improvement of the inland waterways; and always the earnest support and defense of every wholesome safeguard which has made more secure the guarantees of life, liberty and property. These are the achievements that will make for Theodore Roosevelt his place in history, but more than all else the great things he has done will be an inspiration to those who have yet greater things to do. We declare our unflinching adherence to the policies thus inaugurated and pledge their continuance under a republican administration of the government.

Under the guidance of republican principles the American people have become the richest nation in the world. Our wealth today exceeds that of England and all her colonies and that of France and Germany combined. When the republican party was born the total wealth of the country was \$16,000,000,000. It has leaped to \$110,000,000,000 in a generation while Great Britain has gathered but \$60,000,000,000 in five hundred years. The United States now owns one-fourth of the world's wealth and makes one-third of all modern manufactured products. In the great necessities of civilization such as coal, the motive power of all activity; iron, the chief basis of all industry; cotton, the staple foundation of all fabrics; wheat, corn and all the agricultural products that feed mankind, America's supremacy is undisputed. And yet her great natural wealth has been scarcely touched. We have a vast domain of three million square miles, literally bursting with latent treasure, still awaiting the touch of capital and industry to be converted to the practical uses of mankind; a country rich in soil and climate, in the unharnessed energy of its rivers and in all the varied products of the field, the forest and the factory. With gratitude for God's bounty, with pride in the splendid productivity of the past and

with confidence in the plenty and prosperity of the future, the republican party declares for the principle that in the development and enjoyment of wealth so great and blessings so benign, there shall be equal opportunity for all.

THE REVIVAL OF BUSINESS. Nothing so clearly demonstrates the sound basis upon which our commercial, industrial and agricultural interests are founded and the necessity of promoting their continued welfare through the operation of republican policies as the recent safe passage of the American people through a financial disturbance which, if appearing in the midst of democratic rule, or the menace of it, might have equalled the familiar democratic panics of the past. We congratulate the people upon this renewed evidence of American supremacy and hail with confidence the signs now manifest of a complete restoration of business prosperity in all lines of trade, commerce and manufacturing.

RECENT REP. LEGISLATION. Since the election of William McKinley in 1896 the people of this country have felt anew the wisdom of entrusting to the republican party through decisive majorities the control and direction of national legislation. The many wise and progressive measures adopted at recent sessions of congress have demonstrated the patriotic resolve of republican leadership in the legislative department to keep step in the forward march toward better government.

Notwithstanding the indefensible filibustering of a democratic minority in the house of representatives during the last session many laws were enacted and we especially commend the passage of the emergency currency bill; the appointment of the national monetary committee; the measures for the greater efficiency for the army and navy; the widows' pension bill; the child labor law for the District of Columbia; the new statutes for the safety of railroad engineers and firemen; and many other acts concerning the public welfare.

TARIFF ISSUE. The republican party declares unequivocally for a revision of the tariff by a session of congress immediately following the inauguration of the next president and commends the steps already taken to the end that the work assigned to the appropriate committees of congress which are now investigating the operation and effect of existing schedules. In all tariff legislation the true principle of protection is best maintained by the imposition of such duties as will equal the difference between the cost of production at home and abroad, together with a reasonable profit to American industries.

We favor the establishment of maximum and minimum rates to be administered by the president under limitations fixed in the law, the maximum to be available to meet discriminations by foreign countries against American goods entering their markets, and the minimum to represent the normal measure of protection at home, the aim and purpose of the republican policy being not only to protect without excessive duties that security against foreign competition to which American manufacturers, farmers and producers are entitled but also to maintain the high standard of living of the wage earners of this country who are the most direct beneficiaries of the protective system. Between the United States and the Philippines we believe in a free interchange of products with such limitations as to sugar and tobacco as will afford adequate protection to domestic interests.

CURRENCY. We approve the emergency measures adopted by the government during the recent financial disturbance, and especially commend the passage by congress at the last session of the law designed to protect the country from a repetition of such stringency. The republican party is committed to the development of a permanent currency system, responding to our greater needs and the appointment of the national monetary commission by the present congress, which will impartially investigate all proposed methods, insure the early realization of this purpose. The present currency laws have fully justified their adoption, but an expanding commerce, a marvelous growth in wealth and population multiplying the centers of distribution, increasing the demand for the movement of goods in the west and south, and entailing periodic changes in monetary conditions, disclose the need of a more elastic and adaptable system. Such a system must meet the requirements of agriculture, manufactures, merchants and business men generally, must be unimpaired in operation, maintaining its integrity in interest rates and above all must be in harmony with that republican doctrine which insists that every dollar shall be based upon and as good as gold.

POSTAL SAVINGS. We favor the establishment of a postal savings bank system for the convenience of the people and the encouragement of thrift.

THE TRUSTS. The republican party passed the

Sherman anti-trust law over democratic opposition and enforced it after democratic dereliction. It has been a wholesome instrument for good in the hands of a wise and fearless administration. The experience has shown that its effectiveness can be strengthened and its real objects better attained by such amendments as will give to the federal government greater supervision and control over and secure greater publicity in the management of that class of corporations engaged in interstate commerce having power and opportunity to effect monopolies.

THE RAILROADS. We approve the enactment of the railroad rate law and the vigorous enforcement by the present administration of the statutes against rebates and discriminations as a result of which the advantages formerly possessed by the large shipper over the small shipper have been substantially diminished and in this connection we commend the appropriation by the present congress to enable the interstate commerce commission to thoroughly investigate and give publicity to the accounts of interstate railroads. We believe, however, that the interstate commerce law should be further amended so as to give railroads the right to make and publish traffic agreements, subject to the approval of the commission, by maintaining always the principle of competition between naturally competing lines and avoiding the common control of such lines by any single interest. We favor such national legislation and supervision as will prevent the future over-issue of stocks and bonds by interstate carriers.

RAILROAD AND GOVERNMENT EMPLOYEES. The enactment in constitutional form at the present session of congress of the employers' liability law; the passage and enforcement of the safety appliance statutes as well as the additional protection secured for engineers and firemen; the reduction in the hours of labor of trainmen and railroad telegraphers; the complete coverage of the powers of mediation and arbitration between interstate railroads and their employees, and the law making a beginning in the policy of compensation for injured employees of the government, are among the most commendable accomplishments of the present administration. These measures, taken in this direction, yet to be done and the republican party pledges its continued devotion to every cause that makes for the safety and the betterment of conditions among those whose labor contributes so much to the progress and welfare of the country.

WAGE EARNERS GENERALLY. The same wise policy which has induced the republican party to maintain protection to American labor; to establish an eight-hour day in the construction of all public works; to increase the list of employees who shall have preferred claims for wages under the bankruptcy law; to adopt a child labor statute for the district of Columbia; to direct an investigation into the condition of working women and children and later of employees of telephone and telegraph companies engaged in interstate business; to appropriate \$100,000 at the recent session of congress in order to secure a thorough inquiry into the causes of catastrophes and loss of life in the mines; and to amend and strengthen the law prohibiting the importation of contract labor will be pursued in every legitimate direction within federal authority to protect the business and increase the opportunity for happiness and advancement of all who toil. The republican party recognizes the special needs of wage workers generally, for their well being means the well being of all. But more important than all other considerations are the needs of the widows and orphans of those who have fallen, and especially for the needs of every American, whatever his occupation, in his capacity of a self-respecting citizen.

COURT PROCEDURE. The republican party will uphold at all times the authority and integrity of the courts, state and federal, and will ever insist that their powers to enforce their process and to protect life, liberty and property shall be preserved inviolable. We believe, however, that the rules of procedure in the federal courts with respect to the issuance of the writ of injunction should be more accurately defined by statute, and that no injunction or temporary restraining order should be issued without notice except where irreparable injury would result from delay in which case a speedy hearing thereafter should be granted.

THE AMERICAN FARMER. Among those whose welfare is as vital to the welfare of the whole country as is that of the wage earner is that of the American farmer. The prosperity of the country rests peculiarly upon the prosperity of agriculture. The republican party during the last twelve years has accomplished, through the enactment of the resources of the national government to the aid of the farmer, not only in advancing agriculture itself but in increasing the conveniences of rural life. Free rural mail delivery has been established; it now reaches millions of our citizens and we favor its extension until every community in the land receives the full benefits of the postal service. We recognize the social and economic advantages of good country roads, maintained more and more largely at public expense and less and less at the expense of the abutting owner. In this work we commend the growing practice of state aid and we favor the establishment of a national agricultural department by experiments and otherwise to make clear to the public the best methods of road construction.

THE RIGHTS OF THE NEGRO. The republican party has been for more than fifty years the consistent friend of every community that has freedom and citizenship. It wrote into the organic law the declarations that proclaim its civil and political rights and it believes today that his noteworthy progress in intelligence, industry and good citizenship has earned the respect and encouragement of the nation. We demand equal justice for all and we favor the removal of color, we believe again and without reservation for the negro in letter and spirit of the constitution, and fifteen amendments to the constitution which were designed for the protection and advancement of the negro and we condemn any discrimination against him on the basis of race, color, or creed, and we favor the enforcement of the laws which prohibit the denial of the rights of the negro to the same opportunities as the white race.

NATURAL RESOURCES AND WATERWAYS. We endorse the movement inaugurated by the administration for the conservation of natural resources, and we favor all measures to preserve the nation's forests, to protect the work now going on in the reclamation of arid lands and the reclamation of the fisheries of the United States. We favor the selection of the location of the available areas of the public domain to be the best suited to the needs of the landless settler. No national or private land shall be sold or leased or otherwise disposed of without the approval of the public land commission, and we favor the establishment of a bureau of land and water conservation.

FOREIGN POSSESSIONS. The American government in republican hands has freed Cuba, given peace and protection to Porto Rico and the Philippines under our flag and has begun the construction of the Panama canal. The present conditions in Cuba vindicate the wisdom of maintaining the United States in the island, and the Cuban people will soon again be ready to assume complete sovereignty over their land.

IN Porto Rico the government of the United States is meeting loyal and patriotic support, and the well being of the people is in every respect promoted and encouraged. We believe that the native inhabitants of Porto Rico should be at once collectively enfranchised, and that the United States should have the privilege of purchasing the island from Spain, and that the United States should have the privilege of purchasing the island from Spain, and that the United States should have the privilege of purchasing the island from Spain.

THE BUREAU OF MINES AND MINING. In the interest of the great mineral industries of our country we earnestly favor the establishment of a bureau of mines and mining.

PUBLIC HEALTH. We commend the efforts designed to secure greater efficiency in national public health agencies and favor such legislation as will effect this purpose.

THE ARMY AND NAVY. The present congress passed many commendable acts increasing the efficiency of the army and navy; making the militia of the states an integral part of the national establishment; authorizing joint maneuvers of the army and militia; fortifying new naval bases and completing the construction of coaling stations; instituting a female nurse corps for naval hospitals and ships and adding two new battleships, two torpedo boat destroyers, three steam colliers and eight submarines to the strength of the navy. Although at peace with all the world, and secure in the consciousness that the American people do not desire and will not provoke a war with any other country, we nevertheless declare our unshaken devotion to a policy that will keep this republic ready at all times to defend her traditional duties and assure her appropriate part in promoting permanent tranquility among the nations.

PROTECTION OF CITIZENSHIP. We commend the vigorous efforts made by the administration to protect American citizens in foreign lands and place ourselves to insist upon the just and equal protection of all our citizens abroad. It is the unquestioned duty of the government to procure for all citizens, without distinction, the rights of travel and sojourn in friendly countries and we declare ourselves in favor of all proper efforts tending to that end.

FOREIGN COMMERCE. Under the administration of the republican party the foreign commerce of the United States has experienced a remarkable growth until it has a present annual valuation of approximately three billions of dollars and gives employment to a vast amount of labor and capital which otherwise would be idle. It has inaugurated, through the recent visit of the secretary of state to South America and Mexico, a new era of Pan-American comity which is bringing us into closer touch with twenty sister American republics having a common historical heritage and a republican form of government and offering us a limitless field of legitimate commercial expansion.

THE HAGUE TREATIES. The conspicuous contributions of American statesmanship to the great cause of international peace, so signal advanced in The Hague conferences are an occasion for just pride and gratification. At the last session of the Senate of the United States eleven Hague conventions were ratified, establishing the rights of neutrals, laws of war on land, restriction of submarine mines, limiting the use of force for the collection of contractual debts, governing the opening of hostilities, extending the application of Geneva principles and, in many ways lessening the evils of war and promoting the peaceful settlement of international controversies. At the same session twelve arbitration treaties with great nations were confirmed and extradition, boundary and neutralization treaties, of great importance were ratified. We endorse such achievements as the highest duty a people can perform and proclaim the obligation of further strengthening the bonds of friendship and good will with all the nations of the world.

MERCHANT MARINE. We adhere to the republican doctrine of encouragement to American shipping and urge such legislation as will revive the merchant marine prestige of the country, so essential to national defense, the enlargement of foreign trade and the industrial prosperity of our own people.

VETERANS OF THE WAR. Another republican policy which must ever be maintained is that of generous provision for those who have fought the country's battles and the widows and orphans of those who have fallen. We commend the increase in the widows' pensions made by the present congress and declare for a liberal administration of all pension laws to the end that the people's gratitude may grow deeper as the memories of heroic sacrifice grow more sacred with the passing years.

CIVIL SERVICE. We reaffirm our declarations that the civil service laws, enacted, extended and enforced by the republican party shall continue to be maintained and obeyed.

PUBLIC HEALTH. We commend the efforts designed to secure greater efficiency in national public health agencies and favor such legislation as will effect this purpose.

## ON WEDDING TOUR

Young Bridegroom Has  
Appendicitis

William Cheney, formerly of this city and well known here in club and social life, was in Lowell yesterday and called on Mayor Farnham. Mr. Cheney is now in business in Baltimore though his home is in Portland, Me. "Billy," as he was familiarly called, was a great bowler and was captain, at one time, of the Highland club. His visit in Lowell terminated in a sudden call to Boston. His daughter, Margaret, was married a few days ago to a young man of Ellsworth, Me., a banker, and while at the Parker House, in Boston, the first stop on their honeymoon, he was taken sick. Physicians were summoned and they decided that he had appendicitis and the advisability of an operation was discussed. When the young bride learned from the doctors that her husband was seriously ill she telegraphed her father in this city.

## BOARD OF HEALTH

HELD A BRIEF MEETING YESTERDAY.

The board of health met yesterday afternoon. The meeting was short and unimportant. Leonard Spaulding of Chelmsford was granted a well license and Charles P. Harrington was granted a stable license in Tanner street. No action was taken on the petition for a stable in Saunders avenue, the petition on which a hearing was held some time ago and against which so many remonstrances appeared.

## THE INSULT TO OUR FRENCH CITIZENS

WE HAVE WATCHED WITH DEEP SYMPATHY THE ACTION OF OUR FRENCH AMERICAN RESIDENTS IN RESENTING THE WANTON INSULT OFFERED THEIR NATIONALITY IN THE UNITED STATES BY AN UNSIGNED ARTICLE IN THE NEW YORK SUN.

NOBODY NEED BE SURPRISED AT ANYTHING PUBLISHED BY THE NEW YORK SUN, FOR WE FIRMLY BELIEVE THAT THERE IS SCARCELY A SINGLE PUBLIC ISSUE OF THE LAST GENERATION ON WHICH THAT PAPER CANNOT BE QUOTED ON BOTH SIDES. WE VENTURE TO SAY THAT IF ITS FILES WERE SEARCHED SOME OF THE HIGHEST TRIBUTES WOULD BE FOUND FOR THE FRENCH CITIZENS OF THIS COUNTRY.

BUT WE ARE NOW DEALING WITH A MOST OUTRAGEOUS ATTACK UPON THE FRENCH CANADIANS OF THIS COUNTRY BY THE NEW YORK SUN AND WE THOUGHT IT WOULD BE QUITE APPROPRIATE TO SET UP THE VIEWS OF THE LOWELL SUN AGAINST THOSE PUBLISHED BY ITS NEW YORK NAMESAKE.

ON THIS SUBJECT WE HAVE HAD SUFFICIENT OPPORTUNITY TO JUDGE OF THE FRENCH PEOPLE FROM OUR INTERCOURSE WITH THE 25,000 OF THAT NATIONALITY IN THIS CITY AND WE CAN SAY WITHOUT FEAR OF CONTRADICTION THAT THEY ARE UNQUESTIONABLY ONE OF THE MOST PROGRESSIVE, LAW ABIDING, INTELLIGENT AND INDUSTRIOUS PEOPLES THAT HAVE CAST THEIR LOT ON THESE SHORES.

LOOK AT THEIR RAPID GROWTH IN OUR OWN CITY; LOOK AT THE FINE BUILDINGS AND THE VAST AMOUNT OF REAL ESTATE THEY OWN TODAY; LOOK AT THEIR SCHOOLS AND THEIR CHURCHES, LOOK AT THE SPLENDOR OF THEIR TURN-OUTS ON FESTIVE OCCASIONS WHEN THEY APPEAR IN STREET PARADE—CONSIDER THEM IN ANY ASPECT YOU PLEASE AND IF YOU ARE A FAIR-MINDED OBSERVER, YOU WILL FULLY CONCUR WITH THE ESTIMATES OF THEIR WORTH HERE SET FORTH AS THE RESULT OF INTIMATE KNOWLEDGE OF THE FRENCH RESIDENTS OF THIS CITY.

THE FRENCH CITIZENS OF LOWELL ARE NO BETTER THAN THOSE OF FALL RIVER, NEW BEDFORD AND OTHER AMERICAN CITIES AND HENCE WE ASSERT THAT THE CONTEMPTIBLE, SCURRILOUS AND WANTON ATTACK OF THE NEW YORK PAPER MUST HAVE HAD ITS ORIGIN IN THE IMAGINATION OF SOME DISEASED BRAIN.

NOT ONLY IS IT AN INSULT TO THE FRENCHMEN ALIVE TODAY, BUT EQUALLY AN INSULT TO THE MEMORY OF THE LATE REV. FR. GARIN, O. M. I., AND SCORES OF OTHER NOBLE PIONEERS WHO HELPED TO BUILD UP THIS REPUBLIC BY THEIR WISE LEADERSHIP, THEIR PIOUS AND SELF-SACRIFICING LIVES.

WERE FATHER GARIN ALIVE TODAY, WE SURMISE HE WOULD TELL HIS PEOPLE NOT TO FRET OVER SUCH SILLY ATTACKS, FOR HOWEVER WIDELY CIRCULATED, THEY ARE FULLY ANSWERED AND REFUTED BY THE FACTS OF HISTORY KNOWN TO EVERY CHILD IN AMERICA.

YET, STRANGE TO SAY, A PROMINENT BUT ERRATIC JOURNAL SUCH AS THE NEW YORK SUN, SEEMS TO HAVE FORGOTTEN THE PLAIN FACTS OF HISTORY THAT GIVE THE FRENCH ARMIES AND THE FRENCH FLEET THE CREDIT OF SO ACTING AT A CRITICAL PERIOD IN THE REVOLUTION AS TO MAKE POSSIBLE THE SURRENDER OF CORNWALLIS AT YORKTOWN.

THE STORY IS A BRIEF ONE AND IT MAY REFRESH THE MEMORY OF SOME TO REPEAT IT HERE.

GENERAL GREENE HAD BEEN GIVING THE BRITISH SOME HARD BLOWS, BUT WAS FINALLY DEFEATED BY CORNWALLIS AT GUILFORD COURT HOUSE, MARCH 15, 1781.

CORNWALLIS RETIRED TO WILMINGTON, NORTH CAROLINA, AND FINALLY TO VIRGINIA, WHERE HE WAS SKILFULLY HELD AT BAY BY THE MARQUIS DE LAFAYETTE AT THE HEAD OF A FRENCH ARMY. MEANWHILE WASHINGTON WAS THREATENING A LAND ATTACK ON NEW YORK, WHERE GENERAL CLINTON GUARDED THE CITY, WHILE THE FRENCH FLEET, UNDER COUNT DE GRASSE, THREATENED AN ATTACK FROM THE SEA. SO WELL DID THIS FEINT WORK THAT GENERAL CLINTON SENT AN APPEAL TO CORNWALLIS FOR TROOPS TO AID IN THE DEFENSE OF NEW YORK. SUDDENLY THE FRENCH FLEET SAILED AWAY FOR VIRGINIA AND WASHINGTON WITH HIS ARMY MADE FORCED MARCHES TO YORKTOWN. BEFORE CLINTON KNEW WHAT WAS DONE THE FRENCH FLEET AND THE AMERICAN ARMY HELD CORNWALLIS IN A TRAP.

CORNWALLIS NOW BEGGED CLINTON TO COME TO HIS RESCUE WITH SHIPS AND MEN.

THE BRITISH HAD THROWN UP FORTIFICATIONS AT YORK-

TOWN AND GLOUCESTER ON OPPOSITE SIDES OF THE YORK RIVER. THE FRENCH TROOPS UNDER ROCHAMBEAU AND THE AMERICAN TROOPS UNDER WASHINGTON SURROUNDED THE BRITISH WORKS WHILE THE FRENCH FLEET HELD THE ENTRANCE TO THE BAY.

BY THE END OF SEPTEMBER THE SIEGE OF YORKTOWN WAS BEGUN. EVERY DAY THERE WAS AN ADVANCE, AND BRILLIANT ATTACKS WERE MADE UPON THE BRITISH WORKS. THE SITUATION OF CORNWALLIS WAS BECOMING DESPERATE. HIS SHIPS WERE FIRED BY THE FRENCH FLEET, GREAT NUMBERS OF HIS MEN WERE IN HOSPITALS, AND CLINTON HAD NOT ARRIVED. IT WAS NO LONGER POSSIBLE TO HOLD YORKTOWN AND ON OCTOBER 19, 1781, GENERAL CORNWALLIS SURRENDERED.

THESE ARE THE FACTS OF THE FINAL BATTLE FOR THE ESTABLISHMENT OF THIS GLORIOUS REPUBLIC. IS THERE ANY SANE MAN, MUCH LESS A WELL INFORMED SOLDIER, WHO WOULD SAY THAT WITHOUT THE ASSISTANCE OF THE FRENCH BY LAND AND SEA, THERE WOULD HAVE BEEN ANY SURRENDER AT YORKTOWN?

HERE, THEN, IS THE WARRANT BY WHICH THE FRENCH PEOPLE PROVE THEIR RIGHT TO CITIZENSHIP IN THIS REPUBLIC. IF IT BE CHARGED THAT THE FRENCH CITIZENS OF TODAY ARE LESS CHIVALROUS THAN WERE THE MEN WHO FOUGHT WITH WASHINGTON FOR THE INDEPENDENCE OF THE COLONIES, WE WOULD RESPECTFULLY INVITE THE SKEPTIC, AND PARTICULARLY THE CORRESPONDENT OF THE NEW YORK SUN, TO VISIT LOWELL ON JULY 4, WHEN HE WILL HAVE AN OPPORTUNITY TO JUDGE OF OUR FRENCH CITIZENS FROM A MILITARY STANDPOINT IN THE PARADE OF THE FRENCH VOLUNTEER BRIGADE, HELD UNDER THE AUSPICES OF GARDE FRONTENAC OF LOWELL.

## SEEN AND HEARD

To avoid misapprehension it may be well to say that the Wellesley girls on Tree day do not show their ability in climbing trees.

Literary work is all right, but the surest way to make your name a household word is to advertise extensively.

A girl has no objection to having it said that a young man is paying court to her, but the old-fashioned word, "courting," does not please her.

If young people all knew as much as they think they do, old people would have even more reason to feel ashamed than they have now.

Some of the people who eagerly accept every opportunity to sing in public ought to be taught that a loud voice isn't always musical.

The thing now is to get the Pure Food law amended so that it will cover the proceedings in boarding-house kitchens and in restaurants.

When your friend comes in an automobile to visit you, it is not considered good form to ask him when he arrives: "Did you kill anybody on the way up?"

The total abstinence man is embarrassed when he discovers that somebody has worked off on him a Canadian half-dollar. The other man doesn't care, for he knows that he can pass it easily in a saloon.

The average bachelor may not know much baby talk, but he can always be depended upon to talk about the "choo-choo" cars.

A young man has about as much reason to blame the girl who doesn't love him as he has to blame the olives that he doesn't like.

When the women at the sewing circle start a hot discussion and get riled up, it must help a lot if they are making over things.

The pastor of a Chicago church insists on having a regularly fitted up counting room for the young people, with cozy corners, screens, chaperons and lamps that can be turned up or down. He says courtship is essential to happiness and that it is the province of the church to do everything possible for the happiness of its members. What do you know about that?

And now comes Orville W. Peabody, Lowell's heavyweight poundkeeper, asking for an automobile. Somebody tipped Orville off that the heads of departments were all looking for automobiles and "Penb" allowed that if he would improve his chances he would have to get in on the ground floor. He says he doesn't care so much about the automobile for business purposes. He admits that an auto would be a poor thing with which to drive a pig to pound, but he wants to keep even with "Dan." Leary. Dan, it will be remembered, put up a strenuous battle with

Orville for the poundkeeper's office, and despite the fact that Dan was defeated by Orville he has managed to buy an automobile. Orville has got it into his head that Dan bought the machine for the purpose of taking voters to the polls next fall and he's afraid that if he doesn't get a machine Dan will defeat him in the fight for poundkeeper. Another thing Orville has asked for and that is one day off in thirty-day off as is a policeman, and industrial friends of his will put the proposition up to the mayor. A republican alderman who is a bit of a humanitarian has suggested that the poundkeeper should wear a uniform so that pigs, horses, hens and other things subject to imprisonment in the Warren street pound would be given an opportunity to get out of the way on the approach of Orville. The alderman's argument is that the criminal has that opportunity with the policeman, and he believes that the animals subject to arrest by Orville should be given the same chance. Orville says he doesn't want to wear a uniform but he would wear it rather than throw the job up.

## EDITORIAL COMMENT

**EYE AND EAR INSPECTION.**  
Boston Post: As now amended by the legislature the law requiring medical inspection and the examination of the sight and hearing of the children in public schools becomes compulsory on every school committee in the state. It goes farther, we believe, in the care and protection of the children's health than the legislation of any other state.

It is paternalistic of course, but the argument for it is put strongly by Secretary George H. Martin of the state board of education when he says: "The obligation to care for the health of the children rests upon the same legal basis as the obligation to furnish instruction, and the school committees have equal powers in the two kinds of work." The objection is not so much to the idea itself as to the method in centralizing the work. As the school committee is the representative and agent of the state, this obligation is now entirely independent of any action which the town or city may take.

The healthier way would have been that of home rule and home responsibility in continuing this medical inspection as in the first instance dependent on local action, which would have grown to vigorous enforcement.

## PRAISE FOR DRAPER.

New Bedford Standard: Lieutenant-Governor Draper's short term of service as acting governor of this state has made for him political friends and allies of many who had viewed his candidacy for the governorship with indifference, if not distrust. If he will announce that he proposes to administer the affairs of the state next year in the spirit he has manifested while serving in the period of Governor Guild's illness, with especial reference to keeping expenditures down to a reasonable figure, he will receive hearty support where otherwise small enthusiasm would have been manifested. Governor Draper has shown some disposition to protect the taxpayer, which means everybody in the commonwealth, from the extravagance and the recklessness which have dominated the legislatures, and he has exhibited courage and decision which were grateful to contemplate.

## Big Fire at Birmingham Last Night

BIRMINGHAM, Ala., June 18.—Fire which started at the saw mill plant of the Kaul Lumber company at Hollins last night did damage amounting to between \$50,000 and \$60,000. Practically the area was burned over 200,000 feet of lumber were burned. The fire is supposed to have started from a spark from the slab pit. A stiff wind was blowing and the flames spread rapidly.

## KILLED HIMSELF

## Boy Unhappy Because Parents Separated

OAKLAND, June 17.—Unhappy because his father and mother were separated, and he could not find a congenial home with either, Harold H. Hardy, a schoolboy of 14 years and son of a prominent merchant, crept under the oak trees in Cemetery Creek, near Napier street, and ended his life by drinking carbolic acid.

He had been at the home of his grandmother, 2031 Richmond boulevard, all the day, remaining away from school. He read for a while from the "Sea Wolf" by Jack London, and then, fired by the philosophy of the grim sea captain that death is not much worse than an unhappy life, he went to the glade, carrying with him the acid with which he killed himself.

He had taken the poison from a bottle kept by his grandmother, Mrs. W. B. Hardy.

The boy's father, Tracy Hardy, who is the proprietor of a book store at 361 Broadway, was divorced from the boy's mother eight years ago. Both married again, the mother now being Mrs. Herbert Bradford of Evergreen, Santa Clara county. The father and his wife live at 355 Twenty-ninth street.

After the separation of his parents Harold went to live with his paternal grandmother.

## Refuses to Be Candidate for Vice President

CHICAGO, June 18.—The promulgation of a letter from Vice President Fairbanks reiterating his "irrevocable determination" not to again be a candidate for the office he now holds, was the most important development of the day in connection with the vice presidential nomination. The letter was addressed to Mr. Fairbanks' manager, Joseph B. Keating, and the full text follows:

"Indianapolis, Ind., June 16, 1908.  
"My Dear Mr. Keating:—  
"I appreciate fully the compliment paid me by my friends in their insistence that I should accept a re-nomination for vice president yet my determination not to be a candidate again, as announced before the close of the last session of congress, through you, is absolutely irrevocable. My conclusion does not grow out of any want of appreciation of the honor for the vice presidency is an honor which any man may well covet. No one is obliged to step down to it.

"I have enjoyed the great honor which came to me unsought and by the unbidden voice of my party for all of which I am profoundly grateful.  
"This renewed expression of the confidence of my friends touches me most deeply. They need no assurance that I have come to the conclusion I have reached deliberately, and I trust that the personal considerations which I have advanced will commend themselves to their approval. I am, the more confirmed in the wisdom of my conclusion because of the fact that there is no party nor public exigency which would seem to suggest a contrary course.

"Accept for yourself and other friends, my grateful appreciation of your generous, unflinching and loyal support.

"I remain, faithfully, your friend,  
"Charles W. Fairbanks."

A similar letter was written by the vice president to Sen. Hemenway.

The vice president's letter is not different from various expressions made in a less formal manner by him in the past few days, and while it was accepted seriously and he was given full credit for sincerity, it did not have much effect in changing the determination of his admirers to press his nomination in the event of the nomination. Accordingly, after the promulgation of the letter as before that the vice president would, in the end, be called upon to succeed himself. It was confidently asserted that he would not decline a unanimous nomination.

While this is the general sentiment of those who have been supporting the vice president largely outside of Indiana, yet it remains a fact that his close friends who have been managing his campaign for the presidency openly declare that the letter must be accepted as final as definite in removing him from consideration for second place.

W. T. S. BARTLETT

The Up-town Hardware Store.

Lafayette Young, delegate at large from Iowa, yesterday received a telegram from Secretary Loeb, which stated that President Roosevelt had not expressed a desire to see Gov. Cummins' name on the ticket or that of any other particular person. Secretary Loeb's telegram was in response to a telegram from Mr. Young in which the latter asked for an explanation of the president's attitude on the vice presidential nomination. Following is the text of Mr. Loeb's message:

"The president has not expressed any opinion on the vice presidential nomination for the vice presidency and will not more express an opinion against Gov. Cummins than he would against Sen. Dooliver."

Mr. Young, who has heretofore been classed among the opponents of Gov. Cummins said last night that he would do nothing to prevent the latter's nomination. The developments of the day did not materially alter the vice presidential situation and the opinion last night as it was yesterday morning that the nomination will go either to Vice President Fairbanks or Gov. Cummins.

The failure yesterday by New York to caucus on the vice presidency is regarded as practically eliminating that state from the contest. New York was in a position where if her delegation could get together on the proposition they could have named the candidate but they could not get together. Friends of Mr. Sherman appear to be in a strong majority in the delegation, but they seem unable to make it unanimous. There were some of the delegation still for Secretary Cortelyou, others talked of State Chairman Woodruff and there was mention in the strictly Hughes portion of the delegation of the name of General Stewart L. Woodford, who is expected to place the name of Gov. Hughes before the convention.

The only possibility of New York getting the second place on the ticket lay in an unanimous movement for some man. The last possibility of such unanimity apparently vanished yesterday and Chairman Woodruff announced that the delegation would not caucus at all.

It was said yesterday that a telegram to Edward Gilmer, who is regarded as Gov. Guild's personal representative in the Massachusetts delegation, expressed the governor's intention to stand by his vice presidential boom until the end of the line. The lines having been drawn substantially between east and west in the situation, and New York being practically out of it, it became an interesting question whether the east could rally also support from west and south. In this connection, the names of Gov. Guild and Ex-Governor Murphy of New Jersey, were most frequently mentioned.

The tendency of the day, however, was plainly toward the selection of a western man, and the names in the forefront last night were those of Fairbanks, of Indiana, and Cummins of Iowa, with Fairbanks in the lead.

The California delegation in executive session yesterday decided unanimously to cast its vote for George A. Knight, of San Francisco, for vice president. Other western states are expected to line up for Mr. Knight. The Californians also count upon the support of a number of southern delegates for Mr. Knight in return for the vote of that state yesterday in opposition to the Burke resolution.

Calmest, Billerica, tomorrow night.

### BIG LAWN PARTY

On New Branch Street

Church Lot

A lawn party under the auspices of the Men's League of the Branch Street Tabernacle was held on the Flint lot at the corner of South Hastings and Liberty streets, last night. The place was aglow with incandescent lights arranged for the occasion. There was a band concert by the Chelmsford brass band from 7:30 until 10:30. Light beverages, ice cream and other nice things were on tap and on sale at tables and booths, all of which were ice cream and Moxie he could go into the mystery booth and find out what the matter was with him. The mystery booth was in charge of Walter Clement, assisted by Mrs. Mary Morse, Ruth Clement, Ruth Bowen, Jessie Clement, Martha Lewis and Hazel Sargent.

The ice cream booth was in charge of Justin Dows assisted by Chester Dows and Milo Dudley. The candy booth was in charge of Albert Phinney assisted by Mrs. F. B. Hill and Mrs. M. L. Duncan. The beverage table was in charge of Richard Gumb who was assisted by Mrs. Q. A. Foster, Miss Eva Hanson, T. A. Laporte and Harry Bowen. The big Moxie wagon was looked after by Mr. Bowen.

The general committee of the party was as follows: A. H. Maxcy, chairman; Richard Gumb, treasurer; Winfred Gumb, secretary; Rev. Asa Reed Ditts, James Overton, Chester Dows and George Hill.

### BARN BURNED

WOBURN FIRE STARTED BY SPARK FROM LOCOMOTIVE.

WOBURN, June 18.—Fire was discovered at 3:30 yesterday afternoon in a barn at 74 Winn street, owned by Mrs. Marcellus Littlefield and occupied by Harry W. Snow, fish dealer. When the department arrived the barns had full possession of the interior, which was gutted. Mr. Snow lost a horse, a delivery wagon, two pungs, harnesses and stock of grain. He estimates his loss at \$400, upon which he had no insurance.

The barn is damaged to the amount of \$3000, fully covered by insurance. It is thought the fire was caused by a spark from a locomotive.

### THE FULL BENCH

Finds That the Trial Judge Erred

BOSTON, June 18.—Holding that the language of the trial judge overstepped the bounds of propriety in attempting to have the jury, which had been out 29 hours, reach a verdict, the full bench of the supreme court yesterday sustained the defendant's exceptions in the suit of the Highland Foundry company vs. the New York, New Haven & Hartford Railroad company, and a verdict for \$12,133 in favor of the plaintiff is set aside.

The suit was for damages for injury to a building in Roxbury in 1893 from sparks from the defendant's locomotive. The jury had been out a part of a day and all through the night, when they were told not only that they could decide the case as well as anybody else can, but also:

"To say that you cannot decide this case is to say that another jury of 12 men cannot do it; and justice will be done in the end if that is so, you understand. Therefore, it is almost a necessity that you should come to some reasonable conclusion upon this case. And of course in coming to that conclusion, it is a give and take argument that you make, necessarily. You are not to report to me when you come to the court, and to the court, 12 individual verdicts. You are to give a verdict which, on the principle of give and take, represents the consensus verdict of you as a unit—as a body of men."

The jury agreed in 15 minutes. Taking into consideration all the trial judge said, the court holds that it put pressure on too hard, and fails to make sufficiently prominent the idea that, after all, the verdict should be the conscientious verdict of each juror. It adds that the ordinary juror may have been led to believe from the language that he was justified in making some kind of a compromise between his own conscientious convictions and those of his fellows.

It further adds that it does not entertain the idea that it was the intention of the trial judge to impress the jurors with any such thought, but that he failed to realize the full force of his extemporaneous words and the interpretation likely to be given to them by a weary jury.

### FATAL INJURIES

MAN KILL UNDER WHEELS OF HIS OWN WAGON.

BOSTON, June 18.—Ludwig Huprich, aged 68, of 139 Lamartine street, Roxbury, a prominent expressman, was fatally injured yesterday forenoon by being run over by the wheels of one of his wagons. He died at his home a few hours later.

While Huprich, accompanied by Julius Walter of 188 Boylston street, Jamaica Plain, was driving through Walnut street a boy threw a monkey cracker at the horse's head. The frightened animal started to bolt. As it lurched forward Huprich lost his balance and fell beneath the wagon. The forward wheel passed over his chest, breaking the breast bone, five ribs and injuring him internally.

Walter brought the horse to a stop before it had gone far and returned to assist Huprich, who was unconscious. Walter placed him in the rear of the wagon and drove home, where Huprich died three hours later.

### WESTFORD

Thieves attempted to enter the barn of A. H. Burnham in Westford Tuesday at midnight. A burglar alarm which was recently installed by Mr. Burnham aroused the family. A search of the premises was made, but the thieves were gone. That an attempt was made to enter the barn was evident for there were several chisel marks on the door.

### EDUCATIONAL CLUB MEETING

The Educational club held a very pleasant meeting Tuesday afternoon. Mrs. A. C. Huston told an interesting story of a recent trip to Washington and Mrs. Mary Semple told of a visit she made to the capital city in the '80s. ### LADIES' DAY

AT THE VESPER-COUNTRY CLUB TODAY.

This is ladies' day at the Vesper-Country club and a very elaborate program has been arranged including an exhibition tennis match between Lauren H. Burleigh will give a concert at the Country club and the program as arranged is especially attractive.

### BRIGHT OUTLOOK

FOR THE COUNTRY SAYS JAMES VAN CLEAVE.

Regardless altogether of the causes of the money scare of last October and November, and of the industrial reverse which came to this country as a consequence, these conditions were aggravated by the program of vicious legislation which was put forward by the leaders of the labor unions. Their demand for laws in the special interest of their very small element of the population was a serious menace to industry and business of all sorts. By setting up a favored order in the community—the members of the labor unions—this legislation would encourage the members of that order into the display of an arrogance toward their employers which would disturb every great activity, would destroy all hope of the revival of financial confidence this year, and which would give a calamitous setback to the country's trade. The circumstance that the country was on the eve of a canvass which would elect a president, a house of representatives and legislatures which would choose a third of the members of the senate, gave the union chiefs a particularly powerful momentum for their crusade. The leading provisions of their destructive program were registered in their anti-injunction bill and in the projected amendment to the Sherman Law. By the former measure they proposed to abolish a peculiarly useful weapon of the courts which had been in operation in England and the United States for centuries, and which has deterred vast injury to persons and property. By their Sherman Law amendment they assailed the United States supreme court for declaring that the American Federation of Labor was a trust in the plain meaning of the Sherman Act, and because the court set forth that the labor trust was amenable to all the penalties of that statute, just like the industrial, the commercial and all the other sorts of trusts.

The outlook for the country is bright. All the threatened destructive legislation is defeated. Much constructive legislation of a high value, including a measure for emergency currency, has been enacted. If the present dominant party carries the country in 1908 we shall, in an extra session of congress next spring, have an adjustment of the tariff which will bring the schedules down to date and remove the shackles from every industry. Financial confidence is returning. All the indications say that a new era of prosperity will soon open for the country.

### CO. G ASSOCIATES

Held 37th Annual Reunion at Canobie

The 37th annual reunion of the Old Company G Associates was held yesterday at Canobie Lake park. Heretofore the reunions have been held during the winter months and yesterday's outing was an innovation, but the change so delighted the members that it was decided to hold the reunions in June hereafter.

There were 23 members present, representing 43 of the old company known to be living. There were 56 originally and of that number 46 are known to be dead and seven are unknown.

An excellent dinner was served at three o'clock with President Franklin S. Pevey at the head of the table. Chaplain Lefebvre offered blessing after which a business meeting was held and the old officers were re-elected as follows: President, Franklin S. Pevey; vice president, Manlius Knowles; secretary, William H. Spaulding; treasurer, Andrew Liddell; executive committee, William H. Richardson, Charles B. Kitchin, Charles M. Farrington, James Christie and Albert T. Green. Reports were read by the secretary and treasurer. The secretary reported that two members had died since the last reunion, Amos S. George, who died at Togus, Me., and Lucas I. McMaster, who died at Chelsea.

Letters were read from absent comrades, including Frank Boucher, Troy, N.H.; William E. Elizabeth, N. J.; W. D. Atkins, Durand, Wis.; J. A. Christie, Lowell; A. T. Green, Lowell; T. A. McMaster, Portland, Me.; Chas. H. Farrington, Oakland, Cal.; F. M. Spaulding, East Auburn, Cal.; Charles Spencer, Newport News, Va.

Speeches were then in order, remarks being made by Comrades Pevey, Liddell, Lefebvre, Sears, Stackpole and Cady. Taps was blown by Comrade Tarbell for the two members who have died during the present year.

Among those present were: Capt. George L. Cady of Lowell; Corp. A. C. Grant, Exeter, N. H.; Corp. Geo. F. Tarbell, East Pepperell; Corp. Franklin S. Pevey, Lowell; Corp. Henry C. Hutchinson, Lowell; Wagoner William B. Thigley, Providence, R. I.; Privates John M. Averill, Boston; Charles H. Bassett, Hudson, N. H.; William P. Farrington, Lowell; Geo. Healy, Newark, N. H.; Geo. McMeekin, Boston; William A. Morris, York, Pa.; Chas. H. Richardson, Lowell; Joseph H. Sears, Chelsea; W. H. Spaulding, Lowell; Albert S. Stackpole, West Lebanon, Me.; Samuel E. ### "Good Riddance," Says Anty Drudge.

Mrs. Don't know—"Oh, dear! Oh, dear! What shall I do? Here I am with the biggest washing for months, and there is a great big rust hole in the bottom of my washboiler."

"Anty Drudge—"It's just the best thing that ever happened for you. Just throw the washboiler away or make an ash can of it, and wash with this cake of Fels-Naptha soap I've brought you. Use it in cold or lukewarm water, as easy directions on inside of wrapper tell you, and you'll never want a washboiler about the place again."

You are always ready to use Fels-Naptha soap. That is a great advantage.

Say you want to wash a few white things on a hot day. You don't build a hot fire and make the house like an oven to heat water.

With Fels-Naptha you just get a bowl of cold water and wash the things.

It's so simple, so easy. No boiling of clothes; no steam, no nauseous odor.

Same way if you want to remove an accidental grease spot from the floor or wash a window marked by sticky fingers. When there's cold water near, Fels-Naptha is always ready.

You'll appreciate this readiness on wash-day. No washboilers and stirring paddles to bother with, no hot fire to keep up, no danger of scalding your hands.

Likewise in washing dishes. Fels-Naptha will cut the grease in cold or lukewarm water, no matter how long they have stood before washing. And there's no heat to crack delicate china or glassware.

Follow directions on the red and green wrapper.

### THE LOWELL SUN THURSDAY JUNE 18 1908

## FROM PINE CAMP

## Military Notes by Sun Correspondent

The Sun correspondent at Pine Plains, N. Y., writes the following correspondence from the camp, dealing with the work of the Lowell men:

PINE CAMP, N. Y., June 16, 1908.  
The three Lowell Companies, C, G and K are now comfortably ensconced in camp at Pine Plains, N. Y., and have straightened out their equipment after the tornado shock in which Corp. Carlson was injured. That seemed to come as a sort of ambush for which the companies were wholly unprepared.

The train carrying the three Lowell companies together with a Pullman baggage and cattle car which left Lowell at 4:30 Saturday, arrived at their first stop, Ayer Junction about 5 o'clock. After remaining at Ayer until 6 o'clock waiting for Co. L of Boston, the train again started on its journey. The next stop was made at Fitchburg where rations were served for the men and after a delay of about twenty minutes the journey was again taken up. Stops were made at Baldwinsville, Millers Falls, Athol, and Greenfield. During the journey Corp. McLaughlin entertained the company with selections on the ocarina, and Tommy Boudreau, the well known comedian of Co. C, also furnished much amusement for the men during the trip. One of the most beautiful scenes on the trip was in the Berkshires Hills just before entering the Hoosac tunnel. In a deep valley on the edge of a brook was noticed the ruins of an old wooden mill which had been burned down several years ago. A great many of the men were anxious to get a glimpse of the Hoosac tunnel but it was quite late when the train reached this spot it was impossible to see much of the tunnel. The tunnel is 4 1/2 miles long and it took the train exactly ten minutes to pass through. The next stop was made at North Adams, Mass., where quite a crowd of people turned out to see the soldiers boys. Many of the men managed to gain a few hours' sleep during the night but most of them remained wide awake. At 6 o'clock Sunday morning the train pulled into Lowell, N. Y. After a short wait the train continued on its journey and did not stop again until 4:30 when the troops arrived at their destination at Pine Plains. The Sixth regiment after disembarking marched a distance of 2 1/2 miles through brush and sand to their location on the camp grounds. The men were certainly a tired lot after their long and tedious journey on the train, but they were certainly appreciated by the men who they are a vast improvement over the old mattresses.

Doyle and Mottrum.

## STANDS BY COURTS ON FIRST BALLOT WESTFORD STREET

### Resolutions Committee Acts on the Injunction Plank

CHICAGO, June 18.—The biggest problem before the resolutions committee of the republican convention—that of the proposed plank in the platform dealing with the question of the use of court injunctions in labor controversies—was disposed of at 2 a. m. today when by a vote of 35 to 16 with two states (South Carolina and Louisiana) not represented the full committee agreed to the plank. It was predicted after the vote that there would be no fight on the matter on the floor of the convention when the full report of the committee was made today.

The full committee adopted the separate statehood plank for Arizona and New Mexico, thus reversing the sub-committee's action.

At 2:30 a. m. the committee adjourned. The meeting of the full committee on resolutions was held in the "Francis First" room of the Auditorium hotel annex at Michigan avenue and Congress street and began at 10 o'clock last night.

It was supposed to be strictly "executive and secret" and the bulk of the discussion was carried on in comparatively low tones inaudible a few feet beyond the outside of the group of committeemen but when the much discussed plank relating to the limitation of court injunction orders, especially in labor controversies, was reached, the intensity of feeling which has marked all debates on this subject since the convention began was evidenced in raised voices and earnest discussion and attempts at secrecy were forgotten. At the same time the debate never reached the point of personal heat or exchange of invective.

The injunction plank was reported in the full committee a few minutes after 10 p. m. with Committeeman McCarter of New Jersey opening the fight against its adoption. Mr. McCarter, whose resonant tones filled the hall, declared that such a plank would be a reflection upon the integrity of the court and was entirely unnecessary. He asked those in favor of it to show a single instance where the power by denunciations of the stand and demands of the labor people. Mr. McCarter's remarks occupied nearly fifteen minutes and during that time the committee sat apparently unmoved and there was no response in the way of applause or audible dissent as he concluded.

Senator Long of Kansas then took the cudgels in behalf of the plank and was very emphatic in his remarks. He said that the wording of the plank while not so radical as was proposed by Mr. Gompers and several of the labor leaders, was nevertheless not a dodge or straddle but a step forward by the republican party. He declared that an issue confronted the party and that there would be universal criticism if something was not done. He agreed that while the issuance of injunctions by the courts was as a rule in strict conformity with the laws as they appear on the statute books, the plank proposed by the committee would serve to make the general practice a universal practice throughout the country.

Representative Serrin E. Paine of New York who is chairman of the committee on ways and means in the house of representatives, came out strongly in favor of the proposed plank. Mr. Paine said that the party was able to nominate a man who believed in such a measure and that he had declared himself in his speeches of the last two years and especially in his recent one in Cooper Union in New York city as strongly in favor of such action by congress. Mr. Paine dwelt at considerable length on the attitude of Mr. Taft in this connection and said that while he himself had been pledged to vote for Gov. Hughes for the presidential nomination he had no doubt but that the Ohio candidate would be the choice of the convention. He believed that the adoption of this plank in the republican platform would insure Mr. Taft's election.

Frank B. Kellogg of Minnesota followed with an equally spirited and vehement speech in support of the plank.

Wade H. Ellis of Ohio surprised his hearers by quoting a telegram from President Roosevelt and a letter and a telegram from Secretary Taft. The president in his message first called attention to a telegram sent on the previous day in support of the injunction plank, and then he said: "I hope very much" the telegram continued, "that it will be adopted." The president said he stood for the "square deal" and was not in accord with the extreme views of either the manufacturers' association on the one hand or the labor unionists on the other.

Secretary Taft's communication stating his position on this question was announced two years ago before he became a candidate. He favored a plank which would make impossible the radical use of the injunction but would continue its conservative benefits. The plank was supported also by D. Lawrence Grover of Virginia, H. Remmel of

Arkansas and H. O. Burson of New Mexico. Mr. McCarter of New Jersey, William A. Drake of Colorado, B. F. O'Neill of Idaho, and Allen M. Fletcher of Vermont spoke in opposition to the plank but shortly before 2 o'clock it became evident that the patience of all hands was becoming exhausted, and when the proposition to bring the question to a vote was made it received unanimous support.

The method of taking the vote occasioned a brief discussion, some of the members of the committee desiring a simple division without record of individual votes. This was met by cries of "No, no." "Roll call, roll call," an done committeeman said: "There is no harm in going on record on this question for the vote will never be made public."

All hands seemed to take this comfortable assurance for granted, and the roll call by states was begun. The actual test vote was taken on a motion of Mr. Carter to eliminate the references to the courts from the text of the plank. Owing to the confusion of excited conversation shuffling of chairs and weary committeemen stretching into comfortable attitudes after the long session the first vote, that of J. H. Montgomery of Alabama, was not heard. The chairman, Senator Hopkins, rapped loudly for order but still there was continued confusion especially because some were in doubt as to the precise question upon which the committee was to vote. Chairman Hopkins explained the situation and the clerk began the roll call. Mr. Montgomery of Alabama voted "no." He was followed by H. M. Remmel of Arkansas, also in his negative, but Henry Melvin of California and William A. Drake of Colorado voted "yes." Then came Connecticut, Delaware, Florida and Georgia in the negative from that time on the opponents to the plank gained steadily until at the end the vote stood 35 to 16.

This roll call settled the question of the injunction plank in the platform and without further division the report of the sub-committee was accepted.

Under the rule of secrecy adopted by the committee the official record of the vote was not obtainable but the division is said to have been as follows:

For the injunction plank—Montgomery of Alabama, Remmel of Arkansas, Ullman of Connecticut, Dupont of Delaware, Chubb of Florida, Johnson of Georgia, Hopkins of Illinois, Hemenway of Indiana, Long of Kansas, Bullitt of Kentucky, Maco of Maryland, Crane of Massachusetts, Kellogg of Minnesota, Yellowley of Mississippi, Wagner of Missouri, Field of Nebraska, Paine of New York, Adams of North Carolina, LeMoure of North Dakota, Evans of Tennessee, Ellis of Ohio, Harris of Oklahoma, Dalzell of Pennsylvania, Dixon of Rhode Island, Crawford of South Dakota, Ogden of Texas, Grover of Virginia, Hallinger of Washington, Cooper of Wisconsin, Clark of Wyoming, Sloan of Alaska, Flather of Arizona, Burson of New Mexico and the Philippines and Porto Rico, committeeman.

Against the plank—Melvin of California, Drake of Colorado, O'Neill of Idaho, Lacey of Iowa, Dunn of Maine, Fordney of Michigan, Bennett of Montana, Nixon of Nevada, Moses of New Hampshire, McCarter of New Jersey, Selbridge of Oregon, Sutherland of Utah, Fletcher of Vermont, Mann of West Virginia and the committeemen from the district of Columbia and Hawaii.

Louisiana and South Carolina were not recorded.

### To Be Paved With Hassam Pavement Says Supt. Morse

Despite the fact that the \$13,000 loan for smooth pave Westford street was defeated in the common council, Westford street will be paved just the same and with Hassam pavement, too.

The superintendent of streets says that he will do the job out of his regular appropriation. He says that the street will have to be paved anyway and that now, when so many men are idle, is the time to do it. It will mean the depletion of Mr. Morse's appropriation for streets.

There's a possibility that other streets may be neglected. Rumor has it that the order to pave Westford street was defeated in the common council not because those who voted against it thought it was wrong, but because of some holdover grievance from last year when the proposition to smooth pave Westford street was being talked over.

It is a rather unusual procedure for the superintendent of streets to ignore the city council and go ahead with a job that an order for which had been defeated, but Mr. Morse says he knows where he's at.

## JUSTICE BREWER

### Makes Vigorous Defense of the Injunction Power

WORCESTER, June 18.—Without referring directly to the possible action to the republican national convention at Chicago on the proposed plank in the platform concerning the issuance of injunctions by the courts, Associated Justice D. J. Brewer of the U. S. supreme court made a vigorous defense of the courts and the injunction power in the course of an address at the commencement exercises at Clark college today. Justice Brewer said in part:

"There never was a time in the history of the nation when the full re-

straining power of the equity court was of so much importance to the nation. The restraining power of the equity court is wished vastly more than the punishing power of the criminal court. I know that labor organizations are especially energetic in claiming that the power of injunction is used mainly against them. Of course this is not true. The restraining power of the court of equity should be enlarged and not diminished and the judiciary improved until all people will be assured that the power is only used when necessity requires and restraint imposed only when justice demands."

## HARVARD WINS

In First Game With the Yale Nine

CAMBRIDGE, June 18.—Harvard and Yale met on Soldiers field today for the first of the annual series of baseball games between the two universities. Neither team as had a very successful season but both times have shown improvement over the earlier games and the followers of both were confident of victory. Harvard's nine is practically a veteran team, while Yale has several new players in the lineup.

Yale was without the service of Van Vleet, the team's best pitcher, today, he having played in the games on Saturday and Tuesday and Howard Jones was announced as the pitcher to face Harvard. The crimson had Hartford in the box and on the strength of his no-hit game against Cornell much was expected of him.

As announced before the game the lineups were as follows:

HARVARD	YALE
Leonard, 3b	C. T. Jones
McCall, 2b	R. Dimes
Harvey, cf	M. Murphy
Aranson, rf	Sh. Williams
Lanigan, lf	rt. Wheaton
Currier, c	cf. Clifford
Symons, ss	p. H. Jones
Harding, 1b	1b. Phillips
Harford, p	ss. Fels

The game resulted in a victory for Harvard by the score of 5 to 1.

# TO RESUME WORK

## New England Mills to Start Up on Full Time

Half a million people in New England will be affected if the optimistic prediction of Agent Henry P. Straw of the Amoskeag mills of Manchester, N. H., which will go on full time this week, comes true.

He declares it his opinion that the section of the Amoskeag mills, the greatest in the east, if not in the country, will be followed by all the other cotton manufacturers of New England, and intimates that the business conditions ought soon to warrant the restoring of the old wage schedules.

This would mean something like \$1-000,000 more weekly for the mill workers of New England to spend in the stores of that section. It means not only prosperity for the half a million mill workers and members of their families, but prosperity for the hundreds of merchants in Manchester, Nashua, Lowell, Lawrence, Fall River, New Bedford, Pawtucket, Lewiston, Adams and the scores of other New England cities, towns and villages where cotton manufacturing is the chief industry.

MANCHESTER, N. H., June 18.—"The Amoskeag mills will go on a full time schedule this week with 15,000 operatives, because the corporation believes that business conditions are now such that it will be able to dispose of its output. I cannot speak authoritatively for the other great cotton mills, but if I may venture an opinion, I should say that they will do the same as the Amoskeag Manufacturing company."

This statement was made to a reporter yesterday afternoon by Henry P. Straw, agent of the Amoskeag mills, during an interview in which he admitted it was the first time in his business career that he had broken his rule of never talking of business affairs for publication.

One-quarter of the total population of the city of Manchester will be affected by the resuming of a full time schedule. The weekly payroll of the corporation will be increased over \$30,000. Every man, woman and child in Manchester will have 50 cents per week more to spend.

After six weeks of running on two-thirds time, following a cut of 10 per cent three months ago, it will mean that hundreds of families on the verge of starvation will now be able to purchase more than the bare necessities of life.

But Mr. Straw not only prophesied the living of the great cotton industry, he intimated that it is very probable the wage schedules may be restored to where they were before the recent cut of from 10 to 17 per cent by the different companies.

Half a million people in New England will be affected if the other textile industries follow the lead of the Amoskeag mills, and it will mean an increase of nearly a million dollars weekly in the wages paid to the mill workers.

Mr. Straw was preparing to drive from the first tee at the Intervale Country club golf course when he was found yesterday by a reporter.

"The full time schedule will not begin to affect the operatives until Friday, so I am enjoying a little relaxation," said he with a smile to the newspaper man, as he took a handful of damp sand from the box and started to build his tee.

"What, in your opinion, has brought about such business conditions that the Amoskeag mills are able to go on

full schedule?" asked the reporter.

"I cannot speak authoritatively for the other great cotton mills, but if I may venture an opinion I should say that they will do the same as the Amoskeag Manufacturing company. It simply means that the general business of the country is now in such a prosperous condition that we will be able to dispose of all the cotton we can manufacture."

## LOOKED PRETTY

And Drew Salary of \$15 a Week

NEW YORK, June 18.—It isn't unusual for a young woman to make \$15 a week as a stenographer, but it isn't often that one makes that amount for merely sitting around and looking pretty—with a private office, to sit in at that.

Such, it is alleged, was the happy employment of Miss E. Bennett of 601 West One Hundred and Thirty-fifth street, who, until recently, worked for the Connolly Fruit Auction company, whose offices are on Pier 7, North River. Hugh Connolly, a wealthy commission merchant, is head of the company.

Santi Amoroso, a former member of the firm, is suing for commission to the amount of about \$10,000.

Yesterday Mr. Amoroso's motion to have the books of the company produced was heard by Judge Blanchard in the supreme court. His deposition said in part:

"Deponent says he believes the books will show that certain expenses have been charged against the profits of the company, which should properly be charged against said Connolly, to wit: 'Particularly the salary of one Miss Bennett, more familiarly known as 'Bean,' a young woman appearing to be about 23 years of age, who was placed in the office by Mr. Connolly, with instructions that she was to draw \$15 a week, but who performed no service for deponent, or for J. M. Fanning, also of the firm, so far as office work was concerned, but occupied such small portion of the time she was there in sitting in the private office constructed for her by Connolly, sewing when not otherwise engaged in chatting with Mr. Connolly, which occupied about four hours of the day, without being a benefit to the business, but on the other hand a great detriment.'"

Mr. Amoroso states further that when he went to Pittsburgh for the company in February he met Connolly and a young woman on the train, and returned with them.

## HEADLESS BODY

Was Picked Up on the Beach

BOSTON, June 18.—An unidentified, headless body of a man in the uniform of a United States soldier was found on the beach at Spectacle Island late yesterday afternoon by the lighthouse keeper. The body was that of a man about 30 years old, 5 feet 9 inches in height and weighed about 170 pounds.

It is thought that the head was separated from the body by the paddle wheel or propeller of a steamer, or by the action of the water, as the body had evidently been for months in the water. Both hands were also missing. The corpse was brought to Boston by the patrol boat Watchman and removed to the North Grove street morgue.

From information obtained from the commanding officer at Fort Revere, Hull, last night, the body may possibly be that of Private Walter F. Doherty, 27, who has been missing since Jan. 20. He was returning at night from Boston in the small government tender used at the fort, and while attempting to leap to the deck while the boat was in motion, fell overboard and was drowned.

Another missing regular is William Brown, a coast artillery man, stationed at Fort Andrews, Hull. He was drowned the same day as Doherty off Peabody's Island.

REQUIEM MASS FOR REPOSE OF SOUL OF LATE BISHOP DELANEY.

A solemn requiem mass in memory of the Rt. Rev. John Bernard Delaney, second bishop of Manchester, was celebrated at St. Joseph's cathedral, Manchester, yesterday morning at 8.30 o'clock.

The celebrant of the mass was the Rev. Thomas M. O'Leary, chaplain of the diocese, and he was assisted by the Rev. Williamweeney as deacon, and the Rev. John J. Murphy as sub-deacon. The Rev. John A. Casey officiated as master of ceremonies.

Bishop Guerin occupied the episcopal throne, and at the close of the mass gave the absolution.

The church was well filled with the faithful of the city, representing the different parishes. Bishop Delaney's relatives of this city and Boston were present.

LAURENT REVEL.

## GLOBE TROTTER

Laurent Revel Reached Town Yesterday

IS ACCOMPANIED BY BIG DOG

He Tells Many Tales of His Adventures

Telling about kings and princes isn't easy work, and even Rudyard Kipling, who is acknowledged to have had large experience, had to admit when he wrote "The Man Who Would Be King," that he had never known a king who was carrying his crown around on his placid white brow, and knew but two men who became kings by their own confession, but they paid dearly for it.

A fellow who struck Lowell yesterday has it all over our friend Rudyard on the king question. That man is Laurent Revel of Paris and he's a bona fide globe trotter of the first water and if you don't believe it, ask him. He has taken one run around the world and he's at it again. The only thing to mar the romance of Revel's walks and talks is the fact that he is walking for money and it's the day's best bet that he won't get it. Now, if Laurent Revel of Paris should connect with the \$50,000 for which he is wearing out his shoe leather, and sit down in some quiet cozy corner in the Latin quarter of Paris, and reel off stories about kings, dukes, earls, chiefs, sheiks and others he will make Mr. Kipling step into the British museum and brush up on antiquated king-ly genealogy.

Revel carries with him the signatures of 50,000 persons of nobility and command. He called on President Roosevelt and in the globe trotter's book of signatures and comments, the president of these great United States wrote above his signature the following words: "Good luck to you on your second trip around the world. We allow that that's going some. It was in November of last year that our friend Teddy wished the weary wanderer luck upon his trip.

Revel has travelled once around the

world taking him ten years to do it. Included in the 50,000 signatures which he has in his possession are those of prominent men of South American republics, emperors, kings, princes, lieutenants and others.

He left Paris with a companion eleven years ago on a trip that should not consume more than ten years. His companion was killed by highwaymen near San Francisco, Cal., and Revel, after various escapades including a few revolutions in South America, mingling with all the races of the earth and performing astonishing stunts arrived in Buenos Ayres on time.

Revel and his companion were to receive \$20,000 each if they performed the feat of walking around the world in the prescribed time, but when Revel returned to Paris some one there said he hadn't crossed Australia, and had merely left his card with the gentleman who live on the border of Morocco. It was finally decided that if he would saunter about the world for two and a half years more he could not only have his \$20,000 but the \$30,000 promised his companion who was killed.

He left Paris last May and landed here yesterday afternoon. He didn't walk across the ocean, however, as the elapsed time might make it appear. He is stopping at the New Merrimack house.

Mr. Revel is a square shouldered, well built man who looks as if he might not be afraid to tackle a bear. Whether it be in Pelham, Louisiana, Alaska or Wall street. He wears a hair long which is about the only impression given that he is an artist—he was eleven years ago, and still decorates post cards, which he sells to help him on his way. He has long hair and plenty of it, a small bristly moustache and would be apt to frighten any ordinary Arab. He looks as if he could take care of himself in the best bush society of Australia, or the friendly shelter of a date palm with Bedouins circling about thirsting for gore.

He expects to get through, however, and to live to tell the little gamblers of Paris all about it. He may write a book about "Kings I have met; Princes I have snubbed."

Revel is accompanied by a beautiful dog of formidable proportions that was given him in Norway. The dog weighs about 150 pounds and is peculiarly and unusually devoted to his master. If you see Revel you'll see his dog. They are inseparable and it's a sure case of "love me, love my dog."

Once when attacked by thugs in New York city the big dog from Norway fought side by side with his master and between them they managed to take two of their assailants to a police station where it was decided that the thugs had suffered enough at the hands of Revel and the tugs of his companion.

## MATRIMONIAL

At the First Baptist church, South Chelmsford Tuesday afternoon Mr. John Bryant Emerson, son of Mr. and Mrs. Henry H. Emerson, and Pessie Avery Kennedy, eldest daughter of Mr. and Mrs. Fred E. Kennedy were united in marriage by Rev. Charles W. Williams of North Middleboro, a former pastor of the church.

The church was prettily decorated and just before the bridal party entered, Miss Carolyn R. Nourse, of Barnstable, a classmate of the bride gave selections from Lohengrin, on the organ and Miss Rose Flaherty sang "O Promise Me" and "Perfect Love." Rev. Mr. Williams was assisted by Rev. Mr. Wells, pastor of the church. The bride was attended by Miss Florence M. and Miss Alice M. Kennedy, sisters of the bride, who were most becomingly dressed in princess gowns of white silk mull with large picture hats trimmed with large wreaths of daisies and shower bouquets, also of daisies. The ring-bearer was Master Gerald M. Kennedy, a small brother of the bride, dressed all in white and carrying the rings on a daisy-covered plate. He was accompanied by his cousin, Miss Beatrice E. Blum, a little miss of five years, who acted as flower girl and was attired in an embroidered muslin gown and carried a large basket of daisies. The maid of honor, Miss Harriett M. Emerson, sister of the groom wore a yellow gown of silk grenadine with Charlotte Corday hat and also carried daisies. The bride was attired in a beautiful gown of ivory satin mesh-line trimmed with princess lace and long tulle veil caught up with a sunburst of diamonds and pearls, the gift of the groom, and carried a shower bouquet of white sweet peas.

The best man was Mr. Arnold C. Perham of Chelmsford and the ushers were Messrs. Ralph W. Emerson of Chelmsford, Arthur C. Wilson of Westford, Herbert C. Ober of Cambridge and Forrest A. Richardson of Pelham, N. H.

A reception was held immediately after the ceremony, when Mr. and Mrs. Emerson were assisted in receiving by Mr. and Mrs. Fred Kennedy and Mr. and Mrs. Henry Emerson, parents of the newly wedded couple. Mrs. Emerson has been a very successful teacher, the last two years, teaching in the McKinley school in Revere, while Mr. Emerson is senior member of the firm of Emerson & Metcalf. About 5 o'clock Mr. and Mrs. Emerson left among a shower of good wishes for a three weeks' trip, and before the return will visit the bride's early home in Lubec, Maine. They will occupy the pretty home in Maple avenue which Mr. Emerson recently purchased and put in perfect order for his bride, and will be at home to their many friends after August 1. They were the recipients of many beautiful gifts.

## READ THIS

"It is astonishing," remarked a well known authority on Diseases of the Skin, "how such a large number of people, especially ladies, are by attractively written advertisements, induced to purchase some one of the many so-called Beauty Creams now on the market, not knowing of course that they mostly contain oily or greasy substances that clog the pores of the skin and are for that reason the very worst thing that they could possibly use. My treatment of all Pimples, Eruptions, blotches and all eruptions of the skin, are as follows and has invariably proved very successful. Wash the face carefully every night before retiring with warm water and a little oatmeal tied up in a small cloth bag, then after drying well, use the following inexpensive and perfectly harmless prescription which can be tried at any drug store: Glycerin, 1 oz. Ether, 1 oz. Alcohol 7 oz. Use this mixture on the face as often as possible during the day, but use night and morning only. Allowing it to remain on the face at least ten minutes, then the powder may be wiped off. Do not wash the face for some little time after using. By following this simple treatment, you will soon have a clear and brilliant complexion."

## BLUE THE SUIT FOR SUMMER

A Most Surprising Sale of Blues-Blues

MOST every day we ask if Lowell has gone blue mad. Seems as if we were selling a blue suit to most every man in town. We believe we get the best response for our advertising known. We most carefully advertise our items; we are extremely careful not to exaggerate or misstate. We believe what we write and naturally expect the reader to believe. One thing sure, business has been good all the spring here. We'll admit we have pushed harder and given greater values, but results are the best.

3192

BLUE

3192

What is 3192? We'll tell you—3192 is the style number of the American Woolen Co.'s Blue Serge usually sold at \$15. When we decided we should do the Blue Serge business of the city, we looked for the best and most popular blue. ## IN POLICE COURT

Many Strangers Before Judge Hadley

Today was visitors day in police court. The session lasted less than ten minutes and the majority of the offenders hailed from out of town.

Joseph Chartier, who came to this city from Canada last Saturday, was arrested in Merrimack square yesterday by Patrolman William G. Bumps. The arresting officer testified that Chartier had been drunk in the square for a couple of days. The court gave Joseph a little lecture on the way he should act when in the United States and owing to his condition decided that 14 days in jail would do him a great deal of good.

George Kavanaugh claimed a residence in Watertown, but being a drinking man was very much averse to having anything to do with a place with even the name of water in it and came to this city. He escaped with a \$2 fine.

Harry Marshall of New Bedford made his first appearance in the local police court and he also escaped with a \$2 fine.

Jeremiah Murphy of this city was before the court yesterday morning and as it was his second offense he was fined \$5. Jerry decided to celebrate after his fine had been paid and as a result of his drinking too freely in the morning found himself in police court again this morning. It will be a rather long time before Jerry gets another drink of intoxicating liquor for he will spend the summer down on the farm, the state farm at Bridgewater.

The case of Michael Sullivan, charged with drunkenness and assaulting Patrick Quinn was called for trial, but as Quinn is still in the hospital the case was continued till June 25th. He was held under \$400 bonds.

A first offender was fined \$2 and one man was released before the opening of court.

ON LAURENT CHARGE. John Cummings was arrested this

morning by Patrolman Bart Ryan on a warrant charging him with the larceny of a hammer and chisel, the property of Frank M. Bell. He will be arraigned in court tomorrow morning.

## HARVARD MEN

DID NOT MEET WITH SERIOUS INJURIES.

CAMBRIDGE, June 15.—J. H. Fargo and Gordon Smith, the two Harvard students who were injured in the overturning of an automobile on Harvard bridge early today, were found on examination at the Cambridge relief hospital, where they were taken, to have suffered no serious injuries.

It was at first believed that Frederick T. Freelinghuysen, a grandson of F. T. Freelinghuysen, secretary of state under President Arthur, the owner of the automobile, was one of those injured but this was found to be a mistake.

Sentenced to Ten Months in Jail

James T. Ganley, of this city, who was charged with larceny of money from Hattie Best, who conducted a bakery on Central street, in the old Barristers hall building, was today sentenced to ten months in the Lowell jail. Ganley had appealed from a sentence of one year imposed by the lower court, but inasmuch as he had spent two months in jail before being called for trial in the superior court, the judge took that into consideration and deducted the two months from the original sentence. Ganley was taken to Lowell this afternoon and entered upon his sentence.

## Platform to Their Liking Reported by Resolutions Committee

**Injunction Plank Agreed to After a Long Battle—Renomination of Roosevelt Threatened If "Allies" Turn Down Taft's Platform—The Platform is a Lengthy Document**

CHICAGO, June 18.—Victory for the Taft people on the republican committee platform was won today. A platform which contains an injunction plank satisfactory to the prospective candidate is embodied in the substantial structure of verbiage upon which it is to be made the secretary's appeal for popular approval. This result was attained with suddenness upon the collapse of two opposition early in the evening. Two hours before this the opponents of the injunction provision were rejecting offers of compromise and asserting with positiveness their ability to eliminate any injunction plank.

A telegram from President Roosevelt arrived, as well as a letter and telegram from Secretary Taft, each urging action. An ultimatum in substance: "If not in words had been delivered shortly before to the 'allies' which was interpreted as spelling the renomination of Roosevelt, should the convention refuse a platform upon which the secretary of war could stand with confidence. The following protracted discussion and the final adoption of the contested plank by a vote of 36 to 16.

There were a number of minor contentions in the committee but the Roosevelt-Taft idea prevailed in the ultimate analysis and while Thomas M. McCarter of New Jersey insisted on his right to take the question of injunction to the convention floor the prediction was made in authoritative quarters that no murmurs of the preliminary fight would be heard in that gathering.

Beginning with the adjournment of the convention Tuesday the work of the resolutions committee was practically continuous until 4:30 o'clock this morning when the finished platform was produced. It was not until 10 o'clock last night that the scales began to tip in favor of the administration forces but after the dissolution of the opposition began it was rapid and soon complete.

The court procedure plank as adopted by the committee on resolutions is as follows:  
"The republican party will uphold at all times the authority and integrity of the courts, state and federal, and will ever insist that their powers be enforced through process and to protect liberty and property shall be preserved inviolable. We believe, however, that the rule of procedure to the writ of injunction should be more accurately defined by statute and that no injunction or temporary restraining order should be issued without notice except irreparable injury would result from delay in which case a speedy hearing thereafter should be granted."

### THE PLATFORM.

CHICAGO, June 18.—The text of the platform as adopted by the committee on resolutions is as follows:  
Once more the republican party, in national convention assembled, submits its cause to the people. This great historic organization that destroyed slavery, preserved the Union, restored credit, expanded the national domain, established a sound financial system, developed the industries and resources of the country and gave to the nation her seat of honor in the councils of the world, now meets the new problems of government with the same courage and capacity with which it solved the old.

**REPUBLICANS UNDER ROOSEVELT.**  
In this, the greatest era of American advancement, the republican party has reached its highest service under the leadership of Theodore Roosevelt. His administration is an epoch in American his-

tory. In no other period since the national sovereignty was won under Washington or preserved under Lincoln has there been such mighty progress in these fields of government which make for justice, equality and fair dealing among men.

The highest aspirations of the American people have found a voice. Their most exalted servant represents the best aims and worthiest purposes of all his countrymen. American manhood has been lifted to a nobler plane; disputes, the obligations, conscience and courage in public station and higher standards of right and wrong in private life have become cardinal principles of political faith; capital and labor have been brought into closer relations of confidence and interdependence and the abuse of wealth, the tyranny of power and all the evils of privilege and favoritism have been put to scorn by the simple, manly virtues of justice and fair play.

The great accomplishments of President Roosevelt have been first and foremost, a brave and impartial enforcement of the law; the prosecution of illegal trusts and monopolies; the exposure and punishment of evil doers in the public service; the more effective regulation of the rates and service of the great transportation lines; the complete overthrow of preferences, rebates and discriminations; the untiring adherence to the policies and the conservation of the country; the forward step in the improvement of the inland waterways; and always the earnest support and defense of every wholesome safeguard which has made more secure the guarantee of life, liberty and property. These are the achievements that will make for Theodore Roosevelt his place in history but more than all else the great things he has done will be an inspiration to those who have yet greater things to do. We declare our unflinching adherence to the policies inaugurated and pledge their continuance under a republican administration of the government.

**EQUALITY OF OPPORTUNITY.**  
Under the guidance of republican principles the American people have become the richest nation in the world. Our wealth today exceeds that of England and all her colonies and that of France and Germany combined. When the republican party was born the total wealth of the country was \$16,000,000,000. It has leaped to \$110,000,000,000 in a generation while Great Britain has gathered but \$80,000,000,000 in five hundred years. The United States now owns one-fourth of the world's wealth and makes one-third of all modern manufactured products. In the great necessities of civilization such as coal, the motive power of all activity; cotton, the chief basis of all industry; wheat, corn and all the agricultural products that feed mankind, America's supremacy is undisputed. And yet her great natural wealth has been scarcely touched. We have a vast domain of three million square miles, literally bursting with latent treasure, still awaiting the magic of capital and industry to be converted to the practical uses of mankind; a country rich in soil and climate, in the unharnessed energy of its rivers and in all the varied products of the field, the forest and the factory. With gratitude for God's bounty, with pride in the splendid productivity of the past and

with confidence in the plenty and prosperity of the future, the republican party declares for the principle that in the development and enjoyment of wealth and blessings so begun, there shall be equal opportunity for all.

**THE REVIVAL OF BUSINESS.**  
Nothing so clearly demonstrates the sound basis upon which our commercial, industrial and agricultural interests are founded and the necessity of promoting their continued welfare through the operation of republican policies as the recent safe passage of the American people through a financial disturbance which, if appearing in the midst of democratic rule or the menace of it, might have equalled the familiar democratic panics of the past. We congratulate the people upon this renewed evidence of republican supremacy and hail with confidence the signs now manifest of a complete restoration of business prosperity in all lines of trade, commerce and manufacturing.

### RECENT REP. LEGISLATION.

Since the election of William McKinley in 1896 the people of this country have felt anew the wisdom of entrusting to the republican party through decisive majorities the control and direction of national legislation. The many wise and progressive measures adopted at recent sessions of congress have demonstrated the patriotic resolve of republican leadership in the legislative department to keep step in the forward march toward better government.

Notwithstanding the indefensible filibustering of a democratic minority in the house of representatives during the last session many wholesome and progressive laws were enacted and we especially commend the passage of the emergency currency bill; the appointment of the national monetary committee; the employers and government liability laws; the measures for the greater efficiency for the army and navy; the widows pension bill; the child labor law for the District of Columbia; the new statutes for the safety of railroad engineers and firemen, and many other acts concerning the public welfare.

**TARIFF ISSUE.**  
The republican party declares unequivocally for a revision of the tariff by a session of congress immediately following the inauguration of the next president and commends the steps already taken to this end in the work assigned to the appropriate committees of congress which are now investigating the operation and effect of existing schedules. In all tariff legislation the true principle of protection is to be maintained by the imposition of such duties as will equal the difference between the cost of production at home and abroad, together with a reasonable profit to American industries. We favor the establishment of maximum and minimum rates to be administered by the president under limitations fixed in the law, the maximum to be available to meet discriminations by foreign countries against American goods entering their markets and the minimum to represent the normal measure of protection at home, the aim and purpose of the republican policy being not only to preserve without excessive duties that security against foreign competition to which American manufacturers, farmers and producers are entitled but also to maintain the high standard of living of the wage earners of this country who are the most direct beneficiaries of the protective system. Between the United States and the Philippines we believe in a free interchange of products with such limitations as to sugar and tobacco as will afford adequate protection to domestic interests.

**CURRENCY.**  
We approve the emergency measures adopted by the government during the recent financial disturbance, and especially commend the passage by congress at the last session of the law designed to protect the country from a repetition of such emergency. The republican party is committed to the development of a permanent currency system, responding to our greater needs and the appointment of the national monetary commission by the present congress, which will impartially investigate all proposed methods, insure the early realization of this purpose. The present currency laws have fully justified their adoption, but an expanding commerce, a marvelous growth in wealth, and population multiplying the centers of distribution, increasing the demand for the movement of crops in the west and south, and entailing periodic changes in monetary conditions, require the need of a more elastic and adaptable system. Such a system must meet the requirements of agriculturalists, manufacturers, merchants and business men generally, must be adequate in operation, minimizing the fluctuations in interest rates, and above all must be in harmony with the republican doctrine which insists that every dollar shall be based upon and as good as gold.

**POSTAL SAVINGS.**  
We favor the establishment of a postal savings bank system for the convenience of the people and the encouragement of thrift.

**THE TRUSTS.**  
The republican party passed, the

Sherman anti-trust law over democratic opposition and enforced it after democratic dereliction. It has been a wholesome instrument for good in the hands of a wise and fearless administration. But experience has shown that its effectiveness can be strengthened and its real objects better attained by such amendments as will give to the federal government greater supervision and control over and secure greater publicity in the management of that class of commercial enterprise in interstate commerce having power and opportunity to effect monopolies.

### THE RAILROADS.

We approve the enactment of the railroad rate law and the vigorous enforcement by the present administration of the statutes against rebates and discriminations as a result of which the advantages formerly possessed by the large shippers over the small shipper have substantially disappeared and in this connection we recommend the appropriation by the present congress to enable the interstate commerce commission to thoroughly investigate and give publicity to the accounts of interstate railroads. We believe, however, that interstate commerce law should be further extended so as to give railroads the right to make and publish traffic agreements, subject to the approval of the commission but maintaining always the principle of competition between naturally competing lines and avoiding the common control of such lines by any means whatsoever. We favor such national legislation and supervision as will prevent the future over-issue of stocks and bonds by interstate carriers.

### RAILROAD AND GOVERNMENT EMPLOYEES.

The enactment in constitutional form at the present session of congress of the employers' liability law; the passage and enforcement of the safety appliance statutes as well as the additional protection secured for engineers and firemen; the reduction in the hours of labor of trainmen and railroad telegraphers; the schedule exercise of the powers of mediation and arbitration between interstate railroads and their employees, and the law making a beginning in the policy of compensation for labor and capital which the government are among the most commendable accomplishments of the present administration. But there is further work in this direction yet to be done and the republican party pledges its continued devotion to every cause that makes for the safety and the betterment of the nation, among which we especially contribute so much to the progress and welfare of the country.

### WAGE EARNERS GENERALLY.

The same wise policy which has induced the republican party to maintain protection to American labor; to establish an eight-hour day in the country of all public works; to increase the list of employees who shall have preferred claims for wages under the bankruptcy laws; to adopt a child labor statute for the district of Columbia; to direct an investigation into the condition of working women and children and later of employees of telephone and telegraph companies; to engage in interstate business; to appropriate \$100,000 at the recent session of congress in order to secure a thorough inquiry into the causes of catastrophes and loss of life in the mines; and to amend and strengthen the law prohibiting the interstate commerce of goods will be pursued in every legitimate direction within federal authority, to lighten the burdens and increase the opportunity for happiness and advancement of all who toil. The republican party recognizes the special needs of all public wage earners; the well being means the well being of all. But more important than all other considerations is that of good citizenship, and especially for the needs of every American, whatever his occupation, in his capacity of a self-respecting citizen.

### COURT PROCEDURE.

The republican party will uphold at all times the authority and integrity of the courts, state and federal, and will ever insist that their powers be enforced through process and to protect liberty and property shall be preserved inviolable. We believe, however, that the rules of procedure in the federal courts with respect to the issuance of the writ of injunction should be more accurately defined by statute, and that no injunction or temporary restraining order should be issued without notice except where irreparable injury would result from delay in which case a speedy hearing thereafter should be granted.

### THE AMERICAN FARMER.

Among those whose welfare is as vital to the welfare of the whole country as is that of the wage earner is that of the American farmer. The prosperity of the nation rests heavily upon the prosperity of agriculture. The republican party during the last twelve years has accomplished extraordinary work in bringing the resources of the national government to the aid of the farmer, not only in advancing agriculture itself but in increasing the consciousness of rural life. Free rural mail delivery has been established; it now reaches millions of our citizens and we favor its extension until every community in the land receives the full benefits of the postal service. We recognize the social and economic advantages of good country roads, maintained by the government largely at public expense and less and less at the expense of the abutting owner. In this work we commend the growing practice of state aid and we approve the efforts of the national agricultural department by experiments and otherwise to make clear to the public the best methods of road construction.

### THE RIGHTS OF THE NEGRO.

The republican party has been for more than fifty years the consistent friend of the American negro. It gave him freedom and citizenship; it wrote into the organic law the declarations that proclaim his civil and political rights and it believes that the nation's prosperity depends in intelligence, industry and good citizenship has earned the respect and encouragement of the nation. We demand equal justice for all men, without regard to race or color, we declare again and without reservation for the enforcement in letter and spirit of the fourteenth, fourteenth and fifteenth amendments to the constitution which were designed for the protection and advancement of the negro and we condemn all devices that have for their real aim his disfranchisement for reasons of color alone as unfair, un-American, and repugnant to the supreme law of the land.

### NATURAL RESOURCES AND WATERWAYS.

We endorse the movement inaugurated by the administration for the conservation of natural resources; we approve all measures to prevent the waste of timber; we commend the work now going on for the reclamation of arid lands and reaffirm the republican policy of the free distribution of the available areas of the public domain to the hapless settler. No obligation of the future is more insistent and none will result in more blessings to posterity. In line with this splendid undertaking is the further duty,

equally imperative to enter upon a systematic improvement upon a large and comprehensive plan just to all portions of the country of the waterways, harbors and great lakes, whose natural adaptability to the increasing traffic of the land is one of the greatest gifts of a benign Providence.

### THE ARMY AND NAVY.

The present congress passed many commendable acts increasing the efficiency of the army and navy; making the militia of the states an integral part of the national establishment; authorizing joint maneuvers of the army and militia; fortifying new naval bases and completing the construction of coaling stations; instituting a female nurse corps for naval hospitals and ships and adding two new battleships, ten torpedo boat destroyers, three steam colliers and eight submarines to the strength of the navy. Although at peace with all the world, and secure in the consciousness that the American people do not desire and will not provoke a war with any other country, we nevertheless declare our unshakable devotion to a policy that will keep this republic ready at all times to defend her traditional doctrines and assure her appropriate part in promoting permanent tranquility among the nations.

### PROTECTION OF CITIZENSHIP.

We commend the vigorous efforts made by the administration to protect American citizens in foreign lands and pledge ourselves to insist upon the just and equal protection of all our citizens abroad. It is the unquestioned duty of the government to procure for all citizens, without distinction, the rights of travel and sojourn in friendly countries and we declare ourselves in favor of all proper efforts tending to that end.

### FOREIGN COMMERCE.

Under the administration of the republican party the foreign commerce of the United States has experienced a remarkable growth until it has a present annual valuation of approximately three billions of dollars and sees employment to a vast amount of labor and capital which would otherwise be idle. It has inaugurated, through the recent visit of the secretary of state to South America and Mexico, a new era of Pan-American comity which is bringing us into closer touch with our twenty sister American republics having a common historical heritage a republican form of government and offering us a limitless field of legitimate commercial expansion.

### THE HAGUE TREATIES.

The conspicuous contributions of American statesmanship to the great cause of international peace so signally advanced in The Hague conferences are an occasion for just pride and gratification. At the last session of the senate of the United States eleven Hague conventions were ratified, establishing the rights of neutrals, laws of war on land, restriction of submarine mines, limiting the use of force for the collection of contractual debts, governing the opening of hostilities, extending the application of Geneva principles and, in many ways lessening the evils of war and promoting the peaceful settlement of international controversies. At the same session twelve arbitration treaties with great nations were confirmed and extradition boundary and neutralization treaties of supreme importance were ratified. We endorse such achievements as the highest duty a people can perform and proclaim the obligation of further strengthening the bonds of friendship and good will with all the nations of the world.

### MERCHANT MARINE.

We adhere to the republican doctrine of encouragement to American shipping and urge such legislation as will revive the merchant marine prestige of the country, so essential to national defense, the enlargement of foreign trade and the industrial prosperity of our own people.

### VETERANS OF THE WAR.

Another republican policy which must ever be maintained is that of generous provision for those who have fought the country's battles and for the widows and orphans of those who have fallen. We commend the increase in the widows' pensions made by the present congress and declare for a liberal administration of all pension laws to the end that the peoples' gratitude may grow deeper as the memories of heroic sacrifice grow more sacred with the passing years.

### CIVIL SERVICE.

We reaffirm our declaration that the civil service laws, enacted, extended and enforced by the republican party shall continue to be maintained and obeyed.

### PUBLIC HEALTH.

We commend the efforts designed to secure greater efficiency in national public health agencies and favor such legislation as will effect this purpose.

### BUREAU OF MINES AND MINING.

In the interest of the great mineral industries of our country we earnestly favor the establishment of a bureau of mine and mining.

### FOREIGN POSSESSIONS.

The American government in republican hands has freed Cuba, given peace and protection to Porto Rico and the Philippines under our flag and begun the construction of the Panama canal. The present conditions in Cuba vindicate the wisdom of maintaining perpetual bonds of mutual interest, and the hope is now expressed that the Cuban people will soon again be ready to assume complete sovereignty over their land.

In Porto Rico the government of the United States is meeting loyal and patriotic support; order and prosperity prevail and the well being of the people is in every respect promoted and conserved.

We believe that the native inhabitants of Porto Rico should be at once inductively made citizens of the United States and that all others properly qualified under existing laws, residing in said island should have the privilege of becoming naturalized.

realization of the hopes of centuries has come within the vision of the near future.

### NEW MEXICO AND ARIZONA.

We favor the immediate admission of the territories of New Mexico and Arizona as separate states in the Union.

### CENTENARY OF THE BIRTH OF LINCOLN.

February 12th, 1908, will be the 100th anniversary of the birth of Abraham Lincoln, an immortal spirit whose fame has brightened with the receding years and whose name stands among the great of whose given to the world by the first of our presidents. We recommend that this centennial anniversary be celebrated throughout the confines of the nation by all the people thereof and especially by the public schools as an exercise to stir the patriotism of the youth of the land.

### DEMOCRATIC INCAPACITY FOR GOVERNMENT.

We call the attention of the American people to the fact that none of the great measures here advocated by the republican party could be enacted and none of the steps forward here proposed could be taken under a democratic administration or under one in which party responsibility is divided. The continuance of the present policies therefore absolutely demands the continuance in power of that party which believes in them and which possesses the capacity to put them into operation.

Beyond all platform declarations there are fundamental differences between the republican party and its chief opponent which makes the one worthy and the other unworthy of public trust.

In history the difference between democracy and republicanism is that the one stood for the currency, the one for free silver, the other for sound money; the one for free trade, the other for protection; the one for the contraction of American influence, the other for its expansion; the one has been forced to abandon every position taken on the great issues before the people; the other has held and vindicated all.

In experience the difference between democracy and republicanism is that one means adversity while the other means prosperity; one means low wages, the other means high; one means do as you would be done by, the other means confidence and thrift.

In principle the difference between democracy and republicanism is that one stands for vacillation and timidity in government, the other for strength and purpose; one stands for obstruction, the other for construction; the one promises, the other performs; one finds fault with the work of the present tendency of the two parties is even more marked by inherent differences. The trend of democracy is toward socialism while the republican party stands for wise and regulated individualism. Socialism would destroy wealth. Republicanism would prevent its abuse. Socialism would give to each an equal right to take; republicanism would give to each an equal right to earn. Socialism would offer an equality of possession which would soon leave no one anything to possess; republicanism would give equality of opportunity which would assure to each his share of a constantly increasing sum of possessions. In line with this tendency the republican party of today believes in government ownership while the republican party believes in government regulation. Ultimately democracy would have the nation own the people, while republicanism would have the people own the nation.

Upon this platform of principles and purpose, reaffirming our adherence to every republican doctrine proclaimed since the birth of the party, we go before the country asking the support not only of those who have acted with us heretofore but of all our fellow citizens, who, regardless of past political differences, unite in the desire to maintain the policies, principles and blessings and make more the achievements of a greater America.

**AN "ALLY"**  
MAY BE NOMINATED FOR VICE PRESIDENT.

CHICAGO, June 18.—Major Thomas Hagan, of the Philippine division, returned from Washington where he saw Secretary Taft. Major Hagan returns with the distinct impression that if a spirit of conciliation sets in on the part of the "allies" the vice presidential situation will be resolved by the selection of an "ally" candidate for vice president, but if contests are prolonged the names of Mr. Fairbanks and others identified with the "allies" will be eliminated from vice presidential lists.

### YACHT ZUHRAH

WON RACE FROM BERMUDA TO NEW YORK.

NEW YORK, June 18.—The schooner yacht Zuhrah, owned by Henry Decker, of the New Rochelle Yacht club, won the special race from Bermuda to New York over her old rival, the Esperanza, owned by J. Dalzell McKee of Pittsburgh. Both boats finished at Scotland lightship this morning. The race was for a \$200 cup.

### PRES. ROOSEVELT

KEEPING IN CLOSE TOUCH WITH CONVENTION AFFAIRS.

WASHINGTON, June 18.—President Roosevelt and Secretary Taft today had their fingers on the pulse of the Chicago convention. Shortly before 10 a.m. the secretary reached his private office in the war department and immediately plunged into the business of the day. The bureau of the disposition of routine business Secretary Taft was requested by a photographer to pose for a picture.

"An right," he responded genially. "I'm posing now."

There were other addresses by Grand Sentries John R. White of Holyoke, Supervising Deputy A. S. Foster of Florence, Frank S. Gaunt, regent of Pynchon council, and Francis Dargin, secretary of Equity council. The reception was well attended, about 250 being present, which included delegations from Pynchon council of this city, Nantucket council of Holyoke, Quabong council of Palmer and Florence council of Florence. ## ON WEDDING TOUR

Appendicitis

William Cheney, formerly of this city and well known here in club and social life, was in Lowell yesterday and called on Mayor Farnham. Mr. Cheney is now in business in Baltimore though his home is in Portland, Me. "Billy," as he was familiarly called, was a great bowler and was captain, at one time, of the Highland club. His visit in Lowell terminated in a sudden call to Boston. His daughter, Margaret was married a few days ago to a young man of Ellsworth, Me., a banker, and while at the Parker House, in Boston, the first stop on their honeymoon, he was taken sick. Physicians were summoned and they decided that he had appendicitis and the advisability of an operation was discussed. When the young bride learned from the doctors that her husband was seriously ill she telegraphed her father in this city.

## THE INSULT TO OUR FRENCH CITIZENS

WE HAVE WATCHED WITH DEEP SYMPATHY THE ACTION OF OUR FRENCH AMERICAN RESIDENTS IN RESENTING THE WANTON INSULT OFFERED THEIR NATIONALITY IN THE UNITED STATES BY AN UNSIGNED ARTICLE IN THE NEW YORK SUN.

NOBODY NEED BE SURPRISED AT ANYTHING PUBLISHED BY THE NEW YORK SUN, FOR WE FIRMLY BELIEVE THAT THERE IS SCARCELY A SINGLE PUBLIC ISSUE OF THE LAST GENERATION ON WHICH THAT PAPER CANNOT BE QUOTED ON BOTH SIDES. WE VENTURE TO SAY THAT IF ITS FILES WERE SEARCHED SOME OF THE HIGHEST TRIBUTES WOULD BE FOUND FOR THE FRENCH CITIZENS OF THIS COUNTRY.

BUT WE ARE NOW DEALING WITH A MOST OUTRAGEOUS ATTACK UPON THE FRENCH CANADIANS OF THIS COUNTRY BY THE NEW YORK SUN AND WE THOUGHT IT WOULD BE QUITE APPROPRIATE TO SET UP THE VIEWS OF THE LOWELL SUN AGAINST THOSE PUBLISHED BY ITS NEW YORK NAMESAKE.

ON THIS SUBJECT WE HAVE HAD SUFFICIENT OPPORTUNITY TO JUDGE OF THE FRENCH PEOPLE FROM OUR INTERCOURSE WITH THE 25,000 OF THAT NATIONALITY IN THIS CITY AND WE CAN SAY WITHOUT FEAR OF CONTRADICTION THAT THEY ARE UNQUESTIONABLY ONE OF THE MOST PROGRESSIVE, LAW ABIDING, INTELLIGENT AND INDUSTRIOUS PEOPLES THAT HAVE CAST THEIR LOT ON THESE SHORES.

LOOK AT THEIR RAPID GROWTH IN OUR OWN CITY; LOOK AT THE FINE BUILDINGS AND THE VAST AMOUNT OF REAL ESTATE THEY OWN TODAY; LOOK AT THEIR SCHOOLS AND THEIR CHURCHES, LOOK AT THE SPLENDOR OF THEIR TURN-OUTS ON FESTIVE OCCASIONS WHEN THEY APPEAR IN STREET PARADE—CONSIDER THEM IN ANY ASPECT YOU PLEASE AND IF YOU ARE A FAIR-MINDED OBSERVER, YOU WILL FULLY CONCUR WITH THE ESTIMATES OF THEIR WORTH HERE SET FORTH AS THE RESULT OF INTIMATE KNOWLEDGE OF THE FRENCH RESIDENTS OF THIS CITY.

THE FRENCH CITIZENS OF LOWELL ARE NO BETTER THAN THOSE OF FALL RIVER, NEW BEDFORD AND OTHER AMERICAN CITIES AND HENCE WE ASSERT THAT THE CONTEMPTIBLE, SCURRILOUS AND WANTON ATTACK OF THE NEW YORK PAPER MUST HAVE HAD ITS ORIGIN IN THE IMAGINATION OF SOME DISEASED BRAIN.

NOT ONLY IS IT AN INSULT TO THE FRENCHMEN ALIVE TODAY, BUT EQUALLY AN INSULT TO THE MEMORY OF THE LATE REV. FR. GARIN, O. M. I., AND SCORES OF OTHER NOBLE PIONEERS WHO HELPED TO BUILD UP THIS REPUBLIC BY THEIR WISE LEADERSHIP, THEIR PIOUS AND SELF-SACRIFICING LIVES.

WERE FATHER GARIN ALIVE TODAY, WE SURMISE HE WOULD TELL HIS PEOPLE NOT TO FRET OVER SUCH SILLY ATTACKS, FOR HOWEVER WIDELY CIRCULATED, THEY ARE FULLY ANSWERED AND REFUTED BY THE FACTS OF HISTORY KNOWN TO EVERY CHILD IN AMERICA.

YET, STRANGE TO SAY, A PROMINENT BUT ERRATIC JOURNAL SUCH AS THE NEW YORK SUN, SEEMS TO HAVE FORGOTTEN THE PLAIN FACTS OF HISTORY THAT GIVE THE FRENCH ARMIES AND THE FRENCH FLEET THE CREDIT OF SO ACTING AT A CRITICAL PERIOD IN THE REVOLUTION AS TO MAKE POSSIBLE THE SURRENDER OF CORNWALLIS AT YORKTOWN.

THE STORY IS A BRIEF ONE AND IT MAY REFRESH THE MEMORY OF SOME TO REPEAT IT HERE.

GENERAL GREENE HAD BEEN GIVING THE BRITISH SOME HARD BLOWS, BUT WAS FINALLY DEFEATED BY CORNWALLIS AT GUILFORD COURT HOUSE, MARCH 15, 1781.

CORNWALLIS RETIRED TO WILMINGTON, NORTH CAROLINA, AND FINALLY TO VIRGINIA, WHERE HE WAS SKILFULLY HELD AT BAY BY THE MARQUIS DE LAFAYETTE AT THE HEAD OF A FRENCH ARMY. MEANWHILE WASHINGTON WAS THREATENING A LAND ATTACK ON NEW YORK, WHERE GENERAL CLINTON GUARDED THE CITY, WHILE THE FRENCH FLEET, UNDER COUNT DE GRASSE, THREATENED AN ATTACK FROM THE SEA. SO WELL DID THIS FEINT WORK THAT GENERAL CLINTON SENT AN APPEAL TO CORNWALLIS FOR TROOPS TO AID IN THE DEFENCE OF NEW YORK. SUDDENLY THE FRENCH FLEET SAILED AWAY FOR VIRGINIA AND WASHINGTON WITH HIS ARMY MADE FORCED MARCHES TO YORKTOWN. BEFORE CLINTON KNEW WHAT WAS DONE THE FRENCH FLEET AND THE AMERICAN ARMY HELD CORNWALLIS IN A TRAP.

CORNWALLIS NOW BEGGED CLINTON TO COME TO HIS RESCUE WITH SHIPS AND MEN.

THE BRITISH HAD THROWN UP FORTIFICATIONS AT YORK-

TOWN AND GLOUCESTER ON OPPOSITE SIDES OF THE YORK RIVER. THE FRENCH TROOPS UNDER ROCHAMBEAU AND THE AMERICAN TROOPS UNDER WASHINGTON SURROUNDED THE BRITISH WORKS WHILE THE FRENCH FLEET HELD THE ENTRANCE TO THE BAY.

BY THE END OF SEPTEMBER THE SIEGE OF YORKTOWN WAS BEGUN. EVERY DAY THERE WAS AN ADVANCE, AND BRILLIANT ATTACKS WERE MADE UPON THE BRITISH WORKS. THE SITUATION OF CORNWALLIS WAS BECOMING DESPERATE. HIS SHIPS WERE FIRED BY THE FRENCH FLEET, GREAT NUMBERS OF HIS MEN WERE IN HOSPITALS, AND CLINTON HAD NOT ARRIVED. IT WAS NO LONGER POSSIBLE TO HOLD YORKTOWN AND ON OCTOBER 19, 1781, GENERAL CORNWALLIS SURRENDERED.

THESE ARE THE FACTS OF THE FINAL BATTLE FOR THE ESTABLISHMENT OF THIS GLORIOUS REPUBLIC. IS THERE ANY SANE MAN, MUCH LESS A WELL INFORMED SOLDIER, WHO WOULD SAY THAT WITHOUT THE ASSISTANCE OF THE FRENCH BY LAND AND SEA, THERE WOULD HAVE BEEN ANY SURRENDER AT YORKTOWN?

HERE, THEN, IS THE WARRANT BY WHICH THE FRENCH PEOPLE PROVE THEIR RIGHT TO CITIZENSHIP IN THIS REPUBLIC. IF IT BE CHARGED THAT THE FRENCH CITIZENS OF TODAY ARE LESS CHIVALROUS THAN WERE THE MEN WHO FOUGHT WITH WASHINGTON FOR THE INDEPENDENCE OF THE COLONIES, WE WOULD RESPECTFULLY INVITE THE SKEPTIC, AND PARTICULARLY THE CORRESPONDENT OF THE NEW YORK SUN, TO VISIT LOWELL ON JULY 4, WHEN HE WILL HAVE AN OPPORTUNITY TO JUDGE OF OUR FRENCH CITIZENS FROM A MILITARY STANDPOINT IN THE PARADE OF THE FRENCH VOLUNTEER BRIGADE, HELD UNDER THE AUSPICES OF GARDE FRONTENAC OF LOWELL.

## SEEN AND HEARD

To avoid misapprehension it may be well to say that the Wellesley girls on Tree day do not show their ability in climbing trees.

Literary work is all right, but the surest way to make your name a household word is to advertise extensively.

A girl has no objection to having it said that a young man is paying court to her, but the old-fashioned word, "courtship," does not please her.

If young people all knew as much as they think they do, old people would have even more reason to feel ashamed than they have now.

Some of the people who eagerly accept every opportunity to sing in public ought to be taught that a loud voice isn't always musical.

The thing now is to get the Pure Food law amended so that it will cover the proceedings in boarding-house kitchens and in restaurants.

When your friend comes in an automobile to visit you, it is not considered good form to ask him when he arrives, "Did you kill anybody on the way up?"

The total abstinence man is embarrassed when he discovers that somebody has worked off on him a Canadian half-dollar. The other man doesn't care, for he knows that he can pass it easily in a saloon.

The average bachelor may not know much baby talk, but he can always be depended upon to talk about the "choochoo" cars.

A young man has about as much reason to blame the girl who doesn't love him as he has to blame the olives that he doesn't like.

When the women at the sewing circle start a hot discussion and get rippin' mad, it must help a lot if they are making over things.

The pastor of a Chicago church insists on having a regularly fitted up courtship room for the young people, with cozy corners, screens, chaperons and lamps that can be turned away down. He says courtship is essential to happiness and that it is the province of the church to do everything possible for the happiness of its members. What do you know about that?

And now comes Orville W. Peabody, Lowell's heavyweight poundkeeper, acting for an automobile. Somebody tipped Orville off that the heads of departments were all looking for automobiles and "Peab" allowed that if he would improve his chances he would have to get in on the ground floor. He says he doesn't care so much about the automobile for business purposes. He admits that an auto would be a poor thing with which to drive a pig to town, but he wants to keep even with "Dan" Leary. Dan, it will be remembered, put up a strenuous battle with

Orville for the poundkeeper's office, and despite the fact that Dan was defeated by Orville he has managed to buy an automobile. Orville has got it into his head that Dan bought the machine for the purpose of taking voters to the polls next fall and he's afraid that if he doesn't get a machine Dan will defeat him in the fight for poundkeeper. Another thing Orville has asked for and that is one day off in thirty. He says he is just as deserving of a day off as is a policeman, and influential friends of his will put the proposition up to the mayor. A republican alderman who is a bit of a humanitarian has suggested that the poundkeeper should wear a uniform so that pigs, horses, hens and other things subject to imprisonment in the Warren street pound would be given an opportunity to get out of the way on the approach of Orville. The alderman's argument is that the criminal has that opportunity with the policeman, and he believes that the animals subject to arrest by Orville should be given the same chance. Orville says he doesn't want to wear a uniform but he would wear it rather than throw this job up.

## EDITORIAL COMMENT

EYE AND EAR INSPECTION.  
Boston Post: As now amended by the legislature the law requiring medical inspection and the examination of the sight and hearing of the children in public schools becomes compulsory on every school committee in the state. It goes farther, we believe, in the care and protection of the children's health than the legislation of any other state.

It is paternalistic of course, but the argument for it is put strongly by Secretary George H. Martin of the state board of education when he says:

"The obligation to care for the health of the children rests upon the same legal basis as the obligation to furnish instruction, and the school committee have equal powers in the two kinds of work."

The objection is not so much to the idea itself as to the method in centralizing the work. As the school committee is the representative and agent of the state, this obligation is now entirely independent of any action which the town or city may take.

The healthier way would have been that of home rule and home responsibility in continuing this medical inspection as in the first instance dependent on local action which would have grown to vigorous enforcement.

## PRAISE FOR DRAPER.

New Bedford Standard: Lieutenant-Governor Draper's short term of service as acting governor of this state has made for him political friends and allies of many who had viewed his candidacy for the governorship with indifference, if not distrust. If he will announce that he proposes to administer the affairs of the state next year in the spirit he has manifested while serving in the period of Governor Gull's illness, with especial reference to keeping expenditures down to a reasonable figure, he will receive hearty support where otherwise small enthusiasm would have been manifested. Governor Draper has shown some disposition to protect the taxpayer, which means everybody in the commonwealth, from the extravagance and the recklessness which have dominated the legislatures, and he has exhibited courage and decision which were grateful to contemplation.

## KILLED HIMSELF

Boy Unhappy Because  
Parents Separated

OAKLAND, June 17.—Unhappy because his father and mother were separated, and he could not find a congenial home with either, Harold H. Hardy, a schoolboy of 14 years and son of a prominent merchant, crept under the oak trees in Cemetery Creek, near Napier street, and ended his life by drinking carbolic acid.

He had been at the home of his grandmother, 2031 Richmond boulevard, all the day, remaining away from school. He read for a while from the "Sea Wolf," by Jack London, and then, fired by the philosophy of the grim sea captain that death is not much worse than an unhappy life, he went to the glade, carrying with him the acid with which he killed himself.

He had taken the poison from a bottle kept by his grandmother, Mrs. W. B. Hardy.

The boy's father, Tracy Hardy, who is the proprietor of a book store at 861 Broadway, was divorced from the boy's mother eight years ago. Both married again, the mother now being Mrs. Herbert Bradford of Evergreen, Santa Clara county. The father and his wife live at 365 Twenty-ninth street.

After the separation of his parents Harold went to live with his paternal grandmother.
